Analysis

Total expenditures for support in 1953-54 amount to $933,390, an increase of $40,991 or 4.6 percent over 1952-53. The average population remains unchanged in the 1953-54 Fiscal Year.

SALARIES AND WAGES: The increase of $26,800 is accounted for as follows: Two new positions and one reclassification at a cost of $5,873.

1 Intermediate stenographer-clerk is required to perform clerical duties in the library in order that the present librarian can devote her time to more productive work such as assisting in research projects, acting as a reference worker and checking current literature.
1 Kitchen helper is required to provide the necessary food preparation staff plus relief for vacation, sick leave and holidays.
1 Supervisor of rehabilitation therapies—replacing one occupational therapist II is required to provide a position comparable to that allowed the mental hospitals to organize and direct a rehabilitation therapy program.

The increased cost of authorized positions and salary savings accounts for the balance of increase in salaries in 1953-54.

OPERATING EXPENSES: The level of estimated expenditures is primarily the same for the 1952-53 and 1953-54 Fiscal Years.

EQUIPMENT: The amount of $33,496 provides $20,987 for replacement and $12,509 for additional equipment. The replacement equipment amounts to 9.6 percent of the equipment investment on June 30, 1952. A mobile X-ray unit, $3,543, and an automatic brain electronic triggering apparatus, $800, are significant items of additional equipment.

REIMBURSEMENTS: A total of $10,260 is estimated for both the 1952-53 and 1953-54 Fiscal Years and is primarily from meal sales to employees.

---

[a] Composed of savings in salaries and wages, $66,973; operating expenses, $5,524; equipment, $1,411; and excess reimbursements, $710.

[b] Composed of savings in salaries and wages, $4,355.

[c] Represents average count Monday through Friday and excludes week-end visits. Practically all active treatment therapy is given during these five days. The feeding allotment is based upon the seven-day average for approximately 10 percent less inpatients than shown above.

[d] Represents the total number of interviews by the professional staff. A total of 17,228 hours was applied by the staff during 1951-52, of which 16,586 hours was spent on treatment services to patients and an estimated 642 hours on preventive services to communities.

[e] Costs have been allocated between inpatient and outpatient departments on the basis of estimated time distribution of all employees and a proportioned allocation of other expenses.

GENERAL ANALYSIS

The Psychiatric Hospital Clinic, Los Angeles, is to operate in conjunction with the University of California at Los Angeles, similar to the method of operating the Langley Porter Clinic in conjunction with the University of California on the campus of the Medical School in San Francisco.

The University of California at Los Angeles Medical School is now in operation and the professor of psychiatry at the school will also be the superintendent of the Psychiatric Hospital Clinic. There is budgeted for the 1953-54 Fiscal Year the three-fourths time salary for this medical superintendent of the Psychiatric Hospital Clinic and a senior stenographer-clerk to render clerical assistance, in order that the superintendent might consult with architects for the department regarding the plans for construction of the Psychiatric Hospital Clinic which is to be built as a portion of the Medical School of the University of California at Los Angeles. Office and traveling expense necessary for the proper functioning of these two positions is budgeted for the 1953-54 Fiscal Year in the amount of $950. Equipment for these two positions will be provided by the University of California at Los Angeles.

Average population	4,260	4,419	4,292	—127
Per capita cost	$1,005	$1,093	$1,159	$66 (6%)

Analysis

Total expenditures for support in 1953-54 amount to $4,974,063, an increase of $142,729 or 3 percent over 1952-53. The average population for 1953-54 is 2.9 percent less than 1952-53.

SALARIES AND WAGES: The increase of $92,979 is accounted for as follows: Thirty-four new positions at a cost of $128,808. Complement positions affecting all hospitals are explained under "STATE HOSPITALS AND HOMES FOR MENTALLY DEFICIENT" following the departmental summary. In addition, a miscellaneous position consisting of a telephone operator is needed to properly man a two position switchboard, ten trunk lines, and the local calls. The increased cost of authorized positions and salary savings accounts for the balance of change in salaries in 1953-54.

OPERATING EXPENSES: The increase of $54,654 is accounted for as follows: The enriched food ration for the estimated population in 1953-54 accounts for a gross ration increase of $91,175, and a net ration increase after local production of $83,449. The augmented allowance for rehabilitation therapy supplies for the estimated population in 1953-54 accounts for $4,078. Other factors of change are primarily due to population and price.

EQUIPMENT: The amount of $145,603 provides $74,156 for replacement and $71,447 for additional equipment. The replacement equipment amounts to 4.4 percent of the equipment investment on June 30, 1952. The following are significant additional items: office equipment for new positions, $3,530; food mixer, $1,680; dental office equipment, $4,965; electroencephalograph channel, $722; explosion-proof operating room light and a suction unit for surgery, $728; pianos, $1,635; television, $2,500; "yard lift" truck, $4,560; tractor with disc harrow and power unit control, $7,060; cutter-dicer for fruit and vegetable canning, $1,900.

REIMBURSEMENTS: A total of $88,022 is estimated for both 1952-53 and 1953-54 fiscal years and is primarily from meal sales and rentals to employees.

ATASCADERO STATE HOSPITAL

A hospital for mental patients requiring maximum security facilities, located near Atascadero, San Luis Obispo County.

EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53

GENERAL ANALYSIS				
Number of positions	–	–	*287.9*	*287.9*
Population and Unit Costs:				
Average population	–	–	75	75
Per capita cost	–	–	$6,759	$6,759

The budget for Atascadero State Hospital is based on 500 patients being transferred into the hospital during the period April 1 to June 30, 1954, plus 585 patients transferred on July 1, 1954, for which personnel must be provided in advance. Of the first group, it is planned to transfer 300 patients from the security ward at Mendocino State Hospital and 200 sex psychopaths from Norwalk State Hospital. The second group to be received on July 1, 1954, will include 100 additional patients from Mendocino and 200 sex psychopaths from Norwalk, as well as those patients throughout the various hospitals who require maximum security because of the type of commitment or because of the dangerous mental condition of the patient.

It will be noted that in the staffing of this institution, a number of the positions are requested for establishment of January 1, as well as on March 1, 1954, due to the fact that the various departments of the hospital must be equipped and functioning when patients are received. Also, psychiatric technician trainees and other personnel need in-service training prior to the arrival of the patients and for this reason staffing is provided a month or more in advance of the actual receipt of the patients.

Data respecting some of the functions and areas of operation of the hospital and its staffing are as follows:

ADMINISTRATION: The general administrative office, accounting, storekeeping, and telephone staffs must be provided on the basis of certain functions for each employee. The complement of employees is based on the approved standards for administration and clerical employees established for other hospitals.

Key administrative positions are provided similar to other hospitals which, of course, will not be increased in number as the patient population increases.

SUPPORT AND SUBSISTENCE: The staff of culinary personnel is based in a patient population of 500 in accordance with a post assignment schedule.

The laundry operation is staffed for minimum post coverage and the planned use of patient helpers in lieu of employee laundry helpers.

CARE AND WELFARE: The professional employees under the function of medical care are staffed on a basis similar to that of other hospitals, including doctors, psychologists, dentists, pathologists, laboratory technicians, pharmacists, X-ray technicians, and physical therapists. Also, a staff of rehabilitation therapists and a social worker position is provided for the initial group of patients.

NURSING SERVICE: The patients' areas of this hospital are divided into 17 wards; four wards will be staffed as an acute treatment area, six wards as a psychotic unit, five wards as a psychopathic unit, and two as an open dormitory. The basic staffing consisting of 186 positions follows:

1. Atascadero ward staffing for 500 patients to be received April 1, 1954.

		Ward coverage data		
Type	*Patient Capacity*	*Post*	*Relief*	*Total*
HOSPITAL				
Admission	36	8	5	13
Medical and Surgical	56	14	8	22
Isolation	20	6	4	10
Total Hospital	112	28	17	45
Psychotic Unit (Five Floors)	431	40	24	64
Total	543	68	41	109

2. Atascadero ward staffing to make ready those buildings (capacity 541) estimated to be completed April 1, 1954, and in operation on July 1, 1954. Prior staffing allows time for recruitment, organization, and training.

		Ward Coverage Data		
Type	*Capacity*	*Post*	*Relief*	*Total*
Psychotic	299	28	17	45
Psychopathic	242	20	12	32
Total	541	48	29	77
GRAND TOTAL	1,084	116	70	186

A superintendent of nursing service is responsible for the administration of the nursing staff with an assistant superintendent of nursing service on duty on each of three shifts plus relief for daily coverage.

The supervisory nursing staff includes a psychiatric nursing instructor and a supervising psychiatric nurse for education purposes plus five supervising psychiatric nurses to permit assignment of one on each shift daily with relief in the acute area. Five supervising psychiatric technicians provide comparable coverage in the general treatment areas of one on each shift daily with relief.

One psychiatric nurse is provided for the clinic and two surgical nurses for surgery and central supply.

One clothing room clerk is provided to control the receipt, issuance, inspection, and condemnation of all clothing.

Four hospital aides are for the purpose of delivery of mail, laundry, food, clothing, and central supply items to the various wards.

LINE	EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53

GENERAL ANALYSIS—Continued

MAINTENANCE OF PLANT: A standard staff of maintenance craftsmen is required for this institution. The boiler plant is operated 24 hours daily which requires five stationary firemen and an engineer. Many modern mechanical features are included in this institution, such as extensive refrigeration and electrical facilities. The latter include a listening system connected with all areas and rooms in the hospital, and a control room whereby a person can hear the activities in any portion of the hospital. A crew of craftsmen will be needed to keep the plant in proper operating condition. Five equipment operators for this hospital will be required for the hauling of general supplies, garbage and trash, tractor operations to care for discing of grounds and provision of fire breaks, for driving maintenance trucks, and one for relief.

SECURITY FORCE: A security force consisting of 40 positions is provided due to the type of patients in this hospital. The staff includes one correctional lieutenant to be responsible for the security force and five correctional sergeants to place one in charge of each shift daily with relief. Thirty-four correctional officers are included to provide 22 on the following posts plus 12 for relief:

Front sally port, one each shift	3
Rear sally port, two men on one and one-half shift	3
Control and listening, one each shift	3
Dining rooms for one shift	4
Visiting room, screening room, and inside patrol of buildings	5
Laundry (five-day operation, one shift)	1
Outside patrol, one each shift	3
Relief	12
Total	34

Replacement of Flood Loss:				
Allocations from Emergency Fund	$19,360	$20,021	–	—$20,021
Unexpended balance, estimated savings	—1,377	–	–	–
TOTAL EXPENDITURES, REPLACEMENT OF FLOOD LOSS	$17,983	$20,021	–	—$20,021
TOTAL EXPENDITURES	$5,275,552	$6,299,440	$7,007,607	$708,167 (11.2%)
GENERAL ANALYSIS				
Number of positions	*1,158.4*	*1,345.4*	*1,465.5*	*120.1*
POPULATION AND UNIT COSTS				
Average population	5,564	6,456	6,783	327
Per capita cost	$945	$973	$1,033	$60 (6.2%)

Total expenditures for support in 1953-54 amount to $7,007,607, an increase of $728,188 or 11.6 percent over 1952-53. The average population for 1953-54 is 4.8 percent greater than the estimate for 1952-53.

SALARIES AND WAGES: The increase of $502,072 is accounted for as follows: Forty-six new positions at a cost of $158,840. Complement positions affecting all hospitals are explained under "STATE HOSPITALS AND HOMES FOR MENTALLY DEFICIENT" following the departmental summary. The 3.3 miscellaneous positions are individually explained below.

1 Shoemaker is required for the additional volume of repair work occasioned by the increased population at this hospital

0.3 Motion picture operator time increase is required to provide a weekly show for all patients allowed to attend movies and provide time for the service and maintenance of the equipment

1 Painter position is required to provide better maintenance of the 5,500,000 square feet of interior surfaces subject to painting.

1 Institution fireman is required because of the size of the institution to assist the institution fire marshal to properly service and test all firefighting equipment and provide adequate coverage when the fire marshal is off duty.

The balance of the increase in salary expenditures in 1953-54 is due to the increased cost of authorized positions and an estimated reduction in salary savings as a result of the completion of new temporary housing facilities for employees accompanied by intensive recruitment efforts.

OPERATING EXPENSES: The increase of $263,196 is accounted for as follows: The enriched food ration for the estimated population in 1953-54 accounts for a gross ration increase of $156,342 (a net ration increase after local production of $141,134). The augmented allowance for rehabilitation therapy supplies for the estimated population in 1953-54 accounts for $6,443.

The light, heat, and power requirements for the new kitchen No. 3 accounts for an increase of $13,687.

Dairy feed supplies for an increased herd in 1953-54 accounts for $15,694.

Other factors of change, primarily due to population and price, account for the balance.

EQUIPMENT: The amount of $89,490 provides $50,767 for replacement and $38,723 for additional equipment. The replacement equipment amounts to 2.7 percent of equipment investment on June 30, 1952. The following are significant additional items of equipment: office equipment for new positions, $3,741; toasters, $1,133; deep fat fryers, $1,432; bookcases and chairs, $3,461; fire hose, $3,092; pickup truck, $1,350; hydraulic end gate, $1,030; and feeder pigs, $6,000.

REIMBURSEMENTS: A total of $170,680 is estimated for 1953-54, an increase of $8,448 over 1952-53, and is attributable to rental of living quarters to employees.

---

[a] Composed of savings in salaries and wages, $741,089; operating expenses, $7,198; equipment, $26,236; and excess reimbursements, $9,713.

[b] Composed of savings in salaries and wages, $31,130; and operating expenses, $68,537.

TOTAL EXPENDITURES FOR SUPPORT	$3,070,412	$3,415,438	$3,638,974	$223,536 (6.5%)
GENERAL ANALYSIS				
Number of positions	*688.3*	*673.1*	*692.4*	*19.3*
POPULATION AND UNIT COSTS				
Average population	2,989	3,082	3,138	56
Per capita cost	$1,027	$1,108	$1,160	$52 (4.7%)

Total expenditures for support in 1953-54 amount to $3,638,974, an increase of $223,536 or 6.5 percent over 1952-53. The average population for 1953-54 is 1.8 percent greater than the estimate for 1952-53.

SALARIES AND WAGES: The increase of $102,542 is accounted for as follows: 12 new positions at a cost of $52,776. Complement positions affecting all hospitals are explained under "State Hospitals and Homes for Mentally Deficient" following the departmental summary. The balance of the increase in salaries and wages is due to the increased cost of authorized positions and a decrease in salary savings as a result of improved recruiting.

OPERATING EXPENSES: The increase of $112,251 is accounted for as follows: The enriched food ration for the estimated population in 1953-54 accounts for a gross ration increase of $76,216 (a net ration increase after local production of $76,041). The augmented allowance for rehabilitation therapy supplies for the estimated population in 1953-54 amounts to $2,981. The increase in water and sewage is due to an allowance of $4,400 for chemicals for the prevention and correction of corrosion to hot water tanks. Other factors of change, primarily due to population and price, account for the balance.

EQUIPMENT: The amount of $76,883 provides $43,694 for replacement and $33,189 for additional equipment. The replacement equipment amounts to 4.9 percent of equipment investment on June 30, 1952. The following are significant additional items of equipment: office equipment for new positions, $1,343; additional chairs, $7,300; pianos, $1,200; and bus, $12,500.

REIMBURSEMENTS: A total of $85,964 is estimated for both the 1952-53 and the 1953-54 Fiscal Years and is attributable to meal sales and rental of living quarters to employees.

GENERAL ANALYSIS

Number of positions	*552.5*	*547.4*	*603.7*	*56.3*
POPULATION AND UNIT COSTS				
Average population	2,693	2,668	2,671	3
Per capita cost	$929	$1,044	$1,132	$88 (8.4%)

Total expenditures for support in 1953-54 amount to $3,024,595, an increase of $239,365 or 8.6 percent over 1952-53. The average population for 1953-54 is estimated at approximately the same level as for 1952-53.

SALARIES AND WAGES: The increase of $201,055 is accounted for as follows: Thirteen new positions at a cost of $43,368. Complement positions affecting all hospitals are explained under "State Hospitals and Homes for Mentally Deficient" following the departmental summary. A miscellaneous position consisting of an auto mechanic is required in addition to the one authorized mechanic to properly repair and service the 42 pieces of mechanical equipment. The automotive shop also carries on the function of dispatcher of automotive equipment. The increased cost of authorized positions and decreased salary savings anticipated as a result of the completion of new temporary housing facilities for employees, accompanied by intensive recruitment efforts, accounts for the balance of the increase.

OPERATING EXPENSES: The increase of $45,885 is accounted for as follows: The enriched food ration for the estimated population in 1953-54 accounts for a gross ration increase of $61,148, and a net ration increase of $40,128 after local production consumed. The augmented allowance for rehabilitation therapy supplies for the estimated population in 1953-54 accounts for $2,538. Other factors of change are primarily due to population and price.

EQUIPMENT: The amount of $73,901 provides $46,706 for replacement and $27,195 for additional equipment. The replacement equipment amounts to 5 percent of the equipment investment on June 30, 1952. The following are significant additional items: office equipment for new positions, $1,487; feeding equipment, $6,575; diathermy and spectrophotometer, $1,235; radio-phonograph equipment, $1,000; piano, $600; milking machine, $2,700.

REIMBURSEMENTS: A total of $87,570 is estimated for the 1953-54 Fiscal Year and it consists of services to employees and sale of surplus products.

TOTAL EXPENDITURES FOR SUPPORT	$3,321,944	$3,843,699	$4,038,138	$194,439 (5.1%)
GENERAL ANALYSIS				
Number of positions	*761.3*	*778.7*	*797.9*	*19.2*
POPULATION AND UNIT COSTS				
Average population	2,953	3,174	3,280	106
Per capita cost	$1,125	$1,211	$1,231	$20 (1.7%)

Total expenditures for support in 1953-54 amount to $4,038,138, an increase of $194,439 or 5.1 percent over 1952-53. The average population for 1953-54 is 3.3 percent greater than 1952-53.

SALARIES AND WAGES: The increase of $111,532 is accounted for as follows: Fourteen new positions at a cost of $57,912. Complement positions affecting all hospitals are explained under "STATE HOSPITAL AND HOMES FOR MENTALLY DEFICIENT" following the departmental summary. In addition a miscellaneous position consisting of an assistant seamstress is required for the sewing and mending of patient clothing and bedding to lengthen the life of the items and maintain the stock. The balance of increase in salary expenditures is due to the increased cost of authorized positions partially offset by increased salary savings.

OPERATING EXPENSES: The increase of $106,781 is accounted for as follows: The enriched food ration for the estimated population in 1953-54 accounts for a gross ration increase of $85,537 and a net ration increase after local production of $85,403. The augmented allowance for rehabilitation therapy supplies for the estimated population in 1953-54 amounts to $3,116. Other factors of change are primarily due to population and price.

EQUIPMENT: The amount of $96,876 provides $45,007 for replacement and $51,869 for additional equipment. The replacement equipment amounts to 5.8 percent of the equipment investment on June 30, 1952. The following are significant additional items: office equipment for new positions, $1,909; cake batch mixer, $4,178; two food conveyors, $1,493; hydraulic dough trough, $1,536; chairs, $7,600; mattress tape edge machine, $1,161; instrument sterilizers, $1,020; Fordson tractor, $1,531.

REIMBURSEMENTS: A total of $80,098 is estimated for the 1953-54 Fiscal Year and is attributable to meal sales and rental of living quarters to employees.

Total Available	$4,348,165	$4,731,047	$5,574,444	$843,397
Unexpended balance, estimated savings	—175,245 [a]	—100,141 [b]	–	100.141
TOTAL EXPENDITURES FOR SUPPORT	$4,172,920	$4,630,906	$5,574,444	$943,538 (20.4%)
GENERAL ANALYSIS				
Number of positions	*882.5*	*949.7*	*1,158.7*	*209*
POPULATION AND UNIT COSTS				
Average population	4,470	4,566	5,001	435
Per capita cost	$934	$1,014	$1,115	$101 (10%)

Total expenditures for support in 1953-54 amount to $5,574,444, an increase of $943,538 or 20.4 percent over 1952-53. The increase in average population in 1953-54 is 9.5 percent over 1952-53.

SALARIES AND WAGES: The increase of $724,079 is accounted for as follows: 139 new positions at a cost of $391,956 are explained under "State Hospitals and Homes for Mentally Deficient" following the departmental summary. The balance of the increase in salary expenditures in 1953-54 is due to the increased cost of authorized positions and decreased salary savings which results primarily from the delayed opening date of the new receiving and treatment facility (originally planned earlier in the 1952-53 Fiscal Year).

OPERATING EXPENSES: The increase of $236,767 is accounted for as follows: the enriched food ration for the estimated population in 1953-54 accounts for a gross ration increase of $113,339 (a net ration increase after local production of $100,373). The augmented allowance for rehabilitation therapy supplies for the estimated population in 1953-54 accounts for $4,751. The light, heat, and power requirements for the new receiving and treatment building amount to $23,700. Other factors of change, primarily due to population and price, account for the balance.

EQUIPMENT: The amount of $81,939 provides $43,640 for replacement and $38,299 for additional equipment. The replacement equipment amounts to 3.4 percent of equipment investment on June 30, 1952. The following are significant additional items of equipment: office equipment for new positions, $4,585; dictating equipment, $1,056; feeding equipment, $3,934; medical equipment, $3,089; chapel equipment, $2,738; music equipment, $1,167; power equipment for maintenance of grounds, $926.

REIMBURSEMENTS: A total of $99,497 is estimated for 1953-54, a decrease of $450 from 1952-53. The reimbursements consist primarily of meal sales and rental of living quarters to employees, and sale of surplus products.

Unexpended balance, estimated savings	—120,340 [a]	—20,152 [b]	–	20,152
TOTAL EXPENDITURES FOR SUPPORT	$2,786,956	$2,997,561	$3,247,293	$249,732 (8.3%)
GENERAL ANALYSIS				
Number of positions	*630.1*	*603.6*	*646.7*	*43.1*
POPULATION AND UNIT COSTS				
Average population	2,456	2,214	2,109	—105
Per capita cost	$1,135	$1,354	$1,540	$186 (13.7%)

Total expenditures for support in 1953-54 amount to $3,247,293, an increase of $249,732 or 8.3 percent over 1952-53. The average population for 1953-54 is 4.7 percent less than 1952-53.

SALARIES AND WAGES: The increase of $223,823 is accounted for as follows: Twenty-one new positions at a cost of $89,292. Complement positions affecting all hospitals are explained under "State Hospitals and Homes for Mentally Deficient" following the departmental summary and the two miscellaneous positions are explained below.

One new seamstress position is required in addition to the authorized tailor, seamstress, and assistant seamstress to care for all the patients' clothing and the mending of linens. Space is available at the laundry for the function of mending the volume of clothing, bedding, linen and other articles prior to distribution to the wards to lengthen the life of the items.

A steam fitter position is required for this institution to provide proper maintenance for the long network of steam and return lines, traps, drainers, drains, and pressure regulators, all of which require continuous inspection, repair, or replacement. The institution has 1,000 boiler horsepower which provides steam for 33 wards for heat, dishwashing, and hot water generation plus a separate steam plant at the dairy, Ward 20, and the slaughterhouse. The balance of increase in salary expenditures in 1953-54 is due to the increased cost of authorized positions and decreased salary savings.

OPERATING EXPENSES: The increase of $5,902 is accounted for as follows: The enriched food ration for the estimated population in 1953-54 accounts for a gross ration increase of $37,658 (a net ration increase of $29,187 after local production). The augmented allowance for rehabilitation therapy supplies for the estimated population in 1953-54 accounts for $2,003. Other factors of change are due primarily to the estimated reduction in patient population and price changes.

EQUIPMENT: The amount of $148,624 provides $86,114 for replacement; $62,510 for additional equipment. The replacement equipment amounts to 8.7 percent of equipment investment on June 30, 1952. The following are significant additional items of equipment: office equipment for new positions, $3,319; dictating equipment, $4,928; filing equipment, $2,500; power lift for warehouse, $3,250; medical equipment, $9,074; chapel equipment, $2,200; pianos, $1,200; television sets, $1,600; fire hose, $1,320; homogenizer, $3,000.

REIMBURSEMENTS: A total of $77,936 is estimated for 1952-53 and 1953-54 and consists of services to employees and sale of surplus products.

Total Available	$4,372,747	$4,685,248	$4,860,813	$175,565
Unexpended balance, estimated savings	—126,382 [a]	—17,543 [b]	–	17,543
TOTAL EXPENDITURES FOR SUPPORT	$4,246,365	$4,667,705	$4,860,813	$193,108 (4.1%)
GENERAL ANALYSIS				
Number of positions	*930.5*	*952.5*	*987.5*	*35*
POPULATION AND UNIT COSTS				
Average population	4,295	4,230	4,118	—112
Per capita cost	$989	$1,103	$1,180	$77 (7%)

Total expenditures for support in 1953-54 amount to $4,860,813, an increase of $193,108, or 4.1 percent over 1952-53. The average population for 1953-54 is 2.7 percent less than 1952-53.

SALARIES AND WAGES: The increase of $193,974 is accounted for as follows: Twenty-two new positions at a cost of $85,770. Complement positions affecting all hospitals are explained under "State Hospitals and Homes for Mentally Deficient" following the departmental summary. In addition, a miscellaneous position consisting of a refrigeration engineman is required to operate and maintain the variety and volume of refrigeration units including compressors for the 13 walk-in boxes, ice making equipment, compressors at the dairy, refrigerated water coolers and household boxes, and air conditioning equipment for the new auditorium. The increased cost of authorized positions and salary savings account for the balance of increase in salary and wages.

OPERATING EXPENSES: The increase of $29,295 is accounted for as follows: The enriched food ration for the estimated population in 1953-54 accounts for a gross ration increase of $54,170 (a net ration increase of $26,107). The augmented allowance for rehabilitation therapy supplies for the estimated population in 1953-54 accounts for $3,912. An expansion in poultry operation is included at a cost of $6,000 in order to locally produce a greater amount of the institution's egg requirements. The other factors of change are primarily due to population and price adjustments.

EQUIPMENT: The amount of $104,133 provides $59,287 for replacement and $44,846 for additional equipment. The replacement equipment amounts to 4.1 percent of equipment investment on June 30, 1952. The following are significant additional items of equipment: office equipment for new positions, $2,686; feeding equipment, $10,900; ward and cottage furniture, $5,000; sterilizers, $1,500; television sets, $1,500; pianos, $1,200; drill press, $1,400; truck mounted manure spreader, $1,335.

REIMBURSEMENTS: A total of $68,362 is estimated for 1952-53 and 1953-54. The reimbursements consist primarily of meal sales and rental of living quarters to employees and sale of surplus products.

TOTAL EXPENDITURES FOR SUPPORT	$4,597,005	$5,088,545	$5,619,207	$530,662 (10.4%)
GENERAL ANALYSIS				
Number of positions	*1,062.5*	*1,035.5*	*1,151.4*	*115.9*
POPULATION AND UNIT COSTS				
Average population	4,535	4,575	4,917	342
Per capita cost	$1,014	$1,112	$1,143	$31 (2.8%)

Total expenditures for support in 1953-54 amount to $5,619,207, an increase of $530,662 or 10.4 percent over 1952-53. The average population for 1953-54 is 7.5 percent greater than 1952-53.

SALARIES AND WAGES: The increase of $322,055 is attributable to the 140 new positions. Complement positions affecting all hospitals are explained under "State Hospital and Homes for Mentally Deficient" following the departmental summary, and the five miscellaneous positions are individually explained below.

Two additional telephone operators are required to cover the increasing traffic with two operators on duty during the day shift and one operator on duty during each of the other two shifts.

Two stationary engineers are required one of which is for the general maintenance work of the institution and one to service and maintain the 300 tons of refrigeration in the new receiving and treatment building. One electrician is necessary for the increasing load added by the new buildings which is more than the two authorized positions can handle.

OPERATING EXPENSES: The increase of $204,648 is accounted for as follows: The enriched food ration for the estimated population in 1953-54 accounts for a gross ration increase of $103,499 (a net ration increase of $76,402). The augmented allowance for rehabilitation therapy supplies for the estimated population in 1953-54 amounts to $4,672. The light, heat, and power cost increase of $19,081 is due primarily to the new buildings to be in operation. The food processing cost increase of $15,000 is to provide for the canning of apricots and peaches in 1953-54. Other items of change are due primarily to population and price factors.

EQUIPMENT: The amount of $143,069 provides $83,900 for replacement and $59,169 for additional equipment. The replacement equipment amounts to 5.7 percent of equipment investment on June 30, 1952. The following are significant additional items of equipment: office equipment for new positions, $2,964; dictating equipment, $2,100; sack piler, $1,000; feeding equipment, $14,529; utensil sterilizers for tubercular cottages, $2,060; autoclave, $2,050; television sets, $2,500; pianos, $1,200; pickup truck, $1,350.

REIMBURSEMENTS: A total of $109,866 is estimated for both 1952-53 and 1953-54 Fiscal Years and is attributable to meal sales and rentals to employees, and sale of surplus products.

GENERAL ANALYSIS

Number of positions	*596.2*	*569.1*	*592.3*	*23.2*
POPULATION AND UNIT COSTS				
Average population	2,015	2,000	2,000	–
Per capita cost	$1,196	$1,360	$1,450	$90 (6.6%)

Total expenditures for support in 1953-54 amount to $2,899,944, an increase of $179,060, or 6.6 percent over 1952-53. The average population remains unchanged in the 1953-54 Fiscal Year.

SALARIES AND WAGES: The increase of $117,436 is accounted for as follows: Fifteen new positions at a cost of $53,472. Complement positions affecting all hospitals are explained under "State Hospitals and Homes for Mentally Deficient" following the departmental summary. A miscellaneous position consisting of a seamstress is required for the sewing room to accomplish the mending of patients' clothing and linens. The balance of increase in salary expenditures is attributable to the increased cost of the authorized positions partially offset by increased salary savings.

OPERATING EXPENSES: The increase of $53,991 is due primarily to the following: The enriched food ration for the 1953-54 population accounts for a gross ration increase of $44,531, a net ration increase of $43,822 after local production. The increased allowance for rehabilitation therapy supplies for the estimated population in 1953-54 accounts for $1,458.

EQUIPMENT: The amount of $87,259 provides $47,509 for replacement, and $39,750 for additional equipment. The replacement equipment amounts to 6.1 percent of the equipment investment on June 30, 1952. The following are significant additional items: office equipment for new positions, $1,554; dictating and transcribing equipment, $1,400; filing equipment, $1,500; feeding equipment, $5,874; medical equipment, $4,344; equipment for religious services, $1,200; power lawn mower, $850; pickup truck, $1,350; dump truck, $2,625.

REIMBURSEMENTS: A total of $60,538 is estimated for 1953-54, which is primarily for services to employees. No significant change is estimated from 1952-53.

PORTERVILLE STATE HOME

A hospital for the mentally defective, located near Porterville, Tulare County.

EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53
SUMMARY AND RECONCILIATION WITH APPROPRIATIONS				
General Fund				
SUPPORT				
Allocation from Emergency Fund	–	$18,055	–	—$18,055
Budget Act appropriation	–	–	$1,698,686	1,698,686
Proposed deficiency appropriation [a]	–	524,747	–	—524,747
TOTAL EXPENDITURES FOR SUPPORT	–	$542,802	$1,698,686	$1,155,884
GENERAL ANALYSIS				
Number of positions	–	*313.1*	*414.8*	*101.7*
POPULATION AND UNIT COSTS				
Average population	–	148	1,255	1,107
Per capita cost	–	$3,668	$1,354	—$2,314

The budget for the Porterville State Home is based upon the buildings that will be ready for occupancy during the 1953-54 Fiscal Year. It is planned to accept 890 patients in this institution on May 1, 1953, and increase such number to 1,010 on July 1, 1953. On January 1, 1954, when seven additional ward buildings are completed, the capacity will be 1,500 patients. The budget is therefore based on a population of 1,010 for the first six months and 1,500 for the last six months of the 1953-54 Fiscal Year.

The staffing of this institution is based largely upon a post assignment program and as the number of patients in the hospital increase, a proportionate increase in employees will not be required.

Provision has been made for the establishment of certain groups of positions prior to the actual opening date of the hospital. This provides the hospital's departments the time to be organized, equipped, and completely functioning when the first patients are received. Accordingly, psychiatric technician trainees and other employees must be recruited and trained in the duties of the position to which they are assigned. Passage of a special bill is required to provide the necessary financing for support operations during the 1952-53 Fiscal Year.

The general administrative office, accounting, storekeeping, and telephone staffs provided are based on the standard for administrative and clerical employees established for existing institutions. Key administrative positions must be provided similar to those in other hospitals which will not increase in number as the size of the institution increases.

The staffing standards for feeding personnel follow the patterns budgeted in the other institutions. The complement of laundry personnel provided takes into account some utilization of patient help.

The complement of ward employees is based on 13 wards being occupied May 1, 1953, the hospital building being occupied by July 1, 1953, and seven additional wards occupied on January 1, 1954. The ward coverage provided is as follows:

Ward Data			*Patient*	*Ward Coverage Budgeted*			
Classification	*Type*	*Number*	*Capacity*	*Base*	*Relief*	*Total*	*Ratio*
7	Hospital	2	100	24	14	38	2.6
1	Nursery	2	140	24	14	38	3.7
4	Infirmary	2	140	22	13	35	4.0
5	Nonacute	16	1,120	105	64	169	6.6
		22	1,500	175	105	280	5.4

The professional and technician personnel are patterned after the staffing in the other hospitals.

The buildings at this institution are equipped with radiant heat and other modern mechanical and refrigeration facilities. Heating is provided 24 hours daily and requires a complete staffing of boiler plant employees. When the buildings are occupied, many mechanical facilities must be adjusted and placed in operating condition, along with other installation and repair work which requires an engineering staff that will not have to be significantly changed as the population increases. Equipment operators are provided for the various hauling and delivery assignments.

GENERAL ANALYSIS				
Number of positions	*821.2*	*923.6*	*967*	*43.4*
POPULATION AND UNIT COSTS				
Average population	3,180	3,200	3,200	–
Per capita cost	$1,219	$1,357	$1,431	$74 (5.5%)

Total expenditures for support in 1953-54 amount to $4,578,537, an increase of $244,236 or 5.6 percent over 1952-53. The average population is estimated at 3,200 for both the 1952-53 and 1953-54 Fiscal Years.

SALARIES AND WAGES: The increase of $214,311 is accounted for as follows: Fifteen new positions at a cost of $54,186. Complement positions affecting all hospitals are explained under "State Hospitals and Homes for Mentally Deficient" following the departmental summary. A miscellaneous position consisting of a refrigeration engineer is required for the refrigeration units in this hospital and the ice-making machinery plus the new kitchen and commissary unit which will have over 300 tons of refrigeration when it is placed in operation January 1, 1954. The increased cost of authorized positions and decreased salary savings account for the balance of the increase.

OPERATING EXPENSES: The increase of $54,526 is accounted for as follows: The enriched food ration for the estimated population in 1953-54 accounts for a gross ration increase of $73,394 and a net ration increase after local production consumed of $49,010. The increased allowance for rehabilitation therapy supplies for the estimated population in 1953-54 accounts for $3,520. Other factors of change are primarily due to price adjustments.

EQUIPMENT: The amount of $91,000 provides $54,596 for replacement and $36,404 for additional equipment. The replacement equipment amounts to 4.6 percent of the equipment investment on June 30, 1952. The following are significant additional items: office equipment for new positions, $1,698; sewing machine, $1,339; medical equipment, $9,227; bench lathe, $1,545; tractor and attachments, $1,880.

REIMBURSEMENTS: A total of $56,969 is estimated for the 1953-54 Fiscal Year, and it consists primarily of services to employees and sale of surplus products.

GENERAL ANALYSIS				
Number of Positions:				
Adjutant General, National Guard, and Reserve	*339.4*	*342.8*	*321.9*	*—20.9*
California Cadet Corps	*11.9*	*12.8*	*12.6*	*—0.2*

The 1953-54 program provides for operation of the Office of the Adjutant General with all California National Guard organizations returned to state service. The last unit will be released from federal service January 1, 1953.

With the return of National Guard organizations to state service the California National Guard Reserve will be discontinued as an active state military force. It is proposed to continue this organization in an inactive state militia status. Maintenance of a state reserve force is considered necessary because of the unsettled international situation.

The California Cadet Corps is continued on the basis of training approximately 6,800 cadets in 119 schools throughout the State.

---

[a] Composed of savings in salaries and wages, $611,974; operating expenses, $643,981; equipment, $153; and loss in reimbursements, $4,179.

[b] Composed of savings in salaries and wages, $357,452; operating expenses, $165,164; equipment, $1,790; and excess reimbursements, $2,070.

[c] Composed of savings in salaries and wages, $2,562; operating expenses, $19,195; and equipment, $795.

[d] Composed of savings in salaries and wages, $3,097; and operating expenses, $1,205.

OFFICE OF THE ADJUTANT GENERAL—Continued

ADJUTANT GENERAL'S OFFICE

Analysis

This function provides for the immediate Office of the Adjutant General. The increase for dues, subscriptions, and publications is for membership in the National Guard Association of the United States based on the increased strength of the California National Guard.

HEADQUARTERS STAFF

Analysis

The headquarters staff includes the activities of the executive, comptroller, personnel, supply, operations and training, and recruiting sections. These sections administer the affairs of the National Guard, National Guard Reserve, and provide services to the Cadet Corps. Provision is made for continuing activities of the headquarters staff with all California National Guard organizations returned to state service.

MAINTENANCE AND OPERATION OF INSTALLATIONS

Analysis

This function provides for the maintenance and operation of state-owned and leased armories, air and ground installations licens from the Federal Government, and the State's interest in Camp San Luis Obispo.

Fourteen additional custodial positions are proposed for the operation of eight armories, a rifle range, and new air facilities to completed during 1953-54.

Operating expenses reflect increases for armory rentals, utilities, and operation and maintenance expenses for units returned frc federal service.

FIELD ORGANIZATION—NATIONAL GUARD

Analysis

This function is concerned with the expenses related to the field units of the California National Guard which are not paid for by the Federal Government. It includes administrative help for headquarters units, expenses for recruiting, medical examinations, officers' uniforms, officer candidate schools, rifle and pistol matches, and week-end field exercises.

Active duty positions for staffing an additional officer candidate school for personnel of the 40th Division and other returned units in the southern part of the State are proposed, as the need for filling officer vacancies continues.

Operating expenses are generally budgeted at the expenditure level prevailing prior to the induction of units into federal service. Recruiting is increased to provide for publication of a monthly "*California Guardsman*" magazine. The increase for medical examinations is based on an estimated 4,435 new enlistments and re-enlistments in 1953-54 resulting from the intensified recruiting program. The item of uniform allowance is increased to provide for a larger number of officers due to the return of units from federal service.

CALIFORNIA NATIONAL GUARD RESERVE

Analysis

Organization of the California National Guard Reserve is authorized by Section 550 of the Military and Veterans Code, which provides as follows: "Whenever any part of the National Guard of the State is in active federal service, or when Congress so consents thereto, the Governor is authorized to organize and maintain within this State during such period, under such regulations as the Secretary of Defense of the United States may prescribe for discipline in training, such forces as the Governor may deem necessary to defend and for the security of this State."

With the return of the 40th Division in September, 1952, and with the last major unit in federal service to be returned January 1, 1953, the California National Guard Reserve is to be discontinued as an active state reserve force. In view of the unsettled international situation, however, it is proposed to continue the California National Guard Reserve in an inactive state militia status with the organizations and units retained as an expansible cadre. For direction and administration of the organization's affairs it is proposed to retain a full-time officer position at state headquarters and a full-time officer position and clerk at each of the two division headquarters.

CALIFORNIA CADET CORPS

Analysis

The California Cadet Corps provides a military training program for schools of high school and junior college level in this State. The corps provides a program for those schools, not in the R.O.T.C. program, which believes military training as a school function is essential to male students in preparation for the responsibilities of citizenship. Periodical inspections of each school are made by supervisors from the Adjutant General's Office. Equipment, including uniforms and rifles, for maintaining the corps is furnished by the State. Leadership schools, rifle matches, and a field training encampment are provided each year.

The current level of service is continued for 1953-54 to provide for an estimated 119 schools and 6,800 cadets participating in the program.

DEPARTMENT OF MOTOR VEHICLES

Registers motor vehicles and maintains registration records, licenses operators of motor vehicles, enforces the provisions of the financial responsibility law relating to vehicle accidents and collects the "in lieu" tax on motor vehicles.
Motor Vehicle Fund finances the major portion of the activities of the department.
Motor Vehicle License Fee Fund finances in part those activities connected with the collection of the "in lieu" tax.

Headquarters in Sacramento

GENERAL ANALYSIS

	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53
Number of positions	*2,515.2*	*2,587.8*	*2,773.8*	*186*

The proposed budget of the department provides for no basic program change. Additional positions are recommended in the line divisions to meet anticipated increased work load. Other increases are one additional position in the Division of Registration, and five additional field supervisors in the Division of Field Office Operations to strengthen the administration of these two divisions; a 25 percent increase in the Driver Improvement program; costs of operating the new building in Sacramento; and the establishment of additional branch offices.

---

[a] Composed of savings in salaries and wages, $130,494; operating expenses, $22,102; equipment, $13,042; and loss in reimbursements, $5,730.

[b] Composed of savings in operating expenses, $112,646; and excess reimbursements, $360.

DEPARTMENT OF MOTOR VEHICLES—Continued

DIVISION OF ADMINISTRATION

Analysis

This function includes the office of the director, general administration, fiscal and personnel sections, and procedures and analyses.
An increase in temporary help is proposed to provide for increased work load.
Increases in operating expenses are based on work load, the necessity of printing Motor Vehicle Codes and Summaries, and provision for the payment of teletype service furnished by the Department of Justice.

DIVISION OF REGISTRATION

Analysis

This function provides for the registration of all motor vehicles and for the processing of all transactions related to such registration. Increases are due to provision for an increased work load brought about by estimated additional automobile registrations and related transactions.

One additional position is included in the general administration function to handle administrative details.

Additional temporary help is proposed to provide for work load increases in general operations.

Fifteen additional positions in the mechanical processing section are required to handle work load increases.

Amounts budgeted for operating expenses are based upon the estimated volume of registrations and assumed price levels.

Comparative Work Load

REGISTRATIONS	ACTUAL 1951-52	ESTIMATED 1952-53	ESTIMATED 1953-54	CHANGE FROM 1952-53

DIVISION OF DRIVERS' LICENSES

Analysis

This function contains provisions for licensing of drivers including: testing of applicants, issuance of licenses, and suspensions and revocations of licenses under the drivers' improvement program.

Provision has been made for 10 additional positions to handle increased work load due to the provisions in the vehicle code which provides for the verification before issuance of drivers' licenses, to check the records of the applicants for convictions of traffic violations, traffic accidents, and notices for failure to appear in court.

Forty additional positions are to provide for a 25 percent increase in the drivers' improvement program.

Six additional positions plus an increase in temporary help is provided to handle increased work load in general operations.

Operating expenses are based upon estimated work load.

DIVISION OF FIELD OFFICE OPERATIONS

Analysis

Includes the operation of branch offices and performs the following services: Registers motor vehicles, issues drivers' licenses, and furnishes information regarding the financial responsibility law.

Increases in this function are due primarily to the following:

1. Provision for an additional six positions for general administration, five of which are to strengthen field supervision, and one to relieve the division chief of administrative work load.
2. Provision for an additional 74 positions for existing branch offices to meet anticipated increased work load in 28 locations as follows: Alameda, Bakersfield, Berkeley, Compton, Culver City, Glendale, Hayward, Hollywood, Long Beach, Los Angeles, Madera, Pasadena, Porterville, Redwood City, Richmond, San Bernardino, San Diego, San Francisco, San Jose, San Luis Obispo, Santa Ana, Santa Barbara, Santa Maria, Stockton, Vallejo, Watsonville, Weaverville, and Whittier.
3. Provision for an additional 32 positions to staff new branch offices.
4. Operating expenses and equipment related to the above additional positions.

FINANCIAL RESPONSIBILITY

This function contains provision for administration of the Financial Responsibility Law regarding motor vehicle accidents. The work load, based on reports handled, shows an increase of 9.6 percent over 1952-53. Because of an increased efficiency derived from the installation of new filing equipment in 1952-53, no additional positions are required to handle this increased work load. The major increase in operating expense is caused by printing pamphlets explaining the Financial Responsibility Law.

GENERAL ANALYSIS

Number of positions	*704.9*	*779.7*	*796.5*	*16.8*

The 1953-54 Fiscal Year budget as proposed provides for continuation of existing programs and level of service.

The budget is presented on the basis of the new organization structure and insofar as possible, 1951-52 and 1952-53 Fiscal Year expenditures are reported as though the new organization had been in effect during the whole of such periods.

The staffing pattern of the agency reflects continuation of the reorganization program approved for the 1952-53 Fiscal Year. Ten additional positions in Field Services-Fisheries Management are provided to staff new hatcheries at Darrah Springs and Moccasin Creek.

The reorganization is the source of a part of the increase in operating expenses such as travel, subsistence, and automobile operation. Also, new facilities will be brought into operation during the budget year. In addition a substantial increase in fish food expense is provided as the program to release more catchable size trout makes it necessary to hold fish in the hatcheries for longer periods.

ADMINISTRATION						
Analysis						

Administration includes the former administration function with the exception of staff services provided the Fish and Game Commission. In addition a portion of the functions of the former Bureau of Licenses, Fish Conservation Headquarters, Game Conservation Headquarters, Patrol and Law Enforcement Headquarters, and Marine Fisheries Headquarters. The remaining portions of the above functions are now found in the newly organized Regional Headquarters and in Field Services.

REGIONAL HEADQUARTERS						
Analysis						
This function provides for the decentralized management of the Department of Fish and Game program in each of five regions of the State. The regional managers and staff act as coordinators to unify policy in separately operated fish and game programs, wildlife protection, and conservation education in each of the regions.						
SALARIES AND WAGES

[a] Regional organization established as a function of the Department of Fish and Game in the 1952-53 Fiscal Year. Comparable expenditures for the new function are shown in 1951-52 Fiscal Year on basis of the old form of organization; however, position count for comparable positions authorized in the current and budget year are shown in 1951-52 as a part of the regional headquarters.

[b] Positions class title change has been requested of the State Personnel Board, and action on the request is pending. Change in title shown here to more accurately reflect duties under the reorganized departmental structure.

FISHERIES MANAGEMENT IN COOPERATION WITH THE FEDERAL GOVERNMENT AS PROVIDED BY THE DINGELL-JOHNSON ACT

Analysis

This activity provides for fisheries management project of which 75 percent of the cost is paid by the Federal Government under provisions of the Dingell-Johnson Act. It is comtemplated that gross expenditures will be $172,000 for 1953-54.

Expenditure Detail by Project

	Actual 1951-52	Estimated 1952-53	Proposed 1953-54
Yellowtail Fishery	$8,445	$27,200	–
Catfish Fishery	5,839	14,742	–
Experimental Backcountry Fish Management	3,858	13,000	–
North-coastal Stream Restoration	8,530	37,708	–
Surf Fishing Investigation	3,514	19,600	–
Fisheries Management Coordination	–	18,000	–
Sacramento-San Joaquin Salmon and Steelhead	–	42,000	–
Additional projects contemplated	–	–	$172,000

STATE COOPERATION WITH PACIFIC MARINE FISHERIES COMMISSION

Fish and Game Preservation Fund

The States of California, Oregon and Washington cooperate in a $25,000 yearly program to promote methods, practices, circumstances and conditions for bringing about the conservation and prevention of the depletion and physical waste of fisheries. Contributions are based upon the value of each state's commercial fish catch.

	Actual 1951-52	Estimated 1952-53	Proposed 1953-54
OPERATING EXPENSES			
Payment to the Pacific Marine Fisheries Commission in accordance with the Pacific Marine Fisheries Compact to promote the better utilization of marine, shell, and anadromous fisheries of the Pacific Ocean areas	$15,100	$15,100	$16,500

---

a Position detail for 1953-54 will depend upon projects for which the detail and scope is not known at this time.

MARINE RESEARCH COMMITTEE

Research in the development of commercial fisheries of the Pacific Ocean and of marine products susceptible to being made available to the people of California, as authorized by Chapter 1276, Statutes of 1947. (Payable from privilege tax on sardines, pacific and jack mackerel, and anchovies to be levied until December 31, 1955, as authorized by Chapter 1108, Statutes of 1951.)

GENERAL ANALYSIS

The Marine Research Committee is composed of nine members of which at least five are members experienced in and actively engaged in the canning or reduction of California sardines.

The proposed budget for the 1953-54 Fiscal Year represents a reduction as compared to the current and prior fiscal years thereby reflecting an expenditure program related to estimated revenues. The revenue based upon a tonnage tax on sardines is reduced due to a reduction in the estimated sardine catch.

WILDLIFE CONSERVATION BOARD

he Wildlife Conservation Board created by Chapter 1325, Statutes of 1947, is charged with administration of the Wildlife Restoration Fund in accordance with the Wildlife Conservation Act for the betterment of wild life and recreation in the State. The board is composed of the Director of Finance, the President of the Fish and Game Commission, and the Director of the Department of Fish and Game. In addition to the board, the act created a Joint Interim Investigating Advisory Committee composed of three Members of the Senate, appointed by the Committee on Rules, and three Members of the Assembly appointed by the Speaker.

GENERAL ANALYSIS

Number of positions	4.5	5	5	–

The board is responsible for the allocation of funds for acquisition of land and construction of facilities suitable for conservation, propagation, and utilization of the fish and game resources of the State.

Under the provisions of Chapter 1401, Statutes of 1951, an additional $1,000,000 will be available for the above purposes during the 1953-54 Fiscal Year.

No substantive change in the program is proposed, however, funds are recommended for engineering consultants to undertake some of the studies heretofore referred by the board to the Department of Public Works.

GENERAL ANALYSIS				
Support				
Number of positions	*92*	*95.1*	*78.8*	*—16.3*

Provision is made for continuing current departmental administration services during the 1953-54 Fiscal Year, except for the Department of Fish and Game, plus $600 for preparing small portable conservation exhibits for display at conservation conferences and other meetings. An amount of $7,800 is also proposed to reimburse the Department of Fish and Game for the pro rata share of departmental administration equipment which cannot be transferred to the new department.

The 1952-53 Fiscal Year Budget was prepared on the basis that the Department of Fish and Game would perform its own accounting and personnel services effective July 1, 1952. Due to space limitations the change over did not occur, however, and the 1952-53 departmental administration budget reflects the provision of these services to the Department of Fish and Game until April 1, 1953. As of that date a reduction of 14.9 positions with total annual salaries of $44,016 and a reduction in operating expenses aggregating $3,038 annually are reflected for positions to be transferred. Reductions equal to pro rata administrative charges to the Department of Fish and Game cannot be made because of the inseparable services performed by departmental administrative and supervisory positions and other department-wide services. Therefore, the 1953-54 Fiscal Year administrative charges reflect a redistribution between Special and General Fund divisions in proportion to services provided to each division.

Exhibit at California State Fair

FAIR AND EXPOSITION FUND

To provide an exhibit at the State Fair illustrating the activities of the several divisions of the Department of Natural Resources relating to the development, utilization, and conservation of the State's natural resources.

Analysis

The Department of Natural Resources 1952 State Fair exhibit included the Department of Fish and Game exhibit. 1953-54 reflects the proposed expenditures for the Department of Natural Resources exhibit only. However, it is planned to again coordinate the exhibits of the two departments at the 1953 State Fair.

GENERAL FUND

Payments to Department of Fish and Game for untransferred portion of pro rata share of Departmental Administration equipment.

Analysis

Effective April 1, 1953, the Department of Fish and Game will perform its own accounting and personnel services; $7,800 is proposed to reimburse the department for the pro rata share of Departmental Administration equipment which cannot be transferred. The total share of the Department of Fish and Game has been determined to be $17,184. Of this total amount, equipment items valued at $9,425 will be transferred.

The 1953-54 Fiscal Year program provides for increased maintenance expenses for opening newly developed parks and for increased attendance at existing areas. Additional administrative assistance and positions for planning and development activities for existing areas and newly acquired areas are also provided.

SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS 51-52 (Filled)	52-53 (Auth.)	53-54 (Auth.)	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54

ADMINISTRATION

Analysis

Provision is made for expenses of the State Park Commission and administrative offices for business management and conservation education.

An additional position of administrative trainee is proposed to assist the administrative service officer with administrative, fiscal and general office duties.

Twelve months temporary help is proposed for the conservation education section, for the 1953-54 Fiscal Year to overcome the backlog in preparation of park folders, photographic materials preparation, and preparation of a training manual for the park naturalist program.

MAINTENANCE

Analysis

Provision is made in this function for maintenance and operation of beaches, parks, historical monuments, and riding and hiking trails in the State Park System.

Additional positions with related operating expenses and equipment are proposed for newly acquired and developed areas and for existing areas where increased attendance and public demand has made it necessary to increase staffing as follows:

- State park ranger III, Turlock Lake
- State park ranger II, one each, Natural Bridges, Anza Desert, Salton Sea, Tomales Bay, Ide Adobe, and Marin County riding and hiking trails
- State park ranger I, one each, Natural Bridges, Salton Sea, and Morro Bay
- Janitor, Monterey Monuments
- Park attendant, Anza Desert (8 months), Salton Sea (16 months), Tomales Bay (3 months), Humboldt Redwoods (6 months), Jedediah Smith (4 months), Donner Memorial (3 months), D. L. Bliss (3 months), Silver Strand (4 months), riding and hiking trails District VI (16 months), Palomar Mountain (4 months), and San Buenaventura Beach (6 months)
- State park ranger I, Van Dame Beach (3 months).

Three additional curators I are proposed to allow seven-day operation of historical monuments.

A highway equipment operator-laborer is proposed to operate and maintain the heavy equipment in District V.

Beach cleaning equipment is proposed for San Buenaventura Beach to handle the removal of kelp and driftwood.

Department of Natural Resources

DIVISION OF BEACHES AND PARKS—Continued

DEVELOPMENT

Analysis

This function surveys sites; prepares plans for construction projects, not exceeding $20,000 in cost, for the development and maintenance of beaches, parks, historical monuments, and riding and hiking trails; inspects construction; surveys property boundaries; prepares landscaping studies; and provides engineering surveys for projects to be constructed by the Department of Public Works.

The following positions are proposed to provide professional planning in line with the acquisition, development, construction, and boundary determination problems of the long range beach and park program:

1 Senior landscape architect
1 Associate landscape architect
1 Junior landscape architect
1 Senior drafting aid
1 Land surveyor

LAND SECTION

Analysis

Negotiation for acquisition of beach and park property and acquisition of rights of way for riding and hiking trails is the function of this section.

Activities are budgeted to continue at the current 1952-53 level.

The Division of Forestry program proposed for the 1953-54 Fiscal Year continues currently budgeted services with increases in various functions as follows:

Fire Prevention Education: One additional deputy state forester position to have staff responsibility for the statewide fire prevention education and law enforcement activities of the division.

District Headquarters: Three additional automobile mechanics for district automotive repair shops and two part-time clerical positions for increased county cooperative fire suppression agreement work load.

Field Services: Additional fire fighting personnel to adequately staff fire suppression camps for seven days per week operation during the fire season and to provide a year-around nucleus of trained foremen to train and supervise seasonal employees hired each year.

Forestry Work Camps: Four additional forestry work project foremen positions for staffing the Whitmore Forestry Work Camp for reactivation July 1, 1953.

Forest Management: Two additional forest technician and one assistant forest technician positions for farm forestry services and operation of state forests.

State Nursery: One part-time laborer position for increased production and maintenance activities.

SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS 51-52 (Filled)	52-53 (Auth.)	53-54 (Auth.)	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54

ADMINISTRATION

Analysis

The function of administration includes the Office of the State Forester, business management, fire control, engineering section, and the operation of the Davis warehouse and equipment repair shop.

Divisional administration services reflect operating expense increases for reprinting four forestry handbooks and the installation and maintenance of 175 additional radio units throughout the division.

Major equipment items provide for the replacement of three automobiles, 1,000 blankets at the Davis laundry, and an amount of $12,500 for purchase on a trial basis of newly developed specialized fire fighting equipment for field testing. In addition funds requested for the purchase of miscellaneous equipment items for all functions in the division have been consolidated under administration for better budgetary control and utilization of these funds.

FIRE PREVENTION EDUCATION

Analysis

Fire Prevention Education activities provide a fire prevention program through printed literature, posters, correspondence, public appearances, and the medium of motion pictures.

One new deputy state forester is proposed to head up and coordinate the division's state-wide fire prevention education and law enforcement activities and to assist the State Forester with plans, programs, and meetings of the State Board of Forestry.

Operating expense increases provide for additional printed educational material, scientific investigations for hazard reduction and fire prevention, and for county fair exhibits.

Major equipment items include an additional talking "Smokey Bear," moving picture film, movie and television trailers, and the replacement of two projectors.

FOREST PROTECTION

FIELD OPERATIONS—DISTRICT HEADQUARTERS

Analysis

The Division of Forestry is divided into six administrative districts with activities in each district coordinated through dstrict headquarters. Personnel assigned full time to maintenance of Division of Forestry installations, also, operate on a district-wide basis from these headquarters.

Three additional automobile mechanics are proposed for district headquarters repair shops. Automobile operation costs reflect proportionate reductions for repairs and maintenance performed at Division of Forestry shops. Two part time clerical positions are recommended for increased work load of county cooperative fire protection agreements reimbursed through administrative charges to counties.

Major equipment items include replacement of automobiles and complements of tools for the new mechanics.

FIELD OPERATIONS—FIELD SERVICES

Analysis

This function provides for the operation of fire suppression camps, forest fire lookout stations, and county headquarters offices.

Proposed increases in this function are as follows:

One forest fire dispatcher for Humboldt County to free an assistant ranger for field work due to increased logging operations and other ranger work load increases in this area.

Three part-time intermediate typist-clerks for increased clerical work load at county ranger headquarters. Clerical positions are not now provided for these counties.

Three forest fire fighter foreman as patrolmen for areas where increased public use and lumbering activities have brought about increased fire hazards.

355 man months forest fire fighter foremen replacing 355 man months of forest fire fighters to provide adequate supervision for fire suppression crews on a seven days per week basis during the fire season.

245 man months forestry equipment operator to provide seven days per week manning of all bulldozers and transport trucks for the average months of operation during the fire season.

127 man months forest fire lookout for seven days per week staffing of all lookout towers for the average months of operation during the fire season.

161 man months forest fire fighter foreman for the winter period to provide a year-around foreman position for each of the 222 fire suppression stations and 17 patrolmen. Year-long employment is considered necessary in order to have a nucleus of trained foremen to receive, train, and supervise the seasonal fire suppression employees hired each year.

Equipment items consist principally of replacement sedans, crew trucks, fire trucks, fire suppression, and field items; additional automotive equipment for new positions; additional radio equipment to complete the divisions radio plan for providing the necessary complement for each district; and six additional transport trucks to provide a transport for each bulldozer.

FIELD OPERATIONS—FORESTRY WORK CAMPS

Analysis

Forestry work camps for forest protection and fire suppression work are provided for 285 inmates of the Youth Authority and 540 inmates from the Department of Corrections. Three permanent camps and six "spike" or temporary camps are provided for Youth Authority inmates; and nine permanent camps are provided for Department of Corrections inmates. In addition, the Whitmore Forestry Work Camp is to be reactivated July 1, 1953, for an additional 60 inmates from the Department of Corrections.

Four additional forestry work project foremen are proposed for staffing the Whitmore Forestry Work Camp.

Four foreman positions provided for an estimated three months operation of the new Pasqual Forestry Work Camp to be constructed in 1952-53 are extended for the 1953-54 Fiscal Year also.

Major equipment items include the replacement of automobiles, fire suppression equipment, additional radios, and shop tools for in-camp work projects.

FOREST MANAGEMENT

Analysis

Forest management includes administration of the Forest Practices Act to promote sustained productivity of forest lands, consultation service on farm forestry, and management of state forests.

Two additional forest technicians, one each for Mendocino and Butte counties, are proposed to provide technical forestry services to small private timber ownerships. The need to provide these services to obtain compliance with Forest Practices Act regulations and to maintain forest productivity plus the increased demand for these services since the withdrawal from this field by the federal government has increased the work load beyond the capacity of the present staff.

One additional assistant forest technician is proposed for the Jackson State Forest for increased work load of timber sales, experimental projects, custodial duties, and forestry work camp project direction. Timber sales from state forests are estimated to increase from $30.000 in 1951-52 to $200,000 in 1952-53.

Operating expenses reflect increases for reprinting "Forest Practice Rules" for the four districts and anticipated tax increases on state forests.

RANGE IMPROVEMENT

Analysis

This function provides for range improvement programs in cooperation with private landowners; for experimentation and studies in reseeding, erosion control, and related problems; and for special standby brush burning fire protection.

Current activities and services of this function are continued for the 1953-54 Fiscal Year.

STATE NURSERY

Analysis

This function provides for operation of a nursery located near Davis, producing nursery stock for public plantings, windbreak, soil control, and reforestation purposes. Branch nurseries are also maintained on a limited scale at Forestry Camps.

A part-time position of laborer is proposed at the Davis Nursery for increased production and maintenance of buildings, grounds, and facilities.

Operating expenses include increases for rent, utilities, automobile operation, and agricultural activities for the branch nursery at the Magalia Forestry Honor Camp.

AGRICULTURAL FIRE PROTECTION

Analysis

The Division of Forestry cooperates with 31 counties to give fire protection to approximately 12,000,000 acres in local rural areas (Zone 3) under contract. The State is fully reimbursed for its expenditures.

WATERSHED RESEARCH IN COOPERATION WITH CALIFORNIA FOREST AND RANGE EXPERIMENT STATION OF THE UNITED STATES DEPARTMENT OF AGRICULTURE

This program began under Chapter 1415, Statutes of 1947. State funds supplement federal appropriations in order to maintain the continuity of rainfall and stream flow records, and to publish results of research of value in watershed management in California. The current program is continued for the 1953-54 Fiscal Year.

DIVISION OF MINES

The Division of Mines encourages and makes special studies of the mineral industry and mineral resources of the State; publishes results of these studies for sale to the general public and distribution to the libraries; collects and displays typical geological and mineralogical specimens; maintains a library; and serves as a bureau of information to the mineral industries of the State.

GENERAL ANALYSIS

Support

Number of positions	*49.3*	*53.3*	*53.2*	*—0.1*

In addition to continuing the regular work program a one-half time position of intermediate typist-clerk is requested for cataloging and distribution of an increased number of geologic maps and to assist with the compilation of a new "State Geologic Map." Six-month temporary help has, also, been added to relieve the backlog in receiving, storing, and distribution of publications.

The $4,350 increase in equipment expenditures is principally for additional technical laboratory equipment and the replacement of office and automotive equipment.

Other Current Expenses

Geological exploration in cooperation with the United States Geological Survey is continued at the current level.

DIVISION OF OIL AND GAS

The Division of Oil and Gas supervises the method of drilling and maintenance of oil wells to prevent waste and damage to the oil and gas deposits and to protect the surface and subsurface fresh water resources from contamination. The division is charged with enforcement of the law to prevent unreasonable waste of natural gas. The division is supported by an annual assessment against oil and gas producers. This assessment is made at a uniform rate for each barrel of oil produced and for each 10,000 cubic feet of gas produced and sold.

CASE LOAD				
Cases heard	865	862	865	865

Because the estimated increase in the number of cases heard did not materialize thus far in 1952-53, two of the three new positions authorized in the 1952-53 budget have been eliminated.

The 1952-53 budget, as approved, estimated that reimbursement would recover 75 percent of the combined costs of the administration and hearing functions. It is now estimated that 62 percent of these costs will be reimbursed and a bill will be introduced at the 1953 Session of the Legislature to appropriate the additional funds required, estimated to be $12,585.

As submitted the budget for 1953-54 proposes a 62 percent recovery as compared to actual reimbursements of 53.6 percent in 1951-52. The over-all budget represents an increase of $688 broken down as follows:

SALARIES AND WAGES: A decrease of $296.

OPERATING EXPENSES: An increase of $2,037. Items showing significant increases are traveling, $300, due to out of state; pro rata departmental administration, $1,167, and codification printing, $500.

EQUIPMENT: The total requested of $1,414 is made up as follows: $218 for files for expansion purposes, $760 is requested for the purchase of additional volumes for the law library and the replacement of obsolete issue, $97 for replacement of typewriter in poor condition and $100 for miscellaneous items.

BOARD OF ACCOUNTANCY

Examines, licenses, and regulates certified public accountants and public accountants. It is estimated there will be approximately 5,350 certified public accountant licenses and 18,400 public accountant licenses in effect during 1953-54 compared with 4,352 certified public accountant licenses and 19,776 public accountant licenses actually in force as of June 30, 1952.

GENERAL ANALYSIS

Number of positions	*9.8*	*10.4*	*11*	*0.6*

The budget request of this agency for the 1953-54 Fiscal Year reflects a continuation of the same practice as currently authorized. Only minor increases are requested for the budget year which occur in the categories of expenditures as follows:

SALARIES AND WAGES: The increase of $2,741 is composed of less estimated salary savings because of fuller employment.

OPERATING EXPENSES: Of the $1,026 increase significant changes are $711 for pro rata departmental administration charges, $300 for traveling expenses due to an additional position authorized for the current fiscal year, and $145 for pro rata general administrative charges. A decrease of $150 in automobile operation somewhat offsets these increases.

EQUIPMENT: The sum of $200 requested comprises miscellaneous items only.

GENERAL ANALYSIS				
Number of positions	*4*	*4*	*4*	–

The budget request of this agency for the 1952-53 Fiscal Year reflects a continuation of the same practice as currently authorized only. Minor increases are requested for the budget year which occur in the categories of expenditures as follows:

SALARIES AND WAGES: The increase of $584 is due primarily to an increase in allotment for commissioners on examination, due to an increase in rates.

OPERATING EXPENSES: Of the $1,386 increase significant items are printing, $950, for printing biennial directory; postage, $289, for mailing directory; and pro rata departmental administration charges, $301; and other small adjustments. The increase has been offset by a $200 reduction in automobile operation.

EQUIPMENT: The $100 requested is for miscellaneous items.

GENERAL ANALYSIS

Number of positions	*11.5*	*11.5*	*11.5*	–

The work load of the State Athletic Commission is governed almost entirely by the number of boxing and wrestling shows held during the year. There were 1,876 shows in 1950-51, 1,843 during 1951-52, and it is estimated there will be approximately 1,850 during the current and budget fiscal years. Estimated expenditures for 1953-54 shows a decrease of $1,990 over 1952-53 made up as follows:

SALARIES AND WAGES: The decrease of $1,891 is due to a reduction in amount of Intermittent Athletic Inspector positions.

OPERATING EXPENSES: The increase of $79 is due to minor price adjustments.

EQUIPMENT: The total of $200 requested consists of miscellaneous items.

GENERAL ANALYSIS

Number of positions	*14.9*	*15.1*	*15.5*	*.4*

The budget reflects estimated increased work load in examinations over the number held during 1951-52. This reflects itself in increased costs for examination expense and board member travel. While revenues have been increasing the accumulated surplus has been decreasing because expenditures have exceeded revenues for the past several years. Fees now charged do not produce sufficient revenue to meet the ever rising cost of operation. Legislation will be introduced at this session to increase fees and balance the budget. Accumulated surplus as of June 30, 1952, was $45,251 which is expected to decrease to $20,768 as of June 30, 1954. The surplus should not be permitted to go below this amount. The over-all increase over estimated 1952-53 expenditures amounts to $3,316 made up as follows:

SALARIES AND WAGES: The increase of $1,264 consists of estimated fuller employment.

OPERATING EXPENSES: Of the $2,092 increase significant changes are postage, increase $500 due to increased rates, mailings of amended laws, rules and regulations; travel $800 primarily due to request for out of state travel as National Convention is held in Oregon this year; automobile operation increase $300 due to anticipated major repairs; pro rata departmental administration charges increase $367; pro rata general administrative charges $115; and examination expense $100.

EQUIPMENT: The $100 requested represents miscellaneous items.

GENERAL ANALYSIS

Number of positions	*2*	*2*	*2*	–

The Cemetery Board created by the 1949 Legislature has now reached what may be termed normal operations. Changes in the law since its original enactment have stabilized conditions by reducing turnovers of sales personnel and brokers. The budget for 1953-54 may be considered normal for the agency. Revenues continue to exceed expenditures and surplus is slowly increasing. The over-all increase over estimated 1952-53 expenditures amounts to $568 consisting of minor adjustments.

GENERAL ANALYSIS

Number of positions	*4.3*	*4.3*	*4.3*	–

The projected work load of this agency shows little change over the current fiscal year. The increase in the number of licentiates may be considered normal. The total increase in expenditures over estimated 1952-53 is $334 made up as follows:

OPERATING EXPENSES: The increase of $745 is attributable to printing, $200 due to the additional number of copies and size of the directory to be published, automobile operation increase $100 due to projected repairs, pro rata departmental administration $372, and minor adjustments.

EQUIPMENT: The request of $250 provides for $120 for textbooks for use in examinations and $100 for miscellaneous items.

BOARD OF REGISTRATION FOR CIVIL AND PROFESSIONAL ENGINEERS

Examines, licenses, and regulates civil engineers, land surveyors, structural engineers, chemical engineers, electrical engineers, mechanical engineers, and petroleum engineers. It is estimated that approximately 31,762 registrations will be in effect during 1953-54, about 1,875 more than in 1951-52.

GENERAL ANALYSIS

Number of positions	*21.3*	*20.5*	*20.5*	–

The work load for this agency shows an estimated 21% increase in the anticipated number of applications over the 4,640 estimated to be received during the current fiscal year. This compares with 3,399 applications received during the fiscal year ended June 30, 1952. The over-all budget for the 1953-54 Fiscal Year shows an increase of $3,541 over estimated 1952-53 expenditures broken down as follows:

SALARIES AND WAGES: The increase of $2,612 is due to an increase for examination commissioners of $1,460; expert examiners, $570; and temporary help, $560—all due to increased work load and an increase in rates paid examination personnel.

OPERATING EXPENSES: An increase of $1,788 consists of office expense, $300; pro rata departmental administration, $1,180; and examination expense, $500. Increases are due to increased work load. These increases are offset by a $232 reduction in automobile operation and to minor price adjustments.

EQUIPMENT: The $300 requested in this category is for the purchase of technical books, miscellaneous items, and for replacement of one automobile.

GENERAL ANALYSIS

Number of positions	*80.6*	*80.8*	*84.3*	*3.5*

Provision is made to continue the same program as authorized in the current year. Examination work load dropped very slightly but indications are that it will increase during the current and budget years. Complaints involving licensees increased 21.5% over the number filed during 1950-51. The number of cases pending increased 71% while there was a 13% increase in the number of cases closed. No drop in work load is anticipated. Investigations involving nonlicensed persons increased 11% during 1951-52, and investigations of disputed applications increased 63.5% over the 1950-51 Fiscal Year. These trends are expected to continue. These conditions have resulted in a backlog which the present force is unable to reduce. Revenues for both the current and budget fiscal years are estimated to be 2.7% less than expenditures. However, as of June 30, 1952, the accumulated surplus is $760,323 which is expected to decrease to $735,993 by June 30, 1954. In view of this large surplus, it was not felt desirable to increase the present $7 annual renewal fee. The budget for 1953-54 shows an increase of $25,583 over estimated expenditures for the current fiscal year. An analysis of this increase is as follows:

SALARIES AND WAGES: Increase $25,142 of which $9,024 is for two proposed new positions of supervising investigator and $13,492 due to a reduction in vacancies.

OPERATING EXPENSES: The increase of $7,614 is composed of the following significant increases in the administration function office expense $200 due to work load increases; pro rata departmental administration $3,248; pro rata general administrative charges $561; and the remainder due to minor adjustments. Items showing significant increases in the inspection function are travel $1,500 to provide additional travel expense for the two new positions and the filling of current vacancies in field personnel; automobile mileage $4,650 due to the additional new positions and the conversion of mileage of operators heretofore driving State cars. This increase is offset by a $2,745 reduction in automobile operation. The only other item showing significant increase is examination expense $300 due to an increase in examination work load and higher rent charges now being charged for examination quarters.

EQUIPMENT: The $1,678 requested is made up as follows: Administration, $940 for additional filing space for filing new applications, and $200 for miscellaneous items. Under the inspection function, $254 for replacement of two typewriters, over 16 years old, $84 to replace three borrowed stenographer chairs, and $200 for miscellaneous items.

GENERAL ANALYSIS

Number of positions	*19.9*	*22.8*	*22.8*	–

The work load of this agency shows a slight decrease in the estimated number of persons to be examined, while the total number effective licenses is expected to increase slightly. In general the budget is a continuation of the current program. Revenues continu to exceed expenditures and a balanced budget is presented. The over-all increase over estimated 1952-53 expenditures amount to $857 broken down as follows:

SALARIES AND WAGES: The decrease of $406 is due primarily to a decrease in estimated board member per diems as reflecte by a decrease in examination work load.

OPERATING EXPENSES: The increase of $1,519 is composed of increases in travel expense $100, pro rata departmental admin stration $559, pro rata general administrative charges $170, and examination expenses $730 due to an increase in charges mad by the schools for examination purposes.

EQUIPMENT: The $100 is requested for miscellaneous items.

GENERAL ANALYSIS

Number of positions	5.2	5.2	5.2	–

This budget request shows an increase of $3,916 over the amount estimated for 1952-53 primarily due to increases because the bienni directory issued by the board will be published during the 1953-54 Fiscal Year. Revenues continue to exceed expenditures and th accumulated surplus is slowly increasing. It is estimated the accumulated surplus will amount to $93,614 by June 30, 1954. Th detailed analysis of increases is as follows:

SALARIES AND WAGES: The increase of $729 provides for a $500 increase for operatives due to an anticipated increase in fiel activity and a $229 increase in temporary help necessary for compilation of the biennial directory.

OPERATING EXPENSES: An increase of $4,332 is attributable to printing, $3,450; postage, $718; for printing and mailing th biennial directory; pro rata departmental administration increase, $378; and pro rata general administrative charges, $54. Thes are offset by a $278 decrease in automobile operation expense and other minor adjustments.

EQUIPMENT: The $100 provides for miscellaneous items.

GENERAL ANALYSIS

Number of positions	*19.5*	*19.7*	*21.7*	*2*

The work load of the board relating to licensees, change of status, and general inspections has increased since the creation of the board i 1945. Examinations have fluctuated from year to year. However, the present trend seems to indicate a downward movement in th number of persons applying for examination. The constitutionality of minimum price provisions of the law will be heard by the Cal fornia Supreme Court. Pending such determination and based upon a decision from the District Court of Appeals adversely affectin these provisions, the board has suspended all minimum price activities for the current fiscal year and has made no budgetary provisio for their enforcement during the 1953-54 Fiscal Year. Revenue loss due to business changeovers not discovered until license renew time is due to an insufficient number of routine inspections. Field supervision is limited because the present supervising inspector i only able to devote a small part of his time to the counties north of Los Angeles. To increase the number of routine inspections an reduce revenue loss, an additional supervising inspector and one additional inspector is proposed. The budget shows an increase $9,166 over current fiscal year expenditures as follows:

SALARIES AND WAGES: The increase of $7,892 is primarily for the two proposed new positions.

OPERATING EXPENSES: An increase of $1,535 consists of increases for printing, $575, primarily due to the need for additiona books of laws, rules, and regulations; automobile mileage, $2,340, to provide mileage for the two proposed new positions; and mino adjustments.

EQUIPMENT: The $150 requested is for miscellaneous items.

GENERAL ANALYSIS

Number of positions	*3.6*	*3.6*	*3.6*	–

This budget represents a continuation of the present program with minor increases in work load. Expenditures exceed revenues and the amount of accumulated surplus shows an estimated decrease of $11,884 between June 30, 1952, and June 30, 1954. However, maximum fees are not being charged and increases can be made by board action during any year. The over-all increase over estimated 1952-53 expenditures amounts to $1,848 made up as follows:

SALARIES AND WAGES: An increase of $532 is due primarily to increase in board member per diems of $180 caused by a full complement on the board and an increase of $40 for temporary help.

OPERATING EXPENSES: The increase of $1,424 results from $1,143 due to allowances for printing a biennial directory, pro rata departmental administration increase of $138 and minor adjustments for price increases.

EQUIPMENT: The $100 requested represents an allowance for the purchase of miscellaneous items.

GENERAL ANALYSIS

Number of positions	*31.4*	*33.4*	*34.9*	*1.5*

The budget provides for a continuation of the existing program. Little change is forecast over estimated work load for the current fiscal year. Expenditures are beginning to exceed revenues and an estimated decrease in surplus of $81,915 is expected to take place between June 30, 1952 and June 30, 1954. However, the bureau presently has a surplus in excess of $478,000 and is not charging the maximum fees allowable by law. The budget for 1953-54 shows an increase of $8,210 made up as follows:

SALARIES AND WAGES: The increase of $6,268 is primarily for a new position of furniture and bedding inspector. During 1951-52, 17,398 general inspections were made of the 13,040 establishments which accounted for all the licenses in effect as of June 30, 1952. This represented only 1.33 inspections per establishment per year. The new position is requested to raise the average which is felt should not be less than three inspections per year.

OPERATING EXPENSES: The increase of $1,942 consists of the following significant increases, $565; for printing the biennial bulletin of the bureau, $390; for mailing bulletins and price increase, traveling, $300; and automobile mileage, $336, to provide for related expenses of the proposed new position; pro rata departmental administration, $869; and pro rata general administrative charges, $212; together with minor increases for price adjustments. These have been offset by a $750 reduction in automobile operation expenses.

EQUIPMENT: The $400 requested is to provide miscellaneous items.

	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53
Number of positions	*15.3*	*16.5*	*16.5*	–

The work load continues to increase in proportion to the expanding population of the State. Expenditures exceed revenues because of a drop off of the number of reciprocities issued. This trend commenced in 1950-51 and is expected to continue during 1952-53 and 1953-54. Estimated surplus of $430,719 as of June 30, 1954, precludes the necessity for an increase in fees for the present. The budget for 1953-54 shows an increase of $342 made up as as follows:

SALARIES AND WAGES: An increase of $495 due to an increase in temporary help because of increased work load.

OPERATING EXPENSES: The increase of $1,424 consists of traveling, $640 due to vacancies which have been filled; pro rata departmental administration, $548; pro rata administrative charges, $171; the remainder is due to adjustments for price and work load increases.

EQUIPMENT: The $813 requested is composed of an allowance for a Kardex cabinet, $286; a five drawer file, $109, both for expansion caused by increased work load; $318 for the replacement of two typewriters, and the sum of $100 for miscellaneous items.

GENERAL ANALYSIS

Number of positions	*15.8*	*16*	*17*	*1*

The budget proposes the addition of one special investigator. The board presently has only one such authorized position. The situation in regards to investigations has become critical. The board has had to drop the investigation of complaints because the backlog was so great the statutes of limitations had run against them. This position is needed to alleviate the backlog of complaints. Expenditures will exceed revenues by approximately $17,000 in the budget year. An increase in fees will be needed eventually. At present the cost of examinations per nurse exceeds the $5 examination fee charged by approximately $1.50. However, as of June 30, 1954, it is estimated there will still be a surplus in excess of $341,000 which will serve to carry the board under present inadequate fees for several years. The budget for 1953-54 represents an increase of $7,932 over estimated expenditures for 1952-53. This increase is made up as follows:

SALARIES AND WAGES: The increase of $6,185 is primarily for the proposed new position of special investigator.

OPERATING EXPENSES: An increase of $2,343 is composed of the following significant increases: freight, cartage, and express, $175 due to the biennial shipping of examination materials; traveling, $540; and automobile mileage, $150 for the proposed special investigator; examination expense, $1,195 due to anticipated increase in the number of persons to take the examination during 1953-54. The balance consists of miscellaneous adjustments.

EQUIPMENT: The $331 requested is composed of $150 for miscellaneous items; $129 for a desk and $52 for a chair for the proposed new position of special investigator.

GENERAL ANALYSIS				
Number of positions	*3*	*3*	*3*	–

The budget represents a continuation of the current program. Estimated expenditures for 1953-54 show a decrease of $606 for the current fiscal year. The decrease is primarily due to a reduction in expenditures for equipment which are offset by a $38 increase in salaries and wages and a $396 increase in operating expenses. Details of these increases are as follows:

GENERAL ANALYSIS				
Number of positions	*20.6*	*20*	*20*	–

The budget provides for a continuation of the same program currently in effect. Expenditures for the current and budget fiscal years are expected to exceed revenues slightly. However, the board is not now charging the maximum fee allowable by law for pharmacists' renewals. The situation presents no immediate problems as it is anticipated the surplus as of June 30, 1954 will be $148,382. The over-all increase over the current fiscal year amounts to $1,001 broken down as follows:

SALARIES AND WAGES: The increase of $1,737 is due entirely to small adjustments.

OPERATING EXPENSES: The increase of $426 is composed of pro rata departmental administration $1,400, insurance premiums $50, and pro rata administrative charges $174. These items have been offset by decreases of $900 in automobile operation and $298 in rent.

EQUIPMENT: The $1,250 requested consists of $1,050 for the replacement of an automobile which will have over 120,000 miles prior to June 30, 1954, and $200 for miscellaneous items.

GENERAL ANALYSIS

Number of positions	*0.6*	*1.4*	*1.4*	–

The act creating this board became effective on September 22, 1951, and the board began to operate in February of 1952. The board has not as yet been in operation for a full year and it is still too early to project operating requirements. Estimated revenues show a good margin over estimated expenditures and it is estimated the board will have a surplus of $22,673 as of June 30, 1954. Total estimated expenditures for 1953-54 show a decrease of $308 over estimated expenditures for the current year. The decrease is based on current experience.

GENERAL ANALYSIS

Number of positions	*1.9*	*2*	*2*	–

The same program as currently in effect is projected with expenditures budgeted at existing levels. Revenues continue to exceed expenditures by a small margin. The over-all increase over the current year is $1,632 consisting of the following significant increases:

OPERATING EXPENSES: The increase of $1,606 is composed of increases for printing, $1,175, due to the inclusion of a roster; postage, $285, for mailing roster; pro rata departmental administration, $119; and pro rata general administrative charges, $27.

EQUIPMENT: The $100 requested is for the purchase of miscellaneous items.

GENERAL ANALYSIS

Number of positions	*3.9*	*4*	*4*	–

The operations of this agency are constant in nature. An examination of the work load statistics indicates a gradual growth in the total number of licensees consistent with the growing population of the State. A balanced budget is presented with accumulated surplus increasing from $27,709 as of July 1, 1952, to $38,998 as of June 30, 1954. Over-all expenditures for 1953-54 show a decrease of $507 over those estimated for the current fiscal year.

The budget continues the same program. Revenues continue to exceed expenditures by a small margin and accumulated surplus is increasing. The over-all increase of the current year is $1,113, made up as follows:

SALARIES AND WAGES: The increase of $44 is due to an increase for temporary help, offset by a decrease in board member per diems.

OPERATING EXPENSES: The increase of $19 is due to minor price adjustments.

EQUIPMENT: The $1,100 requested comprises $1,050 for the replacement of a vehicle which will have an excess of 117,000 miles prior to June 30, 1954, and $50 for miscellaneous items.

GENERAL ANALYSIS

Number of positions	*0.4*	*3*	*3*	–

The Act (Chapter 1689, Statutes 1951), creating this board became effective September 22, 1951, but the board did not begin functioning until March of 1952. The expenditures for the 1951-52 Fiscal Year represents only a three months' operation, and there is insufficient experience to determine the full operating requirements of this agency. At present, apparently not more than 2,000 persons will be licensed by June 30, 1953, and this budget is predicated on approximately 2,000 more persons becoming licensed by June 30, 1954. Under these circumstances the board will not be self-supporting under the present fee structure. The estimated accumulated surplus is as follows: June 30, 1952, deficit $1,028; June 30, 1953, deficit $15,630; and June 30, 1954, deficit $13,205. Expenditures have been pared to the minimum and it appears that legislative action is necessary to enable the board to become self-supporting. As registration is permissive and not mandatory under the Act, it is not possible to foretell with any degree of accuracy the number who will apply for licensure. Loans amounting to $28,500 have been made from the General Fund to operate the agency pending the receipt of sufficient revenue. The budget proposed for the 1953-54 Fiscal Year totals $27,575 which represents a decrease of $2,091 over the estimated requirements for 1952-53. Analysis of the decrease is as follows:

SALARIES AND WAGES: Increase $398 principally due to normal increases offset in part by a decrease in board member per diems and temporary help.

OPERATING EXPENSES: Decrease $1,845. Items showing the largest decreases are pro rata departmental administration, $961; office, $150; printing, $150; postage, $400; legal advertising, hearings and evidence, $250; and hearing services—Division of Administrative Procedure, $200. These decreases have been offset by a $300 increase in automobile mileage to allow the executive secretary to visit schools for the purposes of accreditation.

EQUIPMENT: $100 for small miscellaneous items.

HORSE RACING BOARD

The board licenses, regulates, and supervises all horse racing meetings where there is pari-mutuel betting. The board also licens trainers, jockeys, track officials and other persons employed by the racing associations. The main office of the board is Los Angeles with branch offices at San Francisco and at each of the tracks.

GENERAL ANALYSIS				
Number of positions	*15.7*	*17.8*	*20.8*	*3*

The budget is based on a total of 476 days of racing of which 346 are to be at major tracks, 100 days at fair tracks, and 30 days fo combination meetings.

The increase of $26,708 consists principally of the following:

SALARIES AND WAGES: Increase of $14,220 for three race track investigators to provide adequate staffing for normal investigativ coverage and to provide needed emphasis on investigative activity regarding the problem of fraudulent claims for reimbursemen of pari-mutuel tickets.

OPERATING EXPENSES: The increase of $13,152 consists of $10,724 increase in traveling items due to requirements of the ne positions and the increase in number of racing days from 418 in 1952-53 to 476 in 1953-54. A new item of $450 is added for lega hearings and evidence in order to pay traveling expenses of witnesses appearing before the board.

EQUIPMENT: The amount of $889 includes $505 for replacement of a typewriter and adding machine; $200 for photographic equi ment; and $184 for miscellaneous items.

DEPARTMENT OF PUBLIC HEALTH

The Department of Public Health is responsible for a broad preventive medical and dental health program, for the provision of sanitary environment, and for the registration of vital statistics. Service is primarily through the local health departments which are assisted through consultations and subventions, although in a number of cases licensure, inspection, or other direct service is provided.

GENERAL ANALYSIS

	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53
Number of positions	*863.8*	*807.8*	*818.8*	*11*
Positions Transferred to Local Assistance Budget:				
Occupational therapist	*14.8*	–	–	–
Physical therapist	*43.6*	–	–	–
Occupational therapist I	*8.6*	–	–	–
Physical therapist I	*1.6*	–	–	–
Comparable Totals	*795.2*	*807.8*	*818.8*	*11*

This budget proposes three program and three work load changes. The program changes are the addition of one position to audit hospital records, three positions for the increased emphasis on diarrheal disease work in local areas, and $20,000 to provide funds to contract with two universities for field consultation work in the program areas of prematurity and infant mortality. The work load changes are the addition of one position for increased work in the laboratory and three positions to handle the increasing number of industrial hygiene requests from the Division of Industrial Safety. Three clerical positions formerly budgeted in temporary help have been made permanent for the purpose of processing an increasing number of vital records. Further explanation of these changes is shown in the budget for the organization units.

Federal Grants for the Following Programs are Included in the Support Budget:			
Current morbidity project	$86,719	$60,565	$60,565
General health service	609,939	559,407	559,407
Cancer control	184,962	167,875	167,875
Heart disease control	70,207	59,750	59,750
Venereal disease control	52,200	46,386	46,386
Venereal disease—rapid treatment	10,850	10,850	10,850
Maternal and child health services	157,439	155,382	155,382
Special training project	34,000	35,000	35,000
Crippled children services	262,898	290,298	290,298
Pathogenesis of Q Fever	12,901	25,661	25,661
Biological warfare defense	1,256	–	–
Totals, Support	$1,483,371	$1,411,174	$1,411,174

Additional federal grants for tuberculosis control, general health services, venereal disease control and maternal and child health services are subvened to cities and counties and are shown under Local Assistance, Aid to Local Health Departments, federal grants for hospital construction are subvened to cities, counties, districts and nonprofit hospital associations and are shown under Local Assistance, Aid to Local Agencies for Hospital Construction.

Federal funds received as a reimbursement of expenditures made rather than an advance grant are included in the support budget as follows:			
Army influenza project contract	$26,294	$29,720	$29,720
Army airborne Q Fever project contract	24,583	47,410	47,410
Department of Mental Hygiene contract	30,483	34,285	34,907

---

[c] Grants from the Federal Government and the expenditures therefrom are not included in the over-all budget totals.

BUREAU OF BUSINESS MANAGEMENT

Analysis

The Bureau of Business Management is the centralized service bureau for the entire department. The functions of this bureau include general housekeeping service, stockroom, mail and messenger service, operation of the telephone switchboard, accounting, budget preparation and control, personnel recruitment and record keeping, purchasing and maintenance of a car pool. An accountant-auditor is proposed for the purpose of auditing hospital cost records of those hospitals participating in the physically handicapped children's program, on a two-year trial basis. Operating expenses for all organizational units have been calculated on the basis of an increase in personnel and economic assumptions. This includes the travel item both in and out of State.

BUREAU OF RECORDS AND STATISTICS—GENERAL HEALTH STATISTICS

Analysis

The function of this unit is to provide direction and assistance as well as related processing services in the development of public health records and statistics. This unit renders service to local health agencies as well as to the various bureaus of the department, and includes preparation of special interpretive reports, analysis of statistical data relating to births, deaths, marriages, population, statistical consultative services to specific programs, etc.

BUREAU OF RECORDS AND STATISTICS— CURRENT MORBIDITY PROJECT

This is a federal research project for the study of measurements of morbidity, aimed at the evaluation of methods of securing current data, development and refinement of methods, and the development of a plan for establishing a current morbidity service which would be applicable to other states.

This project was planned and approved as a three-year project, commencing in May, 1950.

BUREAU OF RECORDS AND STATISTICS— VITAL RECORDS

Analysis

The function of this section of the Bureau of Records and Statistics is the registration of births, deaths, and marriages, and the provision of services to the department and the public with respect to these records. Three positions are proposed for the budget year to make permanent positions formerly carried in temporary help. These positions are in part supported by an increase in the revenues commensurate with the increase in requests for certified copies.

DIVISION OF PREVENTIVE MEDICAL SERVICES

DIVISIONAL ADMINISTRATION

Analysis

The Division of Preventive Medical Services consists of nine bureaus and four services as follows: Maternal and Child Health, Crippled Children's Services, Tuberculosis Control, Venereal Disease, Acute Communicable Disease, Chronic Disease, Adult Health, Public Health Nursing, Medical Social Service, Nutrition Service, Mental Health Service, and Hospitals. Radiological Safety Program or work load changes are discussed in the budgets for each individual bureau and service. No changes are proposed for the divisional administration.

BUREAU OF MATERNAL AND CHILD HEALTH

Analysis

The function of this bureau is to provide a program meeting the maternal and child health problems in the State. This is accomplished by establishing and supervising prenatal and child health conferences and consultation in the maternal and child health field to local health departments, maternity homes, hospitals, schools, local physicians and other professional groups. Additional funds of $20,000 have been provided in the operating expense category for the purpose of contracting with two universities to do field consultation with local medical personnel in the program areas of prematurity and infant mortality. No other program changes are provided for in this unit.

BUREAU OF CRIPPLED CHILDREN SERVICES

Analysis

The function of this bureau is the administration of a program for the care of handicapped children. The program includes the administration of a general crippled children program as well as cerebral palsy and hearing programs, and the rheumatic fever program added by the Legislature in 1949. These programs are accomplished by:

A. Maintenance of a state file of all children reported with handicapping conditions.
B. Establishment of standards for care and consultation in the maintenance of such standards.
C. Provision of funds for expert diagnostic services and care.
D. Planning for necessary treatment and consultation in the provision of treatment services.
E. Maintenance of statistical records of children receiving services.

An organizational change was approved in 1950-51 wherein nonmedical administrative officers will administer the crippled childrens program at the district level. This plan is in partial operation now. No further work load or major program changes are provided for in this budget.

BUREAU OF TUBERCULOSIS CONTROL

Analysis

This bureau provides consultation in all matters pertaining to tuberculosis to local health agencies, state agencies, and other units of the Department of Public Health, and inspection of tuberculosis sanatoria and hospitals, tuberculosis case-finding in state institutions and, to a limited extent, local communities.

No work load or program changes are reflected in this budget.

[e] Includes diagnostic services for rheumatic fever transferred from subvention item in 1952-53.

[f] Cerebral palsy services transferred to subvention item in 1952-53.

DEPARTMENT OF PUBLIC HEALTH—Continued

BUREAU OF VENEREAL DISEASE CONTROL

Analysis

This bureau provides consultation to local health agencies and private physicians in problems related to venereal disease control. Penicillin is provided to private physicians through local health departments for the treatment of venereal disease patients. Liaison is maintained with the armed forces to facilitate control of venereal disease resulting from the large military population of the State.

BUREAU OF ACUTE COMMUNICABLE DISEASES

Analysis

This bureau provides clinical and administrative consultation to local health departments on problems pertaining to communicable diseases. Certain morbidity statistics with regard to communicable diseases are maintained to provide the basis for cooperation with local health departments in controlling these diseases. Three positions are proposed for work load and program increases. The program increase is an expansion and intensification of the bureau's activities in the field of diarrheal and enteric diseases.

BUREAU OF CHRONIC DISEASE CONTROL

Analysis

This bureau is financed wholly from federal funds granted the department for use in connection with heart, cancer, and diabetes programs. Consultation is provided to local health agencies, hospitals, and private physicians with regard to the best methods of diagnosis and treatment of chronic diseases. The cancer control program is supplemented by a tumor registry program wherein the major hospitals of the State, under contract, maintain registries of tumors, the types of treatment and the results of those treatments. Surveys for the diagnosis of these three diseases are promoted by subventions with federal funds, as well as by advisory and educational activities.

No program or work load changes are reflected in this budget.

DEPARTMENT OF PUBLIC HEALTH—Continued

BUREAU OF ADULT HEALTH

Analysis

This bureau administers the departmental program in industrial hygiene. The program is carried on by direct services to industry which includes making studies in occupational health hazards and aiding in the development of industrial hygiene nursing programs; assisting in the development of local health department industrial hygiene programs; and consultation and educational services to professional, business, and other groups. It is proposed that three positions be added for work load increases. This is for the purpose of augmenting the staff now assigned to the Division of Industrial Safety's work and does not contemplate an increase in other activities as a result of this addition. This budget plans for a marked reduction in the amount of staff time to be allocated to individual plant studies.

BUREAU OF PUBLIC HEALTH NURSING

Analysis

This bureau assists the various bureaus and services in the department in carrying out the nursing aspects of the various programs and serves to coordinate nursing activities within the department. Consultation services are provided to local agencies on the administration of nursing service, including program planning, coordination of activities, personnel policies, evaluation of nursing services, techniques, and procedures. A recruitment, selection and training program is carried out to assist the local agencies in filling their needs for nurses in public health and in industry.

No program or work load changes are reflected in this budget.

MEDICAL SOCIAL SERVICE

Analysis

This bureau provides assistance and consultation to the department and to local health agencies in the development of adequate programs in the medical social service field. A very limited amount of direct service is given in those areas without organized local health departments where the crippled children program is operated.

No program or work load changes are reflected in this budget.

NUTRITION SERVICE

Analysis

The major function of the nutrition service unit is to provide consultation to the professional staff of the State and local health departments on the nutritional aspects of public health programs. (These services are also extended to local health departments, school administrators, nurses and teachers.) In areas where there is no organized health program, services are provided to local public health workers in carrying out their nutrition activities. Limited nutrition service is provided to the Bureau of Hospitals for the review of architects' plans for the dietary departments.

MENTAL HEALTH SERVICE

Analysis

The Mental Health Service unit provides an educational, consultative and advisory service to the staff of the department and to local health agencies to train them to meet the mental health problems associated with public health practice; advisory services for development of mental health programs, particularly in relation to training and long-range planning, and assisting many local health departments and agencies in the most effective use of federal and local funds.

During 1950-51 and prior years, the Department of Public Health was the Federal Mental Health Authority. For 1951-52 and subsequent, this service is completely supported by a reimbursement contract with the Department of Mental Hygiene, which now receives the federal grant as the Mental Health Authority. No state funds are expended in this program.

No program or work load changes are reflected in this budget.

BUREAU OF HOSPITALS

Analysis

The Bureau of Hospitals is responsible for administration of provisions of the Health and Safety Code which relate to minimum facilities for hospitals, clinics and establishments for handicapped persons, and for the administration of state and federal hospital survey and construction acts which provide grants for the assistance in the construction of hospitals and health facilities.

RADIOLOGICAL HEALTH INVESTIGATION

Analysis

The constantly increasing use of radioactive materials presents new problems to public health. The State Department of Public Health, the University, and the Office of Civil Defense have been exploring this problem since early in 1952 in an effort to:

(1) analyze and define the scope of the problem
(2) estimate or measure the character and amount of possible radiation hazards
(3) define public health responsibility
(4) determine necessary protective measures

This unit furnishes the leadership and coordinative force in this investigation. The $2,500 for temporary help is composed of $1,000 for clerical help and $1,500 for expert consultant's fees.

DIVISION OF LABORATORIES

Analysis

This division provides the laboratory services of the department, including:

1. Water and sewage
2. Food and drug
3. Virus and rickettsial
4. Bacteriological
5. Serological

Diagnostic services are provided to rural areas of the State in viral and rickettsial diseases and consultation is provided for clinical and hospital laboratories and local health departments.

The Q Fever investigations and the Army influenza project are being continued during the 1953-54 Fiscal Year.

A new position is proposed to be added to the mycology section of the division and justified on a work load basis.

DIVISION OF ENVIRONMENTAL SANITATION

DIVISIONAL ADMINISTRATION

Analysis

This function consists of the office of the chief, Division of Environmental Sanitation. The division consists of four bureaus as follows: Bureau of Sanitary Engineering, Bureau of Vector Control, Bureau of Food and Drug Inspection, and the Bureau of Cannery Inspection.

No program or work load changes are reflected in this budget.

BUREAU OF SANITARY ENGINEERING

Analysis

This bureau is responsible for the administration of the departmental program in the fields of sewage disposal, industrial waste disposal, water contamination and water supply, as well as general environmental sanitation. This budget reflects a decline in the contract work for the Water Pollution Control Board.

No program or work load changes are reflected in this budget.

BUREAU OF FOOD AND DRUG INSPECTION

Analysis

This bureau administers the program insuring the purity of foods and drugs in California. Manufacturing, wholesale and retail outlets throughout the State are constantly inspected by the bureau working with local health departments. The work is designed not only to remove particular lots of unfit food from consumer channels but to bring about long-range corrections of unsatisfactory conditions.

No program or work load changes over 1951-52 are reflected in this budget.

CANNERY INSPECTION

Analysis

This function has been budgeted in past years as a reimbursement item wherein the total support was derived from the canning industry. Subsequent to and as a result of the Attorney General's Opinion 52/50 the State General Fund will support the sanitation work and all botulism and fish costs will be borne by the industry. No work load or program changes are provided for in this budget.

BUREAU OF VECTOR CONTROL

Analysis

This bureau is engaged in the survey of, the evaluation and development of control measures for, and the supplying of control recommendations pertaining to those diseases of man and animals in California which are conveyed, carried, or harbored by arthropods and certain mammals.

The program of the bureau is mainly of a field nature, designed for the development and encouragement of adequate vector control programs to be conducted by local authorities. Activities include the following basic components:

1. Endemic surveys to determine the existence and distribution of actual or potential vector-borne disease hazards.
2. Studies and demonstrations to establish and evaluate control techniques, methods, and equipment.
3. Services to control vector-borne diseases.

No program changes are reflected in this budget.

EMERGENCY ENCEPHALITIS PROGRAM

Analysis

This program was brought about by an epidemic of encephalitis during the summer of 1952. Slightly over half of the funds were subvended to and spent by Mosquito Abatement Districts. The balance was used by the department for laboratory and other work connected with the program. This program was solely for purposes of coping with the emergency and no funds are provided for this in the 1953-54 budget.

DIVISION OF DENTAL HEALTH

Analysis

This division has responsibility for the administration of a program to protect and improve the dental health of the people. The program is implemented by advisory and consultative services to local health departments, community groups, agencies and educational institutions; promotion of training and studies of dental manpower, clinical facilities, and fluoride content of water supplies. Provision of dental services in rural areas has not proven satisfactory and all of the dental trailers have therefore been disposed of. This budget provides for a continuation of this reduced program.

DIVISION OF LOCAL HEALTH SERVICES

Analysis

This division has the responsibility of integrating the program objectives of the State Department of Public Health with those of the local health departments of the State. The functions of the division involve serving as a two-way line of flow through which the needs of the local health departments may be channeled to the proper bureau or service of the department, and the programs and services of the operating units of the department are directed to the various local health departments.

No program or work load changes are budgeted for 1953-54.

PUBLIC HEALTH TRAINING

Analysis

There are two distinct activities under this general heading. One is the operation and maintenance of field training stations—staff and expenses, the other is the granting of stipends, tuition and travel to trainees. The trainees may be sent to university and postgraduate schools, other training institutions and to field training stations.

No program changes are contained in this budget, and the same level of expenditure is requested for 1953–54 as authorized for the current and past years.

EXPENDITURES FOR CARE OF THE RECALCITRANT TUBERCULOUS

General Fund

Analysis

In the 1949 Session, the Legislature appropriated funds to the Department of Public Health to care for persons suffering from tuberculosis who violate the quarantine or isolation orders of the health officers.

A contract has been drawn up with the Department of Corrections to care for a limited number at the Terminal Island Medical Facility. During the budget year it is estimated that an average of 25 persons will be confined.

The estimated expenditures are in accordance with the above contract.

WATER POLLUTION CONTROL BOARD

he State Water Pollution Control Board formulates general state-wide policy for the control of water pollution, gathers, compiles, and disseminates data, and administers a program of financial assistance for water pollution control.
he Regional Water Pollution Control Boards coordinate programs of abatement and prevention of water pollution in local areas, recommend projects for financial assistance, and prescribe requirements for waste and sewage disposal systems.

GENERAL ANALYSIS				
Number of positions	*39.1*	*41.4*	*40.4*	—*1*

The current program of the State and Regional Water Pollution Control Boards is continued for the 1953-54 Fiscal Year. Three engineer positions at the regional board level have been deleted as staff requirements have become more definite with longer experience in this new field. Reductions have been made in other current expense items for research in technical phases of water pollution control and requirements for field and laboratory services by other agencies.

REGIONAL BOARDS

Analysis

The State is divided into nine water pollution control regions. The governing and policy forming board of each region consists of five members appointed from within the region by the Governor.

Current expenditure level is continued except for slight increases for printing reports and for travel expenses of newly appointed board members.

RESEARCH IN TECHNICAL PHASES OF WATER POLLUTION CONTROL

General Fund

Analysis

To provide basic technical data necessary to discharge properly the responsibilities of the boards the continuation of several technical research projects is recommended.

DETAIL BY PROJECT

	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54
Investigation and evaluation of water qualities standards and their applications	$15,195	–	$3,950
Investigation of relationship of pollution of ground waters to rates of percolation	25,566	$25,000	–
Investigation of pollution by leaching from dumps	9,000	28,000	31,000
Investigation of travel of pollution with ground water movement	17,380	27,900	31,264
Study of the algae of oxidation ponds	–	–	7,500
Totals, Research in Technical Phases of Water Pollution Control	$67,141	$80,900	$73,714

FIELD AND LABORATORY SERVICES BY OTHER AGENCIES

General Fund

Analysis

To prevent duplication or overlapping activities, necessary field and laboratory work is performed for the boards by other state agencies best qualified to render the required technical services. Such service consists of studies of the pollution effects of sewerage and industrial wastes; prescribing discharge requirements; determining effect of drainage wells on ground waters; and special investigations as required.

PUBLIC UTILITIES COMMISSION

Supervises and regulates intrastate public utilities and carriers engaged in the transportation of property. Fixes maximum and minimum rates to provide a reasonable return on capital; regulates service in the interest of public safety and convenience; and controls the issuance of securities and other transactions relating to the capital structure of public utilities.

ADMINISTRATION

Analysis

This function includes the commissioners, their secretaries, accounting, personnel, public information and other general administrative and ministerial activities.

SALARIES AND WAGES: Provision is made for an additional administrative assistant I position due to the centralization of the personnel and budgetary functions and increased work load. A junior librarian position is added for one year to establish a central library of technical books which are now scattered throughout the agency. An intermediate typist-clerk position is provided for the new administrative assistant position, and an additional clerk is provided for increased work load in the stock room and improved mail distribution service.

---

[a] Composed of savings in salaries and wages, $28,103; operating expenses, $2,880; equipment, $757; and excess reimbursements, $64,301.
[b] Composed of savings in salaries and wages, $27,822; operating expenses, $1,513; and excess reimbursements, $29,075.
[c] Composed of savings in salaries and wages, $16,241; operating expenses, $1; and equipment, $299.
[d] Composed of savings in salaries and wages, $1,340.

PUBLIC UTILITIES COMMISSION—Continued

ADMINISTRATION—Continued

OPERATING EXPENSES: The increase of $1,965 is due to additional automobile operation costs relating to the augmentation of staff; additional printing costs pertaining to opinions and orders, the cost of the Public Utilities Code which is not being printed in 1952-53 Fiscal Year; and a new item for microfilming records to permit destruction of certain unneeded material now occupying file space.

EQUIPMENT: The principal items are to replace worn out office furniture and machines, replacement of six automobiles, one additional automobile, files and equipment for the proposed new positions.

PUBLIC UTILITIES COMMISSION—Continued

CONTROL AND REGULATION

Analysis

This function provides the technical and clerical staff to analyze and conduct studies relating to the regulation and rate fixing activities of the commission.

SALARIES AND WAGES: Provision is made for an additional senior utilities engineer position and a senior transportation engineer position to inaugurate a customer-consulting and advice service.

Thirteen additional utility engineer and five clerical positions are provided to June 30, 1954, and 13 limited-term positions are extended for the same period in the Public Utilities Division. The additional staff is included to prevent the present backlog in rate decisions from increasing, to restore the previous level of staff participation in rate cases, to permit checking in regard to compliance with commission decisions, and to undertake safety work which has been neglected due to the current high level of applications for rate increases.

Two new transportation rate expert positions and a stenographer position are added to augment the present staff currently assigned to interstate rate proceedings before the Interstate Commerce Commission. It is intended that a portion of the staff thus engaged will be reassigned to tariff filing work to restore the previous level of service when the current demands relating to interstate matters are reduced.

OPERATING EXPENSES: The increase of $4,150 is due primarily to additional traveling expenses for the proposed new positions. A reduction in printing results from non-repetitive items being printed in 1952-53 Fiscal Year.

EQUIPMENT: The principal items are to replace worn out office furniture and machines, an additional dictating machine, books, files and equipment for the proposed new positions.

HEARINGS AND FORMAL INVESTIGATION

Analysis

This function provides legal services and hearing examiners. In addition to acting as legal advisers to the commission the Legal Division performs a staff counsel function in presenting cases being heard by legal examiners or commissioners.

SALARIES AND WAGES: Two additional counsel positions are provided to permit greater participation in the staff counsel program which was inaugurated during the 1951-52 Fiscal Year.

OPERATING EXPENSES: The increase of $700 in traveling expense is due to the two additional counsel positions.

EQUIPMENT: The principal items are to replace broken bookcases and an electric typewriter, additional law books and equipment for the proposed new counsel positions.

REPORTING

Analysis

This function provides the hearing reporters and transcribers. Receipts from transcripts of proceedings made for litigants are credited as a reimbursement to the appropriation for this function.

Provision is made for continuation of the present level of service.

The principal items of equipment provide for replacement of worn out dictating and transcribing machines, an electric typewriter and broken furniture.

TRANSPORTATION RATE FUND ACTIVITIES

Analysis

Activities supported by the Transportation Rate Fund are largely regulatory upon rail, truck and water carriers engaged in the transportation of property. The Transportation Rate Fund revenue is derived primarily from a fee of one-fourth of 1 percent of the gross operating revenue earned by carriers from the transportation of property and other related fees.

A plan of financial adjustment between the General Fund activities and the Transportation Rate Fund allocates the cost of certain functions which relate to either fund—the details of which are reflected in the General Fund activities budget and offset by estimated reimbursements from the Transportation Rate Fund. The portion of charges to be borne by the Transportation Rate Fund are shown herein as operating expenses. Functions which pertain entirely to the Transportation Rate Fund are budgeted entirely in this portion of the budget.

SALARIES AND WAGES: Provision is made for extending the currently authorized program of informal conferences with license applicants, as required by law, to include conferences with applicants for radial highway common carriers and highway contract carriers. This service will require an additional informal application reviewer position to be assigned to the Los Angeles office.

Three stenographer positions are provided for field offices which now have no clerical help. These positions will relieve field men of clerical work in addition to providing staff to keep the offices open to the public on a full time basis.

Two additional clerical positions and increased temporary help in the amount of $1,300 are provided for the Permits and Fees Section based on work load increases.

OPERATING EXPENSES: Provision is made for additional automobile operation cost for the additional automobile for the Los Angeles office, $500 for refinishing office furniture, with the principal increase in allotments for repayment to the General Fund due to the expansion of activities budgeted in that section of the budget which relate to the Transportation Rate Fund.

EQUIPMENT: The major items include provision for replacement of worn out office furniture and machines, replacement of ten automobiles, one additional automobile, one additional dictator and a transcribing machine, files and equipment for the proposed new positions.

Department of Public Works

DEPARTMENTAL ADMINISTRATION

Directs and coordinates the activities of the Division of Architecture, the Division of Highways, and the Division of Water Resources; and provides accounting service for the Division of Architecture and the Division of Water Resources. The General Fund finances the entire cost of the accounting office and a proportionate share of administration. The State Highway Fund is charged with that portion of the cost of administration attributable to the Division of Highways.

ADMINISTRATION						

ADMINISTRATION

Analysis

Administration includes the office of the director, staff officers, and assistants; and provides the over-all direction, coordination and other staff services for the department.

For the 1953-54 year six positions which serve all divisions of the Department of Public Works have been transferred to administration from the Division of Highways. In addition the State Highway Fund is to be charged with four-fifths of the total proposed expenditures, with the other one-fifth being charged to the General Fund, as compared with eleven-twelfths and one-twelfth, respectively, in previous years.

This revised method of prorating the administrative charges between the Highway Fund and the General Fund represents a more equitable distribution of costs between the two funds.

ACCOUNTING OFFICE

Analysis

Accounting service is provided for the Division of Architecture, the Division of Water Resources, and the Water Resources Board—the latter on a reimbursement basis.

Activities of the office are proposed to be continued at the same level of service.

Department of Public Works

DIVISION OF ARCHITECTURE—Continued

ADMINISTRATION

Analysis

Under this function is the Office of the State Architect and his administrative staff. This staff and those in the other General Fund functions of this agency provide the nucleus of experienced, highly qualified personnel for supervision of the state building construction and maintenance program. To meet the needs of the construction program additional staff is financed through direct charges to construction funds as the work load develops or changes.

SUPERVISION OF PUBLIC SCHOOL BUILDING CONSTRUCTION

Division of Architecture Public Building Fund

Analysis

This unit checks and approves plans and specifications for all new public school building construction and for all alterations or remodeling exceeding $4,000 in estimated cost. The unit inspects such buildings periodically during the course of construction to assure compliance with approved plans and specifications, as required by the Education Code. It is estimated that the work load of public school building construction will be maintained at the current level of approximately $165,000,000.

Based upon relationship of personnel to work load the division believes a larger staff is necessary to properly discharge its responsibilities. However, technical personnel with the required qualifications are extremely difficult to recruit, therefore substantial salary savings are estimated. Under circumstances more favorable to securing qualified engineers additional positions would be recommended. Operating expenses include increases in printing for reprinting a handbook on school construction regulations, and in rent due to change in office locations at Los Angeles. Provision is also made for participation in a research program administered by the Forest Products Laboratory of the U. S. Department of Agriculture to investigate timber diaphragm stresses to establish criteria and standards for use in the checking of schoolhouse plans.

GENERAL ANALYSIS

Number of positions	*41*	*32*	–	—*32*

The California Toll Bridge Authority has authorized issuance of bonds for construction of the Richmond-San Rafael crossing under resolutions adopted November 7, 1952. It is anticipated that sale of bonds thereunder will be consummated early in 1953 and the proceeds therefrom will be available for the operations of this agency. Therefore, no appropriation is requested and current year expenditures are reflected only to February 28, 1953.

DIVISION OF WATER RESOURCES

The major portion of the State's activities pertaining to the investigation of water resources, and to the conservation, control, and utilization of such water resources, is conducted by the Division of Water Resources.

The support budget reflects the division's responsibility under various statutes for the administration and supervision of the appropriation of water and the adjudication of water rights; for supervision of safety of dams; for maintenance and operation of the Sacramento River Flood Control and Reclamation Works; for administration of the state mapping program, including preparation of a state base map; for administration of state water quality investigations; for stream gaging and collection of hydrologic data on the Sacramento and San Joaquin Rivers; for review of federal reports on proposed flood control and reclamation projects to the Federal Government; and for providing of technical assistance to the Water Project Authority concerning the Central Valley Project and engineering and legal problems coincident thereto.

In addition it provides for cooperation with the Federal Government, other state agencies, and with local governments in the pursuance of such activities as topographic mapping, stream gaging, salinity sampling, snow surveys, the making of special hydraulic engineering studies, and in supervision of construction of a wide variety of construction projects.

DIVISION OF WATER RESOURCES—Continued

GENERAL ADMINISTRATION

Analysis

This function includes the Office of the State Engineer and other administrative functions of the Division. The legal, stenographic, library, files, equipment, purchasing, auditing, automotive, budgeting and fiscal control, and reports section are included in this function. It also includes the administration of public districts coming under the Office of the State Engineer. Proposed new positions: two assistant counsel and two junior counsel are recommended for research and preparation of cases in connection with increased legal work due to the various legal problems of the department involving state and federal relationships, appropriation of water, adjudication of water rights and other activities of the Division. One intermediate stenographer-clerk is recommended to assist the new counsels. One additional senior legal stenographer is to provide stenographic assistance for two senior attorneys approved in the 1952-53 Budget.

STATE MAPS AND SURVEYS

Analysis

Under the provisions of Chapter 1581, Statutes of 1949, the Division of Water Resources is preparing a state base map consisting of complementary planimetric, topographic, and mosaic maps, and making surveys of mapping available in other public agencies, and related work. The supervision of topographic mapping is also included under this function. Activities are projected at the current year level.

WATER QUALITY INVESTIGATION

Analysis

The activities of this unit include: (1) investigation of the quality of all water, including saline water (coastal and inland), and as related to all sources of pollution, together with recommendations as to improvement or protection of the quality of such waters; (2) surveys, investigations, and formulation of plans for the reclamation of waste waters for beneficial purposes; (3) investigation of damage to ground water by reason of abandoned or defective wells, together with recommendations for minimum standards for well construction. In addition, well log forms are furnished to all water well drillers who are required to file such well logs with the appropriate regional water pollution control board.

This function also supervises the work being done by the division for the State and regional water pollution control boards.

The program is extended at basically the same level as the current year but with provision for the analysis of water samples in excess of the division's present laboratory facilities and the proposed purchase of equipment found necessary as a result of the first two years' experience in this function.

SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS 51-52 (Filled)	52-53 (Auth.)	53-54 (Auth.)	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54
WATER QUALITY INVESTIGATION—Continued						
Analysis—Continued						

Two new junior civil engineers are recommended to properly locate wells and process a backlog of well drillers reports submitted in accordance with Chapter 1552, Statutes of 1949. These reports are basically for control of water pollution, but provide the division valuable information concerning underground formations in its study of ground water basins. A review of the need for continuation of these positions is recommended when the backlog is eliminated.

Two laboratory assistants, one for the Sacramento mobile laboratory and one for the San Bernardino laboratory, to release chemists for more complex analyses are also included.

SACRAMENTO-SAN JOAQUIN WATER SUPERVISION

Analysis

The primary activity of this function is to perform stream gaging activities and to collect hydrological data on the Sacramento and San Joaquin Rivers to provide basic information on water supply and utilization.

This function is carrying on similar activities under contract for the U. S. Bureau of Reclamation for which reimbursement is received, and in addition supervises two wholly reimbursable projects; the assembly of factual data on diversions in the Sacramento and San Joaquin Valleys and salinity conditions.

No change in the existing level of service is proposed.

WATER RIGHTS AND RESOURCES

Analysis

This activity is primarily concerned with the supervision of the appropriation of waters within the State, the supervision of the adjudications of water rights by court reference and statutory adjudication, the supervision of watermaster service, and the studies of water problems in the Southern California area. Snow surveys are also supervised by this function.

The expenditures proposed for the function are projected on the basis of continuation of the present work program.

WATERMASTER SERVICE

Analysis

This function is responsible for the supervision of water distribution within the watermaster service areas, of which there are 16 at the present time. The cost is financed by equal contributions from the State and local interests.

The staff and expenses proposed are based upon a continuation of the present level of service.

REGULATION OF SAFETY OF DAMS

Analysis

This function is charged with responsibility for the safe condition of all dams in California except those federally owned. This duty is discharged by means of approving plans and specifications for all proposed new dam construction and the repair of existing dams and by maintaining a periodic safety check of the 747 dams now under the State's supervision. No change from the present program is proposed.

FLOOD CONTROL PROJECT MAINTENANCE

Analysis

Activities of this function are the maintenance of the Sacramento-San Joaquin Flood Control Project. Chapter 1152, Statutes of 1951, added about 32 miles of levees and 17 miles of channels to the Sacramento River Flood Control Project. Expansion of this activity is due to the addition of levees under Chapter 1152, Statutes of 1951, and the addition of new responsibilities on inspection of levees on Deer Creek, the Merced Stream Group, and Littlejohn Creek Group in Fresno County.

Due to additional levees being added to the State's responsibility for maintenance, one additional flood control construction foreman is proposed in order to complete semiannual physical inspections of the levees. One additional subforeman, flood control maintenance and construction is proposed for headquarters near Sacramento to save travel time now lost by travel from Sutter in the maintenance of levee areas recently acquired, and to provide more effective maintenance crew supervision.

REVIEW OF FEDERAL REPORTS

Analysis

Federal law provides that the various states be given an opportunity to review federal reports on proposed reclamation, flood control, and water conservation projects within their boundaries.

Analysis of and recommendations on such projects are prepared by the Division of Water Resources.

Since the work load is dependent upon projects referred to the State, the budget is based upon the average level of activity for the past.

CENTRAL VALLEY PROJECT

Analysis

This function provides the Water Project Authority with the technical assistance required in acting upon the numerous complex legal and engineering problems involved in representing California in connection with the operation and construction of the Central Valley Project.

No change in program is anticipated.

This function is budgeted on the basis of normal activity. The current and 1953-1954 Fiscal Years are budgeted on the basis of positions specifically authorized for this function. The high level of activity in 1951-1952 was occasioned by the Feasibility Report to the Legislature, the Ivanhoe and Rank vs. Krug court cases, and some other minor work all of which is in excess of normal work load.

GENERAL FUND

WORK IN COOPERATION WITH THE FEDERAL GOVERNMENT

Analysis

The Division of Water Resources cooperates with the appropriate federal agency in the accomplishment of projects of mutual concern. State funds are matched by the Federal Government. The projects for which provision is made in the 1953-54 Fiscal Year are:

1. Yuba River Debris Control: Provides for restoring, impounding, and controlling debris along the Yuba River in cooperation with the U. S. Army Engineers.
2. Irrigation Investigations: Investigations are conducted by the Soil Conservation Service of the U. S. Department of Agriculture, including the use, transpiration, evaporation, and percolation of waters.
3. Stream gaging in cooperation with the U. S. Geological Survey: Provides data on water supply, runoff, and utilization of streams in California not otherwise covered by the Division of Water Resources.
4. Topographic Mapping: For the continuation of the preparation of topographic maps of California in cooperation with the U. S. Geological Survey.
5. Stream Gaging Stations: For one new and reconstruction of six stations in cooperation with the U. S. Geological Survey.

EXPENDITURES BY PROJECT

	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54
Yuba River debris control	$45,000	$30,000	$15,000
Irrigation investigations	7,500	7,500	7,500
Stream gaging	111,575	127,350	155,025
Topographic mapping	300,000	300,000	300,000
Establishment or reconstruction of stream gaging stations	7,500	–	14,000
Totals, Work in Cooperation With the Federal Government	$471,575	$464,850	$491,525

FEATHER RIVER PROJECT

Analysis

Chapter 1441, Statutes of 1951, authorized and directed the State Engineer to conduct the necessary investigations, surveys and studies and preparation of plans and specifications for the construction of the units set forth in the publication of the State Water Resources Board entitled "Report on Feasibility of Feather River Project and Sacramento-San Joaquin Delta Diversion Projects Proposed as Features of the California Water Plan"; and to submit such material to the Water Project Authority for its approval. It is proposed during 1953-54 to complete the required work and final report.

GENERAL ANALYSIS

Number of positions	*14*	*13.5*	*14.5*

An additional associate statistician is recommended for one year to develop statistical data, now lacking, on aircraft, their utilization, and aviation facilities.

One aviation safety representative is recommended for the promotion of aviation safety.

Operating expenses are increased for traveling of the commission to meetings in various locations throughout the State, and for airplane operation due to the overhaul of one plane.

Offsetting a part of the cost of these additions is the elimination of one delineator.

It is anticipated that legislation will be proposed to provide financial aid for this agency from sources other than the General Fund.

COLORADO RIVER BOARD

The Colorado River Board was created under Chapter 838, Statutes of 1937, for the purpose of protecting California's rights pertaining to the Colorado River. The board, and its staff, collects, compiles and analyzes engineering and legal data on the existing and proposed utilization of the Colorado River water supply, appears before congressional committees and interested federal agencies, and confers with representatives of other Colorado River Basin states regarding legislation and developments affecting California's rights and interests.

Number of positions	*26.2*	*29*	*32*

Two engineering and one clerical position are recommended as additional contingent upon an anticipated increase in the federal appropriation for the Sacramento River Flood Control Project. Operating expense and equipment categories have been adjusted to reflect the additional positions. Balance of the increase in equipment category is due to need for periodic replacement of automobiles.

INTERIM SAN FRANCISCO BAY PORTS COMMISSION

The Interim San Francisco Bay Ports Commission, consisting of nine commissioners, was created by Chapter 737, Statutes of 1951, to be in effect until the ninety-first day after the adjournment of the Legislature in 1953. The commission is required to report to the 1953 Session of the Legislature the results of its investigation and study and its conclusions and recommendations, regarding the needs for a cooperative Bay Area ports program.

GENERAL ANALYSIS

Number of positions	*0.4*	*3*	*3*	

The proposed budget provides funds only for the first quarter of the budget year, as present statutory authorization for the commission expires on the ninety-first day after adjournment of the 1953 Session. Extension of the current year's level of expenditure to the expiration date for the agency is proposed in order to assist in the development of a cooperative ports program and for continuance of the function until legislation is enacted regarding the future of the program.

SAN FRANCISCO BAY AREA RAPID TRANSIT COMMISSION

The San Francisco Bay Area Rapid Transit Commission, consisting of 26 members, was created by Chapter 1760, Statutes of 1951, to study and investigate rapid transit problems in the San Francisco Bay area.

SUMMARY AND RECONCILIATION WITH APPROPRIATIONS

Number of positions	*0.3*	*2*	*2*	–

The need for rapid and effective transportation of persons between the various portions of the metropolitan area surrounding San Francisco Bay was recognized in the creation of this commission.

The statute provides that the commission shall terminate December 31, 1953, unless the commission, by resolution, declares that public welfare and convenience require the life of the commission to be extended to not later than December 31, 1955. Such a resolution was adopted on August 27, 1952, since it appeared that the work of preparing a rapid transit plan and other problems would extend the commission's need beyond December 31, 1953.

Present indications are that the conclusions and recommendations of the commission will only be in tentative form when the required report is submitted to the 1953 Regular Session. Additional time and funds are needed to complete a final report.

The increase is due primarily to printing progress and final reports and to increased consultants' services.

WATER RESOURCES BOARD

The State Water Resources Board is the agency designated to study and make recommendations to the Legislature on water conservation and flood control matters; to investigate and recommend allocations from the Flood Control Fund of 1946 to local agencies to cover the cost of cooperation in flood control works constructed by the Federal Government; and to represent the state and local agencies in matters pertaining to federal authorizations and appropriations for flood control projects. In addition, the board, under the provisions of Chapters 1500 and 1596, Statutes of 1951, is responsible for formulating plans and design criteria for the correction or prevention of damage to the underground waters of the State by sea water intrusion; and for conducting research relative to the production and control of rainfall by artificial means.

COOPERATIVE MINOR WATER RESOURCES INVESTIGATIONS

General Fund

Analysis

The State Water Resources Board conducts comprehensive investigations in areas where the urgency and acuteness of water supply problems require more intensive study than that provided by the state-wide water resources investigation. The cost of these studies is shared equally by the State and the participating unit of local government. 1953-54 Fiscal Year Budget provides for continuation of field work on the San Luis Obispo County investigation on a cooperative basis. Initial funds for this work were provided by Item 268 of the current year budget act on a nonmatching basis, however it is the board's policy that investigations involving a high degree of local interest be financed on a cooperative basis. Other investigations involve a continuing program of collecting basic hydrologic data.

STATE-WIDE WATER RESOURCES INVESTIGATION

General Fund

Analysis

This project constitutes a revision and completion of the State Water Plan. Its objective is the preparation of a plan for the full conservation, control, and utilization of the State's water resources, underground as well as surface, to meet present and future water needs. The result of the investigation will be presented in four bulletins, as follows: No. 1, "Water Resources of California"—this has been printed and contains a complete inventory of water resources for each of the seven major hydrographic units. No. 2, "Water Utilization and Requirements"—field work has been completed and the report will be completed in the 1952-53 Fiscal Year. No. 3 "Plans for Development of Water Resources"—field work will continue in 1953-54, and portions of the bulletin will be drafted. No. 4 "Summary Report on the California Water Plan," will be prepared after completion of bulletin No. 3.

---

[a] Nonmatching in 1952-53.

RESEARCH RELATIVE TO THE PRODUCTION AND CONTROL OF ARTIFICIALLY INDUCED RAINFALL

General Fund

Analysis

Chapter 1596, Statutes of 1951, authorized research relative to the production and control of rainfall by artificial means, and appropriated $50,000 for this purpose. Statistical studies of several cloud-seeding programs and studies of meteorological factors associated with precipitation are in progress and are proposed to continue through 1953-54.

Expenditures by Project

DEPARTMENT OF SOCIAL WELFARE

The Department of Social Welfare supervises the county administration of old age security, aid to needy blind, aid to partially self-supporting blind, aid to needy children and child welfare services; administers the prevention of blindness program; investigates independent adoptions; licenses private agencies placing children for adoption and/or temporary care; licenses and supervises county adoption agencies; inspects and licenses boarding homes, institutions and other facilities for the care of aged and children; supervises the licensing of boarding homes for aged and children by local agencies; and grants certificates authorizing the execution of contracts for life care.

Headquarters Office at Sacramento

The summary of expenditures from state, federal, and county funds for social welfare programs administered by the department appears in the Local Assistance Budget, "Subventions for Social Welfare."

GENERAL ANALYSIS				
Number of positions	*508.5*	*510.2*	*531*	*20.8*

The Department of Social Welfare was reorganized during the 1950-51 Fiscal Year. The purpose of the reorganization was to decentralize and establish smaller units to more closely cooperate with and advise local agencies. This was done by establishing three area offices in the State directed by area deputies under the supervision of the director of the department.

The Senate Interim Committee on Social Welfare, in its report dated March 3, 1952, recommended additional central office changes. The majority of those recommendations that required no additional financing were accomplished during the 1952-53 Fiscal Year. The remaining recommendations are proposed for the 1953-54 Fiscal Year.

Chapter 1262, Statutes of 1951, abolished the Social Welfare Fund, established the Social Welfare Federal Fund and provided that support disbursements should be made from the General Fund budget act item.

DIVISION OF SOCIAL SECURITY

Divisional Administration

Analysis

This unit supervises and coordinates the activities of the Bureau of Field Review, the Bureau of Aid to Needy Aged, and the Bureau of Aid to Needy Children. It maintains liaison with the Bureau of Public Assistance of the Federal Security Agency, and gives technical services to the various public assistance programs; child welfare programs, and area offices, in the fields of medical social work and home economics. It is responsible for the development and execution of plans in the fields of dependency prevention, rehabilitation, and re-employment with respect to increasing self-sufficiency of aid recipients. Expenditures for 1953-54 for staff development and training are shown under Division of Administrative Services, Bureau of Training. The increase is due to the proposed establishment of a new position and in travel due to the proposed establishment of new positions in the division. The new position is needed to develop and execute plans for stimulating the state and local services with respect to increasing self-sufficiency of aid recipients.

DIVISION FOR THE BLIND

Analysis

This unit is responsible for the formulation and interpretation of standards, policies, rules, and regulations governing the administr tion of the Aid to the Blind Programs; reviews reports of eye examinations, provides consultant services on medical phases, an administers the Prevention of Blindness Program. The Prevention of Blindness Program provides treatment or surgery to prever blindness or restore vision to persons applying for or receiving aid to the blind. The increase is due to the proposed new cleric position to meet increased work load; and the increased cost of hospitalization, surgery and medical services in the Preventio of Blindness Program.

AREA OPERATIONS

Analysis

This unit is responsible for the supervision of local agencies and the execution of departmental policies throughout the State. The State is divided in three areas, with area offices located at Los Angeles, San Francisco, and Sacramento. Each area office is headed by an area deputy who has full responsibility for all operations within the area, and who directs a staff of professional, technical and clerical personnel. Increase is due to work load.

GENERAL ANALYSIS

Number of positions	*60.6*	*60*	*60*	–

The 1953-54 Fiscal Year is budgeted as a continuation of the program previously authorized. The Defense Mobilization Services Committee is continued for another year as the peak defense production impact is expected in the early part of 1953-54.

Contracts with veterans' organizations for assistance to veterans in pursuing claims against the United States arising out of war service has been increased $8,000 to finance full-year participation of the American Veterans of World War II in the program.

Educational assistance to veterans is expected to decrease $78,100. Total enrollments are anticipated to remain at the same level as in 1952-53, but student costs will decrease as the number of part time students increases. Present law does not extend this benefit to Korean War veterans.

Educational assistance to veterans' dependents is estimated to increase $5,665 over 1952-53. This is primarily due to the increased birth rate of 1937 and 1938 being reflected in increased enrollments.

DEPARTMENT OF VETERANS AFFAIRS—Continued

DIVISION OF EDUCATIONAL ASSISTANCE

Analysis

This division administers the program for educational aid in the form of subsistence payments to veterans and veterans' dependents. The increase is due to increased rent in the new office location and replacement of an automobile.

DIVISION OF SERVICE AND COORDINATION

Analysis

This division coordinates all of the State's veterans' programs and provides informational and advisory services to agencies in contact with veterans and assistance to veterans in presenting claims against the United States arising out of war service. The decrease of $1,107 is due to decreased equipment costs partially offset by increased rent due to the new office location.

DEFENSE MOBILIZATION SERVICES COMMITTEE

Analysis

This committee assists local governments in developing programs for housing, schools, recreational facilities, etc. to meet population increase problems brought about by military and production development as a result of the defense effort. No significant change is budgeted.

DEPARTMENT OF VETERANS AFFAIRS—Continued

GENERAL FUND

For Educational Assistance to Veterans, to Be Expended Under the Provisions of Article 2 of Chapter 6 of Division 4 of the Military and Veterans Code

Analysis

The assistance is limited to a total payment of $1,000 per California veteran. The subsistence is limited to $40 per month based on actual attendance in school, and tuition and other items of school books and supplies as are necessary, or not to exceed $50 per month. Duration of eligibility is for the life of the veteran.

The amount proposed assumes a continuation of approximately the current year total enrollments and decreasing student costs, due to an increasing number of part-time students. It is based on present law and does not include extension of benefits to Korean War veterans. The amount will provide assistance for 3,300 summer session, 6,400 fall semester and fall quarter, 1,000 winter quarter, and 7,200 spring semester and spring quarter students.

This program is expected to cost $78,100 less than in 1952-53 or a 2.4 percent decrease.

The 1952-53 amount is estimated on the basis of actual fall enrollments with a decreasing student cost and is expected to be within the current appropriation. Should the 1953 spring enrollments and student costs show a decided increase, a deficiency appropriation may have to be presented to the Legislature at a later date.

OTHER CURRENT EXPENSE						
Educational assistance to veterans' dependents				–	–	$10,775

VETERANS' DEPENDENTS EDUCATION FUND

Analysis

The educational aid to widows and orphans is not limited as to total amount for each eligible. However, subsistence payments shall not exceed $480 per year on the basis of school attendance. Payments are limited to $40 per month for college students, and $20 per month for high school students, and represent only amounts for subsistence per Department of Veterans Affairs' policy. Orphans over 16 years but not over 21 years of age may file for and receive assistance until the course is completed or until 27 years of age is reached, whichever first occurs. Assistance to widows is limited to not more than four years duration.

While the decreased enrollment of widows is expected to continue, the orphan enrollments are expected to increase due to the sharp upward trend in birth rates of 1937 and 1938.

The amount proposed will provide assistance to 105 summer, 597 fall, and 608 spring semester students, and is estimated to cost $195,590 or $5,665 over 1952–53.

The annual excess costs over the $150,000 transferred from the State Lands Act Fund have depleted the surplus in the Veterans' Dependents Education Fund to the point where an appropriation from the General Fund is required.

Department of Veterans Affairs

VETERANS' HOME OF CALIFORNIA

The Veterans' Home of California is for aged and disabled honorably discharged former soldiers, sailors, marines and members of the Coast Guard who have served in the armed forces during a war period and are eligible for hospitalization or domiciliary care in a veterans facility of the United States Veterans Administration and have been bona fide residents of California for 10 years preceding date of application for admission.

Located Near Yountville, Napa County

Member	*105.9*	*109.9*	*111.3*	*—1.4*
POPULATION AND UNIT COSTS				
Average member population	1,533	1,650	1,775	125 (7.6%)
Cost per member	$1,517	$1,576	$1,530	—$46 (—2.9%)

The increase is primarily due to increased members, proposed new positions, and expanded facilities.

SALARIES AND WAGES: The increase of $89,444 is largely due to the following:

Proposed New Positions:

1 Intermediate typist-clerk $2,844

This position will provide increased clerical assistance in the supply office. This office is comparable to the commissary manager's office in another institution and in addition supervises grounds maintenance and farming (orchard) activities. At present there are only two clerical employees in this office. Increased population and expended facilities, together with new operations such as the laundry and dry cleaning plant have increased the work load to the point where this additional position is mandatory.

1 Intermediate clerk 2,706

This position will be assigned to the adjutant's office where the membership records, waiting lists, and statistical reports are maintained. This office also serves as a central information center. Accurate current records are essential to verify claims to the Federal Government. Work load increase since the last addition of staff in this office justify this additional position.

1 Member of the guard, member 1,290

The guard positions require six posts plus four relief for 24-hour, 7-day per week coverage. There are now nine positions. The six posts to be covered are: (3) 24-hour traffic control at the main intersection within the home, (1) night grounds patrol, (1) day guard at guard house, and (1) evening shift at main gate. Traffic control coverage is required on the midnight-8 a. m. shift to prevent unauthorized vehicles from entering the institution and to provide someone to assist the night grounds patrol post in case of emergency requiring two individuals such as carrying a stretcher to the hospital.

2 Supervising nurse I 7,620

These positions, together with existing positions, will provide 24-hour supervising nurse I coverage, under the direction of the supervising nurse III. They will supervise a total of 62 nurses and 130 hospital aids. In addition to supervision of other nurses, one nurse conducts an in-service training program partially necessitated by the high rate of turnover in nursing personnel.

1 Assistant work supervisor, member 1,274

The present work supervisor assigns jobs to an average of 220 men daily and should check the assignments at least twice daily. Many of the members are assigned to assist tradesmen, culinary workers, etc. in their work while approximately 60 men do not work under direct supervision of anyone but the work supervisor. Additional lawn areas and new facilities, together with increased population, result in an increasing number of work details. This position will provide the work supervisor with an assistant to properly supervise the many job assignments and work details.

---

[a] Composed of savings in salaries and wages, $12,392; operating expenses, $12,883; equipment, $13,808; excess in reimbursements, $7,727.

[b] Contributions from the Federal Government are not included in the over-all budget totals, either as revenue or expenditures. For summary of federal aid funds, see Schedule 7.

LINE	EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53

GENERAL ANALYSIS—Continued

SALARIES AND WAGES—Continued

Proposed New Positions—Continued

1 Laborer $2,844

This position will assist in loading and unloading trucks as required, move furniture, and do other heavy work. At present the groundsmen and flower gardeners are called from their assignments to assist in this work. However, with the addition of approximately 15 acres of lawns, shrubs, and trees these positions cannot afford the time for this type of work.

1 Painter 3,996

1 Plumber 3,996

These two positions will assist in maintaining the institution buildings on a current basis rather than requiring periodic capital outlay projects for this type of work. For several years the positions will be primarily utilized in repainting and plumbing replacement work which would previously be done as minor construction and improvements projects. Materials for this work is included in operating expenses as "Special Repairs and Maintenance."

Positions Now Authorized:

Full-year cost of 11 positions established during current year to convert the lower floor of McKinley Barracks to a chronic and convalescent unit account for $15,987 of the increase.

OPERATING EXPENSES: The increase of $40,635 is generally due to increased membership and expanded facilities. "Special Repairs and Maintenance" accounts for $10,075 of the increase and includes materials for projects previously budgeted as capital outlay but which are of a maintenance type.

EQUIPMENT: The total of $33,461 represents a decrease of $13,112 from the current year. Major items include replacement of feeding equipment, $4,445; replacement of housekeeping equipment, $2,405; additional medical equipment, $2,976; replacement of pumps, $3,850; and motor vehicle replacement, $7,550.

WOMAN'S RELIEF CORPS HOME

The Home is for the custodial, medical and nursing care of the widows, destitute unmarried daughters and sisters of Union Veterans of the Civil War and for nurses who served in that war. Admissions to the Home have been closed since 1947.

Located near San Jose, Santa Clara County

EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53
SUMMARY AND RECONCILIATION WITH APPROPRIATIONS				
General Fund				
SUPPORT				
Budget Act appropriation	$68,483	$74,581	$73,734	
Allocations from Salary Increase Fund	4,888	3,400	–	
Allocations from Emergency Fund	500	1,063	–	
Allocations from Price Increase Fund	1,281	–	–	
Total Available	$75,152	$79,044	$73,734	
Unexpended balance, estimated savings	—1,646 [a]	—235 [b]	–	
TOTAL EXPENDITURES FOR SUPPORT	$73,506	$78,809	$73,734	—$5,075 (—6.4%)
HOSPITALIZATION AND MEDICAL AID OF MEMBERS IN COUNTY HOSPITALS				
Budget Act appropriation	$2,500	$2,500	$1,600	
Unexpended balance, estimated savings	—1,059	—900	–	
TOTAL EXPENDITURES, HOSPITALIZATION AND MEDICAL AID OF MEMBERS IN COUNTY HOSPITALS	$1,441	$1,600	$1,600	–
TOTAL EXPENDITURES	$74,947	$80,409	$75,334	—$5,075 (—6.4%)
GENERAL ANALYSIS				
Number of positions	*18.2*	*18*	*16*	*—2*
POPULATION AND UNIT COSTS				
Average member population	22	21	20	—1 (—4.8%)
Cost per member	$3,341	$3,753	$3,687	—$66 (1.8%)

The per capita cost decrease is primarily due to the abolishment of two positions. partially offset by the decreasing member population resulting in higher "overhead" costs per member.

SALARIES AND WAGES : The decrease of $5,955 is primarily due to the abolishment of two positions.

OPERATING EXPENSES : The increase of $255 is due to increased maintenance of structures costs partially offset by the decrease in population.

EQUIPMENT : The total of $1,450 represents an increase of $625 over the current year. The only major item is the replacement of a refrigerator, $750.

GENERAL ANALYSIS

There have been provided in the 1951-52 and 1952-53 Budgets, lump sum appropriations for salary increases to provide funds for any salary increases that may be granted and for which funds were not provided in the agency budgets. The budget for the 1953-54 Fiscal Year proposes that $9,453,189 be made available to provide for approximately a 5 percent increase; $620,000 for special adjustments; and $2,072,923 to provide for increases granted after the budgets were prepared and for which funds are not provided in the agency budgets.

The amount proposed for the 1953-54 Fiscal Year is substantially less than those for previous years because most of the increases for the current year were determined prior to the preparation of the budgets and thus included in the budgets for the ensuing fiscal year.

A limitation was placed on previous appropriations to the effect that the annual cost of salary increases may not exceed specified amounts. It is proposed that the appropriation for 1953-54 include a similar limitation that the annual cost to the General Fund for increases that may be approved by the State Personnel Board may not exceed $6,400,000.

SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS 51-52 (Filled)	52-53 (Auth.)	53-54 (Auth.)	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54
General Fund						
Funds Required for Salary Increases Granted During the 1952-53 Fiscal Year; Not Included in Agency Budgets [c]						
State colleges, academic classes				-	$431,207	$431,207
University of California, academic classes				-	1,162,000	1,162,000
Special adjustments, various classes				-	184,212	329,716
University of California, various classes				-	75,000	150,000
Totals				-	$1,852,419	$2,072,923
Funds Recommended for Salary Increases That May Be Granted During the 1953-54 Fiscal Year:						
General Increase for All Classes, Average of 5 Percent:						
For University of California				-	-	$2,757,376
For all others				-	-	6,695,813

Special Funds						
Funds required for salary increases granted during the 1952-53 Fiscal Year not included in agency budgets				-	$55,868	$88,807
Funds recommended for salary increases that may be granted during the 1953-54 Fiscal Year [d]				-	-	1,935,035
TOTAL EXPENDITURES				-	$55,868	$2,023,842
TOTAL EXPENDITURES, ALL FUNDS				-	$1,908,287	$14,169,954

---

[a] Savings due to annual limitation would be exceeded, academic salary increases in state colleges and the University of California were effective for only nine months, savings in number of teachers in state colleges and excess federal reimbursements, and use of excess salary savings in agency appropriations.

[b] The Legislature made $1,633,375 available over budget estimates. Other savings due to use of salary savings in agency appropriations.

[c] Costs of salary increases granted to July 1, 1952, are included in the individual agency budgets.

[d] Exclusive of salaries paid from the State Highway Fund, as all available funds are budgeted and any increased costs will be met by adjustments within the budget.

GENERAL ANALYSIS

The debt service charges do not include charges on bonds issued for construction at the San Francisco harbor or charges on the bonds issued for the veterans farm and home loan program. They are general obligation bonds, but are primarily the obligation of the respective utility funds. The activities of these utility funds are reported in the appendix section of the budget.

Interest and redemption chargeable to the General Fund is covered by motor vehicle license fee revenues which are transferred to the General Fund in the amount of the annual charges.

Interest and redemption charges on bonds issued for construction of state and university buildings, and for acquisition of areas for state parks, are met from funds which were set aside from General Fund surplus and placed in the Bond Sinking Fund of 1943.

There has been transferred to the State Buildings Interest and Sinking Fund sufficient money to retire the outstanding Sacramento State Buildings bonds, which will become due in 1965.

EXPENDITURES BY ISSUE	ACTUAL 1951-52	ESTIMATED 1952-53	ESTIMATED 1953-54	
First Highway of 1909:				
Interest	$160,000	$144,000	$128,000	
Redemption	400,000	400,000	400,000	
Second Highway of 1915:

Interest	11,200	10,400	9,600	
Redemption	20,000	20,000	20,000	

---

[a] Donated funds. Neither receipts nor expenditures are included in the budget totals.

[b] A bond fund. Neither receipts nor expenditures are included in the budget totals. This fund was abolished and the balance remaining was made available for payment of interest.

[c] Public School Building Bonds are primarily an obligation of the General Fund. However, debt service charges are met to the extent of available money in the Public School Building Loan Fund, State School Building Aid Fund, and the School Building Retirement Fund. These bonds were issued to provide funds to be loaned to local school districts; therefore, the expenditure for debt service is considered as assistance to local government and is shown under the Local Assistance Budget, Subventions for Education.

GOVERNOR'S OFFICE

Office of Civil Defense

FACILITIES, MATERIALS, SUPPLIES, EQUIPMENT, AND OTHER REQUIREMENTS FOR CIVIL DEFENSE

Analysis

Provision is made for completion of the procurement of civil defense supplies and equipment program. Certain revisions in the original program are reflected all of which are proposed to be financed from currently available funds.

Communication facilities for the state-wide network from state headquarters to regional control centers, operational areas and cities were estimated to cost $1,000,000, the total of which was appropriated from state funds. Federal funds have been made available for this project in the amount of $351,850 resulting in a net cost of these facilities from state funds of $654,995.

Communication facilities for the city and county networks were anticipated to be financed on the following cooperative participation:

16% Federal funds
42% Local funds
42% State funds

Since the program started greater participation by the federal and local governments has resulted in a reduction of the amount of state funds required from $418,747 to $328,723. In certain instances local jurisdictions are participating with the Federal Government on a fifty-fifty basis and are not requesting state funds.

Medical and first aid supplies and equipment are estimated to cost $5,433,194 of which $2,266,194 is to be provided from federal funds with a net cost to the state of $3,167,000.

Radiological supplies, instruments and equipment were anticipated to be provided from state funds for which $900,000 has been appropriated. Federal participation to the extent of $66,873 has reduced the estimated cost of this project from state funds to $855,887.

The attack warning state-wide network is the so-called Bell and Light System which relies primarily on wire lines with installed rental equipment. This project is entirely state-financed.

Public alarm equipment for cities and counties is being financed on a cooperative participation basis as follows:

50% Federal funds
25% Local funds
25% State funds.

The original appropriation of $160,617 from state funds was based on the availability of federal funds to be applied under the above formula rather than total requirements. With the availability of additional federal and local funds the State's share of this project is estimated to cost $257,391. The additional cost is proposed to be financed from savings in other projects. In a few cases local agencies are participating with the Federal Government on a fifty-fifty basis without state assistance.

Public alarm equipment for state buildings has been financed entirely from the $100,000 allocated in item (h), Chapter 8, Statutes of 1952 (First Extraordinary Session), provided for "other civil defense purposes."

Storage and handling of supplies, protective services, and inventories are being financed entirely from state funds. Additional funds in the amount of $12,899 in excess of the original estimate will be required for this purpose due to delays in receipt of certain materials and supplies which are to be included in the first aid station complement packages for distribution to the several stations.

Registration and inquiry forms are to be purchased at state expense. There is no change from the original estimate in this item.

Rescue equipment is being purchased primarily on the basis of the following cooperative participation:

50% Federal funds
25% Local funds
25% State funds

Because certain local jurisdictions have elected to provide 50 percent of the funds to match the federal funds without state assistance a savings in the appropriation for this project in the amount of $122,146 will result.

Fire equipment is being purchased on a fifty-fifty basis with the Federal Government. An additional amount of $388,468 is proposed for this item to bring the total complement of fire pumpers to 100. Federal funds are currently available for matching the additional state funds which are proposed to be made available from savings in other items.

Training civil defense key personnel is a state-financed assistance program whereby the cost of subsistence and lodging furnished trainees at Federal Civil Defense Administration School will be reimbursed under a contractual arrangement with the school.

Training and educational supplies and equipment for fire services are to be financed on a fifty-fifty basis with Federal Government.

Other civil defense requirements shown in the amounts of $55,000 and $85,527 for the 1952-53 and 1953-54 Fiscal Years respectively represent a reserve for contingencies to provide some flexibility and permit participation where variations may occur in federal allocations.

POULTRY IMPROVEMENT COMMISSION

MINOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT

Analysis

The 1953-54 program provides for construction of a service building for the well and pump, also for the asphalt surfacing of roadways, and for the painting of several buildings as a part of a continuing maintenance program. In addition projects made necessary by revisions in testing program include the rewiring of seven poultry houses with heavier circuits to provide brooding in all pens, also for the acquisition and installation of 50 electric brooders.

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54
Painting poultry houses and other buildings	$2,996	$2,000	$2,500

DEPARTMENT OF CORRECTIONS

SUMMARY

GENERAL ANALYSIS

The capital outlay program of the Department of Corrections is designed to provide for population increase, reduce overcrowding, reduce the number of inmates housed in temporary structures, and structural renovation at the oldest prisons. Only by providing a separate cell for each inmate and proper segregation by types, can the rehabilitation program operate at maximum efficiency. Construction will be by inmate labor inside the prison walls at Folsom and San Quentin; outside and new prison construction will be by contract labor. Minor structures in major groups will be constructed of durable material at lesser cost depending upon intended use.

As of June 30, 1952, the capacity of all permanent and semipermanent facilities was 7,414, temporary facilities housed 3,520, and 1,982 were housed under overcrowded conditions.

The program, including the preparation of the preliminary plans for 1953-54, included in a state-wide appropriation, should reduce overcrowding to 144 in 1959, assuming necessary construction funds are allowed in future budgets.

The 1953-54 Budget provides for the following in addition to minor construction projects to properly maintain existing facilities:

Medical Facility

Construct and equip a reception-guidance center of 580 cells. Construct and equip service and inmate recreational facilities for the institution.

Chino

New main entrance and parking facilities.

Folsom

Construct and equip new commissary and laundry and replace sally port and post number 15.
Replace pumping and chlorination facilities.

San Quentin

Construct and equip new commissary, laundry, and maintenance shop building.
Construct new west sally port and wall.

[a] Population.

[b] Inmates housed in permanent buildings within rated capacity.

[c] Includes buildings of other than reinforced concrete or equivalent construction but designed for use 20 years or more.

[d] Includes prefabricated steel buildings.

[e] Inmates housed in permanent, semi-permanent and temporary buildings above rated capacity; population under capacity not deducted.

[f] Includes 600 to 700 Youth Authority wards from June 30, 1954.

[g] Adjusted for 90-day early parole of 800 special parolees in 1953-54.

Medical Facility

Analysis

The present temporary institution was opened in 1950 using leased facilities in Los Angeles County on the south end of Terminal Island at San Pedro. These were formerly used as naval disciplinary barracks. The main buildings are made of reinforced concrete, and auxiliary and industrial buildings are built of wood, stucco, and prefabricated steel. The inmate capacity is 1,100.

The new permanent institution will provide special custody of inmates who are mentally defective, chronically ill, narcotic addicts, sex offenders, or otherwise physically or mentally abnormal. Close custody will be provided in the reception center unit for observation and study of new commitments, prior to assignment to other institutions. Due to the nature of the institution there will be a limited training program and the emphasis will be on treatment. The site for the institution is located in Solano County about two miles south of Vacaville and consists of 903 acres of land, of which approximately 100 acres are to be used for inmate and employee building areas. Presently appropriated funds will provide for 1,400 capacity in 1954-55. Funds for a 580 capacity reception-guidance center and service facilities are included in this budget to provide ultimate capacity in 1955-56.

Institution for Men, Chino

Analysis

This is primarily a minimum security prison with an extensive agricultural and industrial program. About half of the 1,500 inmates are housed in permanent facilities. The institution is located in San Bernardino County about two miles south of Chino on 2,556 acres of land. It was opened in 1941 and consists of reinforced concrete permanent main buildings, semipermanent steel industrial buildings, frame farm buildings and temporary steel barracks buildings for dormitories and classrooms. The construction program under way is principally for the replacement of obsolete temporary facilities and for completion of the institution. The southern reception center is located on a 15-acre portion of the Chino site. The clinic is of reinforced concrete construction with a capacity of 400 inmates. Construction of this unit was completed in the 1951-52 Fiscal Year. One major project, new main entrance and parking facilities, and essential minor construction are proposed for the 1953-54 Fiscal Year.

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54
MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT			
Expenditures From Budget Act Appropriation (COSF):			
New main entrance and parking facilities	–	–	$85,000
Construct and equip vocational shop building to provide necessary space for vocational education	–	$542,435	57,565
Furniture factory addition to provide adequate assembly, packaging, and storage space	–	83,780	–
Construct maintenance shop building to replace temporary structure that has been condemned as a fire hazard	$253,000	22,000	–
Equip new chapel	–	20,000	–
Three staff residences (partial cost)	18,000	–	–

State Prison at Folsom

Analysis

This primarily is a maximum custody prison with a large industrial program. The permanent facilities are constructed of reinforced concrete and have a normal capacity of 1,870 inmates. The institution is located almost entirely in Sacramento County two miles northeast of Folsom and was constructed in 1858. A major rehabilitation program is now under way to replace obsolete buildings and service facilities, of which the replacement of the commissary, laundry, and other lesser projects are proposed for the 1953-54 Fiscal Year.

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54

State Prison at San Quentin

Analysis

This is a general purpose prison with an extensive industrial program. The permanent facilities are constructed of reinforced concrete and have a normal capacity of 2,750 inmates. The institution is located in Marin County three miles southeast of San Rafael on a 404-acre site with a very limited area suitable for buildings. The prison was opened in 1852. At the present time a major rehabilitation program is under way to replace obsolete buildings and service facilities, of which a new commissary, laundry and shops building and new west sally port and wall are proposed in the 1953-54 Fiscal Year.

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54
MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT			
Expenditures From Budget Act Appropriation (COSF):			
Construct new west sally port and wall	–	–	$68,000
Construct new commissary, laundry, and maintenance shop buildings, and alter walls and ramps		–	1,796,000
Equipment for new commissary, laundry, and maintenance shops	–	–	129,800
Preliminary plans for commissary, laundry, and maintenance shops buildings to further develop the overall rehabilitation program	$26,200	–	–
Modernize inmate mess hall, including new floor, new tables, serving tables, repairs to tile wainscot, and complete repainting of interior	–	$191,000	–
Construct and equip equipment shed and garage to protect heavy equipment and motor vehicles (partial cost)	–	16,655	–
Convert old fresh water reservoir to salt water reservoir	–	29,560	–
Surface and pave roads in industrial area	–	30,000	–
Unexpended Balances Transferred From Architecture Revolving Fund:			
Chapel and religious education building	—88,500	–	–
Expenditures From Special Appropriations:			
Repairs caused by wind damage to water reservoir	13,240	2,260	–
Supervision of inmate crews	26,912	27,934	–
Remodel laundry for installation of new equipment	17,000	–	–
Remodel duplex and demolish warden's residence	865	15,036	–
Reroof cow barn	–	164	–
Replace sky lights general mess, kitchen, warehouse, and hospital	–	1,744	–
Renovate captain of yard building	–	282	–
General repairs to residences	3,599	183	–
Rewire south cell block	1,146	–	–
Replace window frames and screens south cell block	–	2,142	–
Replace 800 prison door locks	–	120	–
Reroof, replace plumbing, light panels, and painting in hospital	688	220	–
Alterations to east gate	–	648	–
Hospital alterations—old men's ward	2,705	–	–
Hospital clinic alterations	3,484	217	–
New steam lines	–	301	–
Increase capacity of warehouse No. 5	148	383	–
Ground Clearing and Removal of Old Buildings:			
Old jute mill building	14,138	3,727	–
Old walls	3,575	9,199	–
Old warehouses, 6-7-8	–	455	–

State Prison at Soledad

Analysis

This is a medium security institution with an agricultural and vocational training program. Construction of permanent facilities of reinforced concrete was completed in December, 1951, to house 1,500 inmates. The temporary unit will house 450 inmate farm workers in prefabricated steel buildings. The institution is located in Monterey County about four miles north of Soledad on 936 acres of land of which approximately 100 acres are used for inmate and employee building areas. The remainder of the site is used for an extensive agricultural program. Only essential minor construction is proposed for the 1953-54 Fiscal Year.

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54
MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT			
Expenditures From Budget Act Appropriation (COSF):			
Construct and equip industries building to provide facilities to activate an industrial program	$552,000	$590,000	–
Expenditures From Special Appropriations (COSF):			
Original complement of equipment for permanent prison	35,516	100,008	–
Equipment for postwar construction	205	9,159	–
Purchase and erect 26 quonset-type buildings for employees' residences and farm buildings	–	4,000	–
Unexpended Balance Transferred From Architecture Revolving Fund:			
Purchase and erect 26 quonset-type buildings for employees' residences and farm buildings	—1,883	–	–
TOTAL EXPENDITURES (Major Construction)	$585,838	$703,167	–
MINOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT			
Replace water line at barracks	–	–	$7,200
Additional materials used to construct shelter for corporation yard, for equipment and lumber storage	–	–	1,000
Replace plastic windows and lightweight window frames in the temporary barracks building	–	$6,500	–
Resurface with black top, roads oiled in 1948 within the temporary barracks area	–	7,000	–
Construct an additional poultry laying house of 1,000-hen capacity to increase egg production so as to supply the needs of San Quentin	–	4,000	–

Deuel Vocational Institution

Analysis

The new institution will be primarily a medium custody prison with an agricultural-vocational training and treatment program. It will house 1,200 inmates in reinforced concrete facilities. The site for the new institution is located in San Joaquin County about four miles east of Tracy and consists of 783 acres of land of which approximately 80 acres are to be used for inmate and employee housing areas. The remainder of the site will be used for farming activities. The new institution will be completed in July, 1953.

The present institution at Lancaster is located in temporarily leased facilities and houses 550 inmates.

A 308-capacity Reception-Guidance Center is planned for future budgets. No major construction is planned in the 1953-54 Fiscal Year.

Institution for Women

Analysis

The new Institution for Women includes all types of custody and is also the reception center for new commitments. It has an industrial-vocational training and treatment program. Reinforced concrete housing presently financed provides for 459 inmates with ultimate expansion to 509 inmates capacity planned for the future. The site for the institution is located in San Bernardino County about seven miles northwest of Corona, and consists of 120 acres of land. One minor project only is planned for the 1953-54 budget.

YOUTH AUTHORITY

GENERAL ANALYSIS

Although, under existing law, the Youth Authority may refuse commitments if facilities are not available, the backlog of boys and girls in county jails remains high. The program of the Youth Authority is to increase the capacity of its facilities from 2,031 in 1952 to 3,419 in 1959, an increase of 1,388 or 68.3 percent.

In addition to building additional capacity, many existing facilities are to be remodeled or replaced to provide more adequate and more modern accommodations.

Fricot Ranch School for Boys will be completed to ultimate capacity of 162 during the 1952-53 Fiscal Year with completion of the new hospital. The only major project budgeted for 1953-54 is the third increment in the water supply improvement program.

A new 50-boy restricted-detention building is included in the 1953-54 Fiscal Year for Fred C. Nelles School for Boys to replace an antiquated structure and provide increased capacity of 34.

Completion of the ultimate capacity of 385 is contemplated in 1952-53 at the Paso Robles School for Boys. Replacement of the restricted-detention building, a new auditorium, and partial site development are proposed for the 1953-54 Fiscal Year.

The program of replacing condemned and inadequate structures at Preston School of Industry begun in the 1952-53 Fiscal Year is continued in the 1953-54 Budget with a vocational trades building, a bakery addition to the kitchen, a new administration building, two 50-boy dormitories, and revision in the security fencing included.

A new auditorium is included in the 1953-54 Fiscal Year for the Los Guilucos School for Girls to complete the permanent institution except for landscaping and staff housing.

The Ventura School for Girls is to move to a new institution in the 1954-55 Fiscal Year with a capacity of 300.

The Northern California Reception Center and Clinic will be completed in the 1953-54 Fiscal Year with a capacity of 174.

The Southern California Reception Center and Clinic will be completed in 1954-55 with a capacity of 374. The only project included for this facility is a 100,000-gallon elevated water tank for fire protection and domestic water supply.

---

[a] Sections 1731.5 and 1736 of the Welfare and Institutions Code provides that the Youth Authority may accept commitments if facilities are available. Because of these sections of the code, the Youth Authority does not have resident population in excess of total capacity. The above estimates are based on the assumption that there will be no change in the code. Population is estimated at approximately 95 percent of total capacity, less hospital and detention capacity, to allow for turnover.

[b] Capacity in permanent buildings not scheduled for replacement.

[c] Housing capacity in temporary buildings or buildings scheduled for replacement.

[d] Includes clinic operated at Preston up to June 30, 1954, when separate clinics will be in operation.

[e] Capacity in existing dormitories will be reduced as new facilities are placed in operation.

[f] These wards will come from the counties and Preston and not as transfers from the Deuel Vocational Institution at Tracy.

Youth Training School

Analysis

Chapter 303, Statutes of 1949, added Section 1250 to the Welfare and Institutions Code which provides for "an institution for the confinement of males to be known as the Youth Training School." It is contemplated that it will be located in the Southern California area. It is planned that this school will ultimately house 600 wards of the age group 16 to 21, and will have a vocational and educational type of program with a limited scope farming program. The institution will include dormitory capacity for 600 and hospital and detention capacity of 125.

Northern California Reception Center and Clinic

Analysis

This institution will be located on a 17-acre site approximately seven miles east of Sacramento, near Perkins. This facility will receive all boys from Northern California and all girls from the entire State. The major purpose of this facility will be to centralize intake and to make diagnostic studies and training recommendations on each case. Intensive medical, dental, psychological, and psychiatric treatment will be given. Serious medical and psychiatric cases developing in the schools will also be treated.

The new institution will be completed in February, 1954, with a capacity of 174 and an ultimate planned capacity of 274. The increase in capacity to 274 is not yet financed.

Forestry Camps for Boys

Analysis

In cooperation with the Division of Forestry, three forestry camps for boys are being operated. These camps are located at Coarsegold, Pine Grove and Ben Lomond. In addition to the three main camps, four spike camps of 20 boys each are operated on a year-round basis. Replacement of the Coarsegold camp and relocating it at Bear Creek near Springville is included in the Division of Forestry budget.

In general, all structures in the camps are of a temporary nature, either old CCC camp buildings or other wooden or Butler type buildings.

Fricot Ranch School for Boys

Analysis

Fricot Ranch School for Boys is located in the foothills, 11 miles from San Andreas, California, at an elevation of approximately 1,700 feet. The general terrain of the country is mountainous. The new construction is of concrete floor slab with radiant heating, frame walls and ceilings. The type of architecture is modern. Of the total of 1,090 acres, buildings are located on approximately 50 acres. The present capacity is 162 wards consisting of three dormitories housing 50 boys each and the hospital and detention units.

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54
MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS AND EQUIPMENT			
Expenditures From Budget Act Appropriation (COSF):			
Install pipeline to replace earthen ditch carrying water to institution (third year of five-year program)	–	–	$25,000
Seal two reservoirs to prevent leakage	–	$25,000	–
Install pipeline to replace earthen ditch carrying water to institution (second year of five-year program)	–	25,000	–
Replace earthen water ditch with pipeline (first year of five-year program)	$25,000	–	–
Construct five residences to replace three substandard houses and provide two additional units for staff members	59,500	3,500	–
Expenditures From Special Appropriations (COSF):			
Coolers for three dormitories	23,100	–	–
Equip three dormitories, kitchen and dining room	1,930	1,023	–
Equip assembly, gymnasium and auditorium	–	6,804	–
Equip school, infirmary and receiving dormitory	11,597	18,403	–
Emergency repairs to water ditch	274	228	–
Fire fighting equipment	–	251	–
Labor to clean out earthen sections of flumes, probe for and seal leaks and renew flume sections	354	–	–
Unexpended Balance Transferred From Architecture Revolving Fund:			
Renew flume	–	—416	–
Three dormitories, storeroom, commissary, kitchen and dining room	—8,000	–	–
TOTAL EXPENDITURES (Major Construction)	$113,755	$79,793	$25,000
MINOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT			
Expenditures From Budget Act Appropriation (COSF):			
Construct carport for state and employees' automobiles and parking area to avoid parking on county road	–	–	$8,500
New roadway to Imhoff tank and propane plant to provide access for servicing and fire protection	–	–	2,100
Extend street lighting to new gymnasium, hospital, school, and residential area	–	–	2,000
Extend fire alarm system to new buildings	–	–	500
Pave one mile of main road and one thousand yards of access roads	–	$14,300	–
Construct service porches on residences	–	1,000	–
Replace worn out chlorinator to provide adequate domestic water supply	$336	1,164	–
Provide all weather access road to new dumping area	4,000	–	–
Alter administration boiler room to isolate from basement by fire proof partition and metal self-closing door	–	250	–
TOTAL EXPENDITURES (Minor Construction)	$4,336	$16,714	$13,100
TOTALS, FRICOT RANCH SCHOOL FOR BOYS *(Capital Outlay and Savings Fund)*	$118,091	$96,507	$38,100

Fred C. Nelles School for Boys

Analysis

Fred C. Nelles School for Boys was constructed in 1890 at Whittier, California. School buildings are of brick construction with a normal capacity of 306 excluding the hospital and detention units. The buildings are in good condition, except the combination admissions-detention unit. The program calls for the construction of an admission unit and a detention and restriction building to augment existing facilities. The latter is included in this budget.

MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT

Expenditures From Budget Act Appropriation (COSF):

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54
Construct restricted detention building (replacement of present inadequate facilities)	–	–	$255,000
Equip restricted detention building	–	–	11,515
Construct new school building to replace condemned building	$85,119	$204,881	–

Expenditures From Special Appropriations (COSF):

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54
Repairs and alterations to provide temporary school rooms and library	2,816	180	–
Replace two booster pumps and construct pump house	1,262	934	–
Repair floors in school buildings	–	351	–
Replace electrical distribution panel in laundry	–	550	–
Miscellaneous urgent maintenance projects recommended by Division of Architecture survey (partial cost)	–	10,450	–
Alterations and equipment recommended by Fire Marshal	–	13,190	–
Improve water supply system for increased fire protection	13,000	–	–
Repair boiler and install safety pilot control (partial cost)	4,500	–	–
TOTAL EXPENDITURES (Major Construction)	$106,697	$230,536	$266,515

MINOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54
Detention window sash in hospital	–	–	$4,000
New salad and dairy products refrigerator to replace outmoded unit and provide better supervision of boy help	–	–	1,500
Replace existing laundry equipment and add new equipment to process reception center laundry	–	–	19,000
Partially rewire commissary, carpenter shop, employee housing, and Hoover cottage	–	–	19,050
Repair and replace plumbing and fixtures in cottages, and sand floors and replaster Greenleaf cottage	–	–	40,400
New floor furnace in residence and install ventilator, fan and duct in main kitchen	–	–	500
Replace gas line, conductivity meter, and steam lines, and recharge filters	–	–	4,870
Replace floor covering, windows, wall tile, metal corners, pipe, condensate lines, radiator valves and lines	–	–	3,740
Replace and relocate inadequate refrigeration equipment to provide proper refrigeration controls	–	$6,130	–
Paint interior and exterior of institution buildings (first part of three-year program)	–	8,500	–
Miscellaneous urgent maintenance projects recommended by Division of Architecture survey (partial cost)	–	32,980	–
Replace one 350-gallon hot water tank in wards' dormitory	–	1,700	–
Revamp boiler and steam distribution system	$27,764	–	–
Repair and remodel shower rooms in gymnasium and cottages	265	609	–
Thermostatic heat controls in dormitories	5,800	–	–
Replace gutters and downspouts	1,007	53	–
Replace auditorium curtains	–	1,000	–
Construct incinerator to replace open pit	11,800	–	–
Alterations required by fire marshal	5,476	8,585	–
Pumps and electrical	2,093	–	–
Emergency electrical work	9,675	–	–
Repair floors in dining rooms, kitchen, and bakery	–	130	–
Install vacuum return pump	–	470	–
TOTAL EXPENDITURES (Minor Construction)	$63,880	$60,157	$93,060

Paso Robles School for Boys

Analysis

The Paso Robles School for Boys is located approximately six miles northeast of the town of Paso Robles. The school now occupies the former site of the Estrella Army Air Base. The school site covers 203 acres and the new institution will occupy an area of approximately 40 acres. The present capacity of this school is 150 boys. When the present army barracks are completely replaced by permanent facilities in the 1953-54 Fiscal Year, the capacity will be increased to 385. All buildings at this institution will be of single-story construction and will be of reinforced brick construction with radiant heating. Each cottage will house 50 boys and will be of dual type: single rooms and dormitories.

Preston School of Industry

Analysis

Preston School of Industry was constructed in 1894 at Ione, California. The dormitories are of brick construction and have a normal capacity of 543, excluding the Youth Authority Clinic.

The present condition of the buildings is fair to poor. Many of the buildings have been condemned by either the State Fire Marshal or the Division of Architecture. Replacement of three dormitories will be completed in January, 1954. This budget includes replacement of two more dormitories, administration building, commissary, and bakery facilities and centralization of inadequate vocational trades facilities as part of the rehabilitation program.

MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54
Expenditures From Budget Act Appropriation (COSF):			
Replace and Relocate Condemned Administration Building and Construct Security Fence Around New Buildings:			
Construction	–	–	$540,000
Equip	–	–	7,500
Replace and Relocate Vocational Trades Building to Replace Condemned Structure:			
Construction	–	–	748,000
Equip	–	–	20,000
Add Bakery Addition to Kitchen to Move Bakery From Present Inadequate and Condemned Facilities:			
Construction	–	–	110,000
Equip	–	–	15,000
Replace and Relocate Condemned Commissary Building:			
Construction	–	–	203,000
Equip	–	–	2,500
Replace and Relocate Two Condemned Dormitories:			
Construction	–	–	834,000
Equip	–	–	30,000
Construct and equip three dormitories to replace condemned dormitories	–	$706,110	–
Construct and equip farm dormitory	–	218,830	–
Master and preliminary plans	$35,125	–	–
Construct and equip field house and gymnasium (partial cost)	4,876	124	–
Expenditures From Special Appropriations (COSF):			
Field house and gymnasium (partial cost)	51,731	–	–
Irrigation pipe	660	–	–
Develop farm headquarters	132	–	–
Intercommunication system (partial cost)	405	95	–
Convert bakery from DC to AC current	–	454	–
Repair two assistant superintendents' residences	–	2,205	–
Alterations and additional equipment for dental clinic	–	8,775	–
Additions to chicken houses	–	3,000	–
Remodel slaughter house	–	4,200	–
Level and plant permanent pasture	–	10,109	–
Materials for irrigation pipe	–	—2,175 [a]	–
TOTAL EXPENDITURES (Major Construction)	$92,929	$951,727	$2,510,000

MINOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54
Replace two 90-foot wooden light poles and crossarms damaged by woodpeckers with steel poles	–	–	$3,200
Replace pipe in water line from the reservoir to the institution	–	–	3,500
Replace cooling and heating system in E Co.	–	–	1,500
Replace road and add curbs and gutter in 26-house residential area	–	–	16,000
Replace and relocate switches in cottages and clinic to provide for better custodial coverage	–	$1,020	–
Renew electric line to D, H, and L cottages	–	2,950	–
Repair present telephone system	–	2,360	–
Convert G and T cottages from DC to AC	–	1,530	–
Replace power poles that have been damaged by woodpeckers	$753	1,047	–
Install thermostatic controls in all cottages	5,000	–	–
Resurface the roads inside the security fence	–	15,500	–
Miscellaneous repairs recommended by the Division of Architecture	–	10,895	–
Miscellaneous repairs to eliminate fire hazards as recommended by the Fire Marshal	–	14,342	–
Reroof and repair exterior walls of 30 residences	–	12,077	–
Approaches to field house and adequate drainage	–	8,500	–
Repair electrical wiring, equipment, and fixtures throughout the school	195,633	1,055	–

Los Guilucos School for Girls

Analysis

Los Guilucos School for Girls is located near Santa Rosa. The school property includes 420 acres. The building area will occupy approximately 40 acres. At the completion of the postwar building program the total capacity will be 287 wards. The new school will be of reinforced concrete construction with radiant heating either in floor slabs or in the walls. All buildings will be of one-story construction. Three dormitories are scheduled for completion in October, 1953 to bring the school to total capacity. At the time the new dormitories are placed in operation the capacity in existing dormitories will be reduced.

MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT

Expenditures From Budget Act Appropriation (COSF):

Ventura School for Girls

Analysis

This institution is located near Ventura in Ventura County. The present school was constructed in 1916 on hillside terrain. Present facilities are of a two story cottage type, each cottage containing its own kitchen, dining room and living area. Dormitories are located on the second story and consist of two 15-girl dormitories in each cottage making supervision difficult and expensive. The present plan is to construct a new institution on a level site to be acquired in the 1952-53 Fiscal Year. The new facility will have regular dormitories and a central kitchen and dining area. The first unit will have dormitory space for 250 girls with detention and hospital capacity of 50. The first unit will also include central facilities for the ultimate dormitory capacity of 350 girls.

DEPARTMENT OF EDUCATION

GENERAL CONDITIONS OF EXISTING FACILITIES

There are, at present, nine established state colleges, six of which are operating in permanent quarters which have been built to handle enrollments anticipated prior to World War II, and which now face the necessity of substantial expansion of facilities. The California State Polytechnic College, located at San Luis Obispo, with branches at San Dimas and the Kellogg Ranch, and the California Maritime Academy at Vallejo, also have been operating on permanent sites, but occupying largely temporary structures. Three new colleges have been established during the past five years, one of which is still operating in rented facilities in Los Angeles, while two are in the process of establishing permanent new campuses in Long Beach and Sacramento.

A major portion of the capital outlay funds appropriated since 1946 have been used in designing and constructing four new state college campuses at San Francisco, Sacramento, Long Beach, and Fresno. Long Beach State College is already operating on its new site in temporary quarters, with $3,000,000 of permanent buildings ready for bid. Sacramento State College plans to move to its new campus in February, 1953, with six buildings now complete and funds for six additional structures provided in 1952-53 appropriations. San Francisco State College and Fresno State College have been provided with facilities substantially sufficient to enable these two schools to move completely to new campus sites in the near future.

For the 1953-54 Fiscal Year, construction funds are proposed for expansion of permanent facilities at three established colleges where enrollment growth threatens to exceed housing. At San Diego State College, completion of the first postwar buildings will permit remodeling of the old physical science building, training school, and administration building into other teaching facilities; and a new home economics building and portion of an education building are proposed. Present science, library, and men's gymnasium facilities are to be expanded at San Jose State College. At California State Polytechnic College, where most structures are of temporary construction, permanent agricultural engineering and mechanics classrooms and additional physical education building space is provided. In addition, a second unit of permanent buildings at Long Beach State College will include an administration building, and cafeteria (with financing of a science building from a special appropriation in the current year); at Chico State College a portion of a women's gymnasium is provided for completely overtaxed physical education facilities; and at Humboldt State College, a wild life management building is included for this fast-growing curriculum.

At present, residence schools for the deaf and blind exist at Berkeley, both housed in recently expanded or modernized facilities. A new school for the deaf in Riverside plans to begin operations in February, 1953, with an initial enrollment of 50 students. Residential schools for cerebral palsied children have been established in temporary rented quarters in both Northern and Southern California. In addition, one residential orientation center for intensive training of the blind, and three nonresidential sheltered workshops for the blind are operated in permanent quarters in Oakland, Los Angeles, and San Diego. The shops in Oakland and San Diego are housed in old structures, while the Los Angeles shop is in adequate quarters recently acquired by the State.

During the 1953-54 Fiscal Year, the only plant additions to the special schools and blind centers appear at the School for the Deaf in Riverside, where the second unit of the building program will provide three additional dormitories and an expansion of classroom facilities. Although the school has been master-planned for 500 students, the first unit now approaching completion will house only 225 children, and will be increased to a maximum of 350 students with completion of the second unit.

DEPARTMENT OF EDUCATION

Departmental Administration

Analysis

During 1953-54, adjustment and expansion of State Library facilities within the Library and Courts Building vacated by the Department of Education will require additional shelving and intercommunication equipment. Department of Education office requirements for new facilities are all contained in 1952-53 expenditures, which will permit centralization of most administrative activities in the new Education Building in Sacramento. The 1952-53 Departmental Administration expenditures are for preparation of preliminary plans for new construction department wide so that the scope of projects and more accurate cost estimates can be determined prior to proposed appropriations for working drawings and construction.

Chico State College

Analysis

This college was established in 1889 and the campus now covers approximately 86 acres. It provides four-year courses in teacher training, general education, and training in industrial arts. Included in the permanent buildings are an administration building; power plant; laboratory school and gymnasium; library; and music, science and speech building. All other facilities are of temporary construction.

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54
REAL PROPERTY ACQUISITION			
Purchase of site containing central school buildings and four residences, 4.5 acres	–	$20,218	–
TOTAL EXPENDITURES (Real Property)	–	$20,218	–
MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT			
Construct women's gymnasium	–	–	$239,000
Equip women's gymnasium	–	–	7,780
Construct electrical substation for distribution of power	–	–	65,250
Equipment for laboratory school	$13	$118	–
Science-music-speech building—equipment	31,698	3,782	–
Temporary classrooms	515	706	–
Install water tank	–	25,000	–
Completion of playfield facilities	–	159,130	–
Construct men's and women's locker room	–	231,700	–
TOTAL EXPENDITURES (Major Construction)	$32,226	$420,436	$312,030
MINOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT			
Install two additional fire hydrants and extend water main to provide fire protection for central portion of the campus	–	–	$4,530
Remove defective skylight on industrial arts building, board up openings and reroof	–	–	3,000
Remodel first floor of administration building to provide enlarged administrative offices	–	–	19,320
Construct equipment storage building, approximately 32′ x 60′	–	–	6,186
Construct blacktop access roadway to field storage building, consisting of approximately 3,080 sq. ft.	–	–	924
Construct athletic equipment storage building under new bleachers on athletic fields	–	–	5,559
Construction of blacktop access road to athletic equipment storage shed under bleachers	–	–	360
Construct cement sidewalk from bleachers to public restrooms	–	–	120
Construct access road from Ivy Street to new auto shop on recently acquired property	–	–	3,020
Replace cement sidewalk along front of college property on First Street and along property line on Ivy Street and add approximately 285 feet of curbing	–	–	7,565
Install evaporator coolers and heaters to provide comfortable working conditions in auxiliary buildings	–	–	2,000
Install sprinklers in lawn area between Bidwell Hall and gymnasium	–	–	18,000
Install gasoline pump and 500-gallon gasoline storage tank	–	–	465
Construct small shelter to house telescope	–	–	2,500
Pave entrance to auditorium	–	–	1,500
Install approved paint spray booth in industrial arts building	–	–	2,000
Renovate and replace wiring in library	$10,220	–	–
Paint interior of library building	9,040	–	–
Cold air duct, including water screen, filter bath, three-phase motor in library, new grills, and repair and renovate existing ducts	4,940	–	–
Plaster concrete walls, replace water heater, install asphalt tile, and miscellaneous repairs and improvements to library	2,725	–	–
Install sawdust system in industrial arts building, including ducts, blowers, and outlets	5,865	–	–
Rewire industrial arts building to replace unsafe, worn, and antiquated wiring and fixtures	7,921	–	–
Paint interior and exterior trim of industrial arts building and interior walls	1,532	–	–
Heating, ventilation, and air conditioning installations for industrial arts building to replace inadequate existing system	3,166	–	–
Alterations to washroom and toilets in industrial arts building to include replacing broken fixtures, connecting to sewers, and providing additional fixtures	2,805	–	–
Miscellaneous repairs and improvements in industrial arts building, including installation of air compressor and lines, insulation under roof, drinking fountain, and patching hollow tile walls	1,480	–	–

Chico State College—Continued

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54
MINOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT—Continued			
Install heating and ventilating systems and sinks in metal craft and welding shops	$4,685	–	–
Install asphalt tile, moisture proof brick wall back of stage, install ventilators, insulate steam lines, replace broken steam lines, wiring in heater room, and other repairs and improvements in auditorium and music annex	3,995	–	–
Erect partitions for doctor's office and examination room in health office	2,632	–	–
Repair broken tile and replace plumbing and fixtures in shower room, improve and repair heating and ventilating system, and paint boxing room in gymnasium building	4,710	–	–
Install stove vents, replace sinks and heater, and reroof porch, kitchen, and laboratory in home economics laboratory	2,607	–	–
Install 6,660 square feet of asphalt tile, two drinking fountains, shelving, and renovate women's toilet room in Bidwell Hall	7,343	–	–
Install 10,000 gallon oil tank at new boiler plant to allow more economical purchase and storage of oil	2,703	–	–
Install water treatment system to prevent erosion, boiler drain trench to prevent flooding, asphalt tile for office floors and strainer in feed-water line at boiler plant	850	–	–
Paint garage, repair breezeway, replace plumbing, and water heater in president's residence	1,544	–	–
Install block valves in steam lines for more efficiency in controlling heat in local areas	575	–	–
Repair and replace old, clogged, and root damaged sewer lines	3,399	–	–
Install sprinkler systems in main campus and training school lawns	2,870	–	–
Construct incinerator to eliminate health and fire hazard caused by burning trash in the open	2,460	–	–
Replant and renovate lawns	1,191	–	–
Area paving and landscaping	9,950	–	–
Administration building—Install metal fire door with fusable links	660	–	–
Water system—replace starter equipment and install check valves	1,570	–	–
Library—install fan belts and guard	350	–	–
Music Building—repair roof, make vent holes	2,120	–	–
Music Building—Unexcavated area, install two ventilation openings	312	–	–
Install steam block valve system controlled from boiler plant	3,620	–	–
Additional roof repairs to various buildings	1,575	–	–
Construction of gutters on Warner Street	1,142	–	–
Install room darkening drapes in physics laboratory	–	$250	–
Install screens over windows of foods laboratory	–	670	–
Miscellaneous painting to protect surfaces	–	2,105	–
Miscellaneous repairs to cottage used as psychology laboratory	–	950	–
Enlarge shower and toilet facilities in men's side of gymnasium	–	6,500	–
Construct prefab building for storage of inflammable materials	–	3,960	–
Provide additional electrical circuits in administration building	–	3,960	–
Replace carpeting on stairway of president's residence	–	600	–
Miscellaneous paving and surfacing of walkways and roadways	–	8,985	–
Renovation and alteration of four residences for use as home management houses and child study laboratory	–	5,000	–
Provide fence for corporation yard	–	440	–
Repair and replace damaged sewer lines and install one manhole	–	1,875	–
Replace overhead door in auto shop	–	1,120	–
Construct double-face handball court for laboratory school	–	900	–
Painting and miscellaneous repairs in cafeteria	–	1,920	–
Replace tile, paint interior, and modernize plumbing and heating in Bidwell Hall Annex	–	2,835	–
Construct hothouse and open-air nursery for propagation of flowers and shrubbery	–	1,100	–
Insulate exposed steam lines and install air bleed valves in Bidwell Hall	–	355	–
Erect quonset hut for use as storage facility for maintenance department and as auxiliary auto shop	–	5,195	–
Remove islands in Big Chico Creek to prevent bank erosion	–	200	–
Install lights for catalog tables in library	–	200	–
Renovate heater room of Bidwell Hall	–	443	–
Install entrance baffles in men's rest rooms of administration building	–	250	–
Alterations and improvements to master clock system	–	2,000	–

Fresno State College

Analysis

This college was established in 1911, and offers courses in general education, agriculture, and teacher training. Completion of construction underway at the new campus plus that financed will make possible a total move from the present campus. Provision has been made for the agriculture department at the new campus.

Humboldt State College

Analysis

Humboldt State College offers four-year programs in teacher education, liberal arts, wild life management, and selected two-year vocational training.

Established in 1914, the campus now includes 75 acres and has five permanent buildings, including the administration building, the College Elementary School, the industrial arts building, the gymnasium, and a 70-bed dormitory. Early 1953 will bring completion of two partial permanent buildings including the library and the science building; also to be completed in 1953 is a small corporation yard building. All other facilities are temporary including all classrooms and laboratories for the wild life and fisheries management program.

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54
REAL PROPERTY ACQUISITION			
Purchase block needed for access road to athletic field and stadium, and block adjacent to dormitory area for parking facilities and future campus development (COSF)	–	$64,000	–
Purchase of sites for playfields (COSF)	$49,685	86,592	–
TOTAL EXPENDITURES (Real Property)	$49,685	$150,592	–
MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT			
Expenditures From Budget Act Appropriation (COSF):			
Site development to provide roadways, walks, utilities, and landscaping around administration and library buildings (completion)	–	$44,000	–
Expenditures From Special Appropriations (COSF):			
Construct temporary music classroom facilities	—$798	798	–
Industrial arts building equipment	314	–	–
Heating plant addition	2,593	–	–
Library, science and classroom, and corporation yard buildings	155,095	50,805	–
Equipment for science building	–	63,000	–
Site development and construction of wild life management and fisheries building	–	–	$389,000
Equipment for wild life management and fisheries building	–	–	96,926
TOTAL EXPENDITURES (Major Construction)	$157,204	$158,603	$485,926
MINOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT			
Completion of college laboratory school boys' shower facilities	–	–	$5,500
Install acoustical tile, four classrooms in main building	–	–	800
Construct roof connecting new library and administration building	–	–	1,500
Construct building for additional storage facilities of equipment and motor vehicles	–	–	4,000
Improvement of streets adjoining campus (one-half cost)	–	–	9,000
Improvements to corridors—main building	–	–	8,900
Construct covered main entrance, Nelson Hall	–	–	1,000
Construct toilet facilities in kindergarten room at laboratory school	–	–	1,000
Replace sprinkler system, inner court administration building	–	–	500
Replace sewer line from administration building to main sewer	–	–	7,200
Initial complement of equipment for dairy program	–	–	1,500
Initial complement of equipment for logging and lumbering program	–	–	2,000
Resurface streets (Laurel Ave., one block; Pine Ave., two blocks; Plaza Ave., one block)	–	–	9,000
Paint interior of administration building, laboratory school, and gymnasium	$15,500	$18,040	–
Structural improvements and repairs to administration building	5,122	13,250	–
Mechanical improvements and repairs to administration building	–	10,985	–
Remodel registrar's office	–	8,830	–
Replace steam radiator controls, elementary school	–	8,576	–
Structural improvements and repairs to laboratory school	16,876	4,930	–
Site development roads and walks for new building	–	14,729	–
Mechanical improvements and repairs to laboratory school	2,452	2,745	–
Construct addition to wild life hut	–	5,854	–
Site development—grade and surface parking lots adjacent to three new buildings	–	4,770	8,375
Extend clock and bell system to all main campus buildings	–	3,500	–
Mechanical improvements and repairs to gymnasium	–	628	–
Construct entry gate and stairs to stadium	1,062	4,456	–
Construct retaining wall for laboratory school playfield	–	370	–
Construct concrete sidewalk for laboratory school playfield	–	500	–
Construct access road to campus	–	15,000	–

Long Beach State College

Analysis

This upper division liberal arts college, established in 1948 in rented facilities, moved to a new campus during the fall of 1951, on a 320-acre site which was given to the college by the City of Long Beach in 1950. During 1950-51 construction of first permanent units of the following buildings were undertaken: library, classroom, fine arts, and physical educational facilities. Several temporary buildings have also been constructed to accommodate enrollment of 1,650 full-time equivalent students in 1952-53, with a total classroom requirement financed for 2,000 students by 1954-55.

Sacramento State College

Analysis

This two-year upper division liberal arts college established in 1947 in rented facilities at the Sacramento Junior College campus is scheduled to move in 1952-53 to its new 265-acre campus. Under construction at the present time are the first units, including administration, science, library, general classrooms, cafeteria, and boiler plant buildings.

An enrollment of 1,400 full-time student equivalents is estimated for 1953-54. Ultimate plant capacity will provide facilities for 2,500 full-time students by 1965, as established by the Strayer Report on Higher Education Needs.

Install separating partitions for library study tables to provide more efficient study areas	2,800	–	–
Construct baseball backstops with pipe supports for new men's playfield	1,000	–	–
Install additional shelving in chemistry department	1,100	–	–
Install air conditioning system in home arts laboratory to provide temperature control in hot weather	1,000	–	–
Install automatic pump in condensate return line of the steam heating system, music building	450	–	–
Replace roofs and flashings on flat deck areas, gymnasium, little theater, library and science buildings	4,300	–	–
Install concrete foundations and concrete floors in two steel buildings	4,800	–	–
Remodel and refurnish training school cafeteria	2,500	–	–
Remodel two administration building rooms and registrar's office for necessary expansion	4,900	–	–
Replace deficient lighting with fluorescent fixtures	4,500	–	–
Complete installation of circuit breaker panels in various buildings to replace unsafe and unusable lighting	2,400	–	–
Overhaul transformers and install fuses and unfused banks to increase work load in accordance with safety regulations	2,400	–	–
Extend fire alarm system to new buildings and install additional warning devices in existing system in compliance with fire regulations	3,900	–	–
Enlarge main feeder from switchboard in science building to training school to handle overloads and new lighting requirements	900	–	–
Replace electrical distribution circuits breaker distribution panel to increase efficiency and eliminate obsolete circuits	1,400	–	–
Overhaul main switchboard panel, install volt and ammeter, separate and raise feeders in gutters to increase operating efficiency and comply with safety regulations	1,600	–	–
Erection of service building for Division of Architecture use	5,000	–	–
Miscellaneous panic hardware installed as per fire marshal's specifications	2,240	–	–
Install new cap sheet under tile roof of library reading room and corridor	2,120	–	–
Miscellaneous repairs and safety installations—gymnasium boilers	3,817	–	–
Miscellaneous repairs, replacements, and safety installations—main boiler plant	9,558	–	–
Relocate fire hydrants	650	–	–
Grade and oil parking area on newly acquired property	–	$6,140	–
Flameproofing of drapes and curtains	–	1,500	–
Complete the installation of uniform lock system	–	4,000	–
Construct Butler-type building 40 x 100 with concrete floor for storage of material now under bleachers	–	16,000	–
Reoil main parking lots	–	2,500	–
Install flood control drainage south of stadium	–	2,820	–
Install automatic fire sprinkler system in new warehouse	–	6,030	–
Miscellaneous maintenance and repairs to steam, water, and sewer distribution systems	–	2,500	–
Replace deficient lighting in various offices and classrooms	–	3,650	–
Miscellaneous repairs, to correct deterioration, rewiring and remodeling chemistry laboratories	–	2,690	–
Correction of secondary circuits in gym and Scripps Cottage	–	1,500	–
Sand, refill, and revarnish gymnasium floors	–	2,700	–
Partition and remodel audio-visual center	–	4,634	–
Construct additional darkroom in photography laboratory	–	2,000	–
Darken and equip classrooms for audio-visual instruction materials	–	3,850	–
Remodel and equip three college elementary school rooms to serve as laboratory, audio-visual laboratory, and faculty offices	–	1,440	–
Complete installation of new chalk boards in permanent buildings	–	840	–
Renovate and reseed lawns of playfields and athletic fields	–	1,835	–
Construct two tennis backboards on existing tennis courts	–	600	–
Construct access road to new freeway	–	11,200	–
Improve entrance to west campus (one-half cost)	–	8,555	–
Retube boiler No. 3	–	3,424	–
Move and install equipment from present temporary quarters to new industrial arts building	–	7,000	–

San Francisco State College

Analysis

This college was established in 1899. In 1939 a new campus site was acquired at 19th Avenue and Lake Merced Boulevard. Additional purchases have increased the new campus until it now covers 97.5 acres. Courses in general education and teacher training are offered.

The new campus has the following completed facilities; gymnasium and natatorium, boiler plant, maintenance shops, veterans housing unit, science building, and some temporary buildings for classrooms. It is estimated that presently planned projects for the new campus will be completed by 1954-55. The old campus will be partially operated until all facilities have been completed at the new campus.

San Jose State College

Analysis

This college, established in 1870, offers courses in general education and teacher training to approximately 6,000 full-time equivalent students. Practically all buildings are permanent structures except for some temporary classroom buildings which are to be replaced by the current building program. The 107-acre campus is split between the main campus and the stadium and playfield areas.

California State Polytechnic College

Analysis

Established in 1901, this school, located on 2,226 acres at San Luis Obispo, provides agricultural and vocational education. Ultimat plant capacity will provide teaching facilities for 4,080 students. Except for permanent administration, library, auditorium, an power plant buildings, all structures are of temporary farm-type construction. Location of this college makes extensive studen housing facilities a necessity, and completion of several new housing units in 1952-53 will permit attainment of prior enrollmen capacity which was temporarily curtailed in 1951-52 by repossession of the Camp San Luis Obispo housing unit by the Army.

Two Southern California branches are maintained near San Dimas. The Voorhis unit specializes in citriculture, with frame and stucc dormitories and classrooms, and temporary farm-type structures. The Kellogg unit consists of 812 acres received as a restricted gif November 1, 1949, to provide expansion of instructional facilities in that area, and at present contains farm lands and an equerry In order to hold title to certain Kellogg property, the State must, under lease provisions, start construction of at least $500,000 i improvements prior to November 1, 1956.

MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT			
Fair and Exposition Fund			
San Luis Obispo Campus:			
Central heat and power and mechanical engineering laboratories	$515,000	–	–
Emergency student housing	108,200	–	–
Construct student residence halls	–	$13,831	–
Site development	–	87,786	–
Capital Outlay and Savings Fund			
Site development for dairy and central heat and power areas	–	244,000	–
Site development for science, agriculture engineering and mechanics	–	77,300	–
Construct science and classroom building	–	2,315,300	–
Site development (complete moving horticulture building)	–	–	$90,044
Construct agriculture engineering and mechanics building	–	–	763,000
Equip agriculture engineering and mechanics building	–	–	68,660
Construct physical education facilities	–	–	170,000
Equip physical education facilities	–	–	6,070
Site development	–	1,993	–
Voorhis Campus:			
Sewage disposal	–	–	63,000
Kellogg Campus:			
Construct and equip science building	–	1,000,000	726,000
Site development and utilities	–	–	274,000
San Luis Obispo Campus:			
Cattle feeding unit (completion)	—2,903	–	–
TOTAL EXPENDITURES (Major Construction)	$620,297	$3,740,210	$2,160,774
MINOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT			
San Luis Obispo Campus:			
Miscellaneous campus improvements	$3,191	$7,436	$11,415
Miscellaneous electrical and lighting changes	4,076	2,965	11,260
Miscellaneous farm improvements	5,062	12,218	9,662
Remodel and soundproof campus buildings	4,692	2,576	8,110
Irrigation system for west section of farm	–	–	15,030
Replace fencing at Garcia ranch, field west of Highway 1 and swine unit for livestock control	–	–	4,730
Equip new glasshouses with culture bed, benches, cabinets, utilities	–	–	5,632
Construct new culvert crossing at Southern Pacific underpass and replace main 24 inch storm drain	–	–	14,460
Increase electrical circuit capacity in machine shop and agricultural engineering area and install campus fire alarm system	–	–	12,800
Concrete walks, curbs and resurfacing asphalt tennis courts	–	–	6,050
Install campus fire alarm system, move judging pavilion to new location for use as blacksmith shop	–	–	8,862
Miscellaneous improvements to classrooms	–	9,181	–
Miscellaneous cabinet work	3,499	1,145	–
Paint campus buildings	13,862	30,319	–
Deferred maintenance program	71,491	4,392	–
Purchase and erect prefab buildings	6,471	3,140	–
Repair Chase Hall foundation	14,900	–	–
Purchase and erect prefabricated farm storage building	3,951	855	–
Equipment for meat animals laboratory	7,060	2,285	–

California Maritime Academy

Analysis

This school, located at Vallejo, will have an average enrollment of 200 students in 1953-54 which will be maximum capacity under present plans. Existing permanent facilities at this campus consist of a gymnasium and pool; all other facilities are temporary structures. Additional dormitory space is obtained by using berthing quarters on the training ship "Golden Bear." The budget for 1952-53 provided for the construction of a classroom building and kitchen and mess hall building in addition to partial site development and provisions for utilities.

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54
MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT			
Expenditures From Budget Act Appropriation (COSF):			
Kitchen and mess hall building	–	$301,500	–
Classroom building	–	270,000	–

California School for the Blind

Analysis

This school was established in 1858 for special education of blind children. Facilities are provided for 168 residential students including 12 deaf-blind students, with no increase in capacity anticipated in the near future. Buildings are generally old permanent structures, including classroom and administration buildings and dormitories except for a new deaf-blind dormitory-classroom building which was completed in 1950.

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54

California School for the Deaf, Berkeley

Analysis

Established in 1858, this residential school for deaf children will provide general and vocational education to 452 residential and 40 day students in 1952-53. On a site now comprising approximately 113 acres, the school is housed in permanent reinforced concrete buildings, including an administration building, dining hall and bakery, classroom buildings and dormitories. The last of the new dormitories and vocational arts buildings will be completed during the current year.

MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT

	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54
Addition to bakery to augment the existing bakery by adding a basement and one floor to provide facilities necessitated by increased enrollment for vocational instruction and for production of bakery goods consumed by the school	–	$68,000	–
Deferred maintenance buildings	—$87	–	–
Additional cost kindergarten dormitory	—2,622	1,460	–
Equipment for kindergarten dormitory	–	4,702	–
Equipment for advanced girls' dormitory	—64,913	6,658	–

California School for the Deaf, Riverside

Analysis

This school was authorized in 1947, and construction of facilities to accommodate 75 primary students, 75 intermediate students, and 75 advanced students is scheduled for partial completion by January 1953. Ultimate capacity is to be for 450 students. The site contains approximately 70 acres, with all buildings of one-story construction. The buildings will include administration, primary school, primary dormitory, intermediate-advanced school, intermediate boys and girls dormitory, advanced girls dormitory, advanced boys dormitory, dining rooms and kitchen, infirmary, social hall, field houses and swimming pool, superintendent's residence, and engineer's residence. Provision has been made to open the school in January, 1953, with an initial enrollment of 50 students.

Oakland Center, California Industries for the Blind

Analysis

This center was established September 22, 1951, by Chapter 1144 of Statutes of 1951. It carries on the manufacturing activities of the former Training Center for the Adult Blind which was established in 1885 and these activities provide sheltered employment to 140 factory workers. Training facilities for 50 additional workers are provided for in the opportunity work centers located at Oakland and San Jose.

MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54
Equip new factory trades building	–	$50,000	–
Additional cost for automatic fire sprinkler system in broom factory	$3,598	–	–

UNIVERSITY OF CALIFORNIA

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54
Analysis			
The University of California's proposed 1953-54 building program is part of a long range program designed in part to replace temporary and obsolete structures; to give recognition to the continuing enrollment trend toward the more space consuming upper division and graduate fields; and also to keep the university abreast of the inevitably rising tide of students now in the grade schools.			
REAL PROPERTY ACQUISITION			
Expenditures From Budget Act Appropriation (COSF):			
Land acquisition for intramural athletic facilities at the Berkeley Campus	–	–	$636,000
Purchase of property adjacent to Berkeley Campus to continue established program of planned development of campus as opportunities are presented	$120,000	$100,000	–
Expenditures From Continuing Appropriation (FEF):			
Purchase of property adjacent to Riverside Campus	–	–	400,000
Purchase of property in Mendocino County for range field station	1,200	–	–
Purchase of property adjacent to Davis Campus	173,000	–	–
TOTAL EXPENDITURES (Real Property)	$294,200	$100,000	$1,036,000
Capital Outlay and Savings Fund (COSF)	*120,000*	*100,000*	*636,000*
Fair and Exposition Fund (FEF)	*174,200*	–	*400,000*
MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT			
Expenditures From Budget Act Appropriation (COSF):			
State-wide:			
Prepare preliminary drawings for university-wide nonagriculture construction program for the determination of scope and cost estimates prior to proposed appropriations for future budgets	–	$300,000	$100,000
Berkeley Campus:			
Construct service buildings—storehouse, corporation yard, and heating plant boiler	–	–	785,000
Construct anthropology building to provide permanent facilities designed for anthropological teaching and research	–	–	2,500,000
Initial complement of equipment and supplies for virus laboratory	–	89,000	–
Utilities and Roads:			
Extend and improve utilities distribution system to new and existing buildings	–	720,000	–
Rehabilitate and extend utilities to relieve excessive electrical loads within existing buildings	–	390,000	–
Reroute and extend roads and construct small vehicular bridge and adequate parking facilities	–	355,000	–
Engineering field station development—renovate existing buildings and construct new buildings with the necessary development of utilities and roads	–	660,000	–
Construct Hesse Hall addition for instructional laboratory facilities	–	900,000	–
Construct additional floor in the museum of vertebrate zoology	–	88,000	–
Construct home economics laboratory	$945,000	–	–
Construct forest products laboratory	945,000	–	–
La Jolla Campus:			
Construct experimental aquarium for research involving marine mammals, sea surface topography, etc., and for testing of bulky equipment	–	–	40,000
Construct addition to Ritter Hall	–	550,000	–
Los Angeles Campus:			
Initial complement of equipment and supplies for medical unit	585,000	500,000	900,000
Initial complement of equipment and supplies for life sciences unit No. 2	–	–	150,000
Construct psychology clinic school to accommodate training, research, and service functions	–	–	215,000
Extension of utility mains, road net (including Avenue "A"), and campus development	–	–	500,000
Expand library stacks to alleviate the serious stack shortage	–	–	600,000
Construct life sciences—vivarium unit No. 1 to provide the life sciences with permanent animal quarters and related laboratory facilities	–	–	1,500,000
Construct physical sciences building	–	1,700,000	–
Construct music building	–	1,500,000	–
Construct general classroom and office building annex to Royce Hall	–	1,750,000	–
Augmentation funds for life sciences building No. 2	–	564,307	–
Augmentation funds for home economics	–	435,000	–
Augmentation funds for cancer research	–	126,000	–
Home economics building	945,000	–	–
Incinerator	72,000	–	–

Expenditures From Budget Act Appropriation (COSF)—Continued			
Berkeley Campus—Continued			
South Hall—alterations for business administration, economics, political science, and bureau of occupations	$45,000	–	–
Temporary buildings—alterations due to changes in occupancy resulting from completion of new buildings	25,000	–	–
La Jolla Campus:			
Replace 12 piles on pier	–	–	$6,000
Storage vault for deep sea sediment cores	–	–	8,500
Roads, paths, and walks—step 2	–	–	20,000
Fire escapes—Ritter Hall and library	–	–	10,000
Alter library to provide additional space	–	$24,000	–
Install shelving for specimen storage—aquarium-museum basement	–	10,200	–
Widen pier deck	–	6,000	–
Construct incinerator	–	5,000	–
Install new larger boiler	–	15,000	–
Install freight elevator—museum-aquarium	–	6,000	–
Small buildings for storage of volatile liquids	5,000	–	–
Repairs to George H. Scripps Building	13,500	–	–
Building for radio station	6,000	–	–
Construction of ramp for amphibious craft	10,500	–	–
Los Angeles Campus:			
Initial complement of equipment and supplies for social sciences building	–	–	20,000
General—acoustic tile various buildings, step 3	–	–	8,000
General—refrigerated drinking fountains, various buildings, step 2	–	–	5,000
General—floor covering—various buildings, step 3	–	–	16,000
Library—stack ventilation	–	–	15,000
Business administration and economics building—partitioning of rooms for use by production management	–	–	5,800
Theatre Arts—alterations in temporary buildings 3K and 3G for laboratory theatre and radio studio	–	–	8,540
Engineering—steam heat on second floor of temporary engineering building No. 2	–	–	2,000
Engineering—installation of sinks in temporary engineering buildings 2B and 2C	–	–	650
Library equipment	–	–	5,600
Janitorial headquarters and storage area for grounds and buildings department in geology-chemistry building	–	–	20,000
Engineering—CO_2 extinguisher system and vapor exhaust fan in mechanics building	–	–	1,800
Soundproofing of rifle range	–	–	500
Install acoustic tile—various buildings, step 2	–	8,000	–
Install blackout shades—various classroom buildings	–	10,000	–
Install refrigerated drinking fountains—various buildings, step 1	–	5,000	–
Floor covering—various buildings	–	15,000	–
Development of court area between Kerckhoff Hall and education building	–	20,000	–
Install steam heat in temporary engineering building	–	3,750	–
Remodel gauge laboratory to provide constant temperature	–	3,350	–
Remodel air cooling in differential analyzer room	–	2,000	–
Construction of three small darkrooms in basement—physics building	–	2,500	–
Extend storeroom—physics building	–	20,000	–
Extend heat treatment room—physics building	–	10,000	–
Install window guards—physics building basement	–	3,500	–
Fence athletic fields	–	9,000	–
Install asphalt tile floor covering in library stacks	–	5,000	–
Construction of mail sorter—library	–	800	–
Install counter and control unit—business administration and economics building library	–	4,500	–
Replace discharging unit in library reserve book room	–	500	–
Replace tables in reading room—library	–	8,600	–
Installation of facilities for geophysics in geology-chemistry building	30,000	–	–
Physics building roof—stairway reconstruction and laboratory for meteorology	15,000	–	–
Royce Hall—elevator	35,000	–	–
Mt. Hamilton:			
Butane tanks and water heaters to replace coal water heaters	–	–	1,600
Concrete porch to replace wood porch on Kron residence	–	–	450
Reroofing of dormitory and photography building	–	–	900
Road from Mayall residence to "Oh My" turn	–	–	500
Regrade and resurface portions of road past Herbig residence and Aitken Annex	–	–	450
Restucco south half of main building	–	17,000	–
Fire protection measures	13,500	–	–
Remounting Crosley telescope	2,000	–	–
Miscellaneous minor improvements	500	–	–

DEPARTMENT OF EMPLOYMENT

Analysis

It is the Department of Employment's long term objective to eventually replace all leased premises with state-owned buildings (with the exception of offices located in communities where there may not be a permanent need for a local office). The accomplishment of this objective will result in long term economies as substantial savings in administrative costs will be realized after the original cost of each building project has been amortized.

The cost of these buildings will be amortized by rental grants made by the United States Department of Labor as a part of the cost of administration of the State Unemployment Insurance Act.

During the past several years many of the offices listed in this building program have been housed in buildings which are too small and not entirely adaptable or suitable for the department's various operations. The state-owned buildings will provide properly designed offices which will meet all of the requirements of this agency. Parking space will be provided as it allows for future building expansion as well as providing public and employee parking in accordance with local ordinances and statutes.

The requested appropriation will provide for the continuation of this building program. Under this program, all of the field operations consisting of disability insurance, field auditing, and local office staffs will be housed together, thereby enabling the department to service employers and the public more effectively and economically than in scattered locations which are now leased by this department. The sites for the department's buildings are selected after giving careful consideration to all local, physical and economical conditions of each community in which a building is to be constructed, including such points as proximity to employment centers, ease of access for both employers and workers, public transportation, and the topography, which has a bearing upon construction costs.

Buildings and Grounds Division

REAL PROPERTY ACQUISITION

Analysis

The proposed expenditure of $706,864 includes $286,864 to acquire sites for office buildings previously authorized but the acquisition has not as yet been completed, $235,000 to purchase property adjoining existing state-owned sites that were included in the original program but for which there are not sufficient funds to complete the acquisition, and $185,000 to purchase state-used facilities. The amount budgeted for acquisitions adjoining existing facilities is the estimated cost of purchasing single parcels of improved property in Fresno and Los Angeles. The amount included to acquire state-used facilities is to purchase the building now owned by the Department of Motor Vehicles in Oakland to be used by state agencies in that area and to acquire the building now leased by the Department of Public Health for use of their laboratories in Los Angeles.

	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54
Expenditures From Budget Act Appropriation:			
Purchase of single parcel of improved property, Fresno (COSF)	–	–	$125,000

Sixth District Agricultural Association

REAL PROPERTY ACQUISITION

Analysis

Provision is made for acquiring two additional parcels of land in the blocks previously acquired for parking lot purposes under the provisions of Chapter 1463, Statutes of 1947. The appropriation includes provision for repayment, with interest, of the amount expended.

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54
Expenditures From Budget Act Appropriation:			
Acquisition of Sites for Parking Facilities:			
Capital Outlay and Savings Fund	–	–	$240,000
Fair and Exposition Fund	–	$90,000	–
Expenditures From Special Appropriations and Reserves:			
Acquisition of sites for parking facilities (partial cost) (COSF)	$39	–	–
TOTAL EXPENDITURES (Real Property)	$39	$90,000	$240,000

MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT

Analysis

Provision is made for the design, construction, and installation of an exhibit that will complete the exhibition of the natural resources. The presently completed or authorized exhibits consist of the redwoods, mineral resources, and water resources of the State.

DEPARTMENT OF MENTAL HYGIENE

FACILITY	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54

GENERAL ANALYSIS

The State of California, during recent years has been engaged in a building program to relieve overcrowding in state institutions, to replace condemned and obsolete structures, and to provide modern treatment facilities in the various hospitals. During the period of such construction, the population of the State has increased rapidly which has added greatly to the population of the institutions, thereby necessitating additional construction to care for the increased population load.

As a result of appropriations heretofore granted, many of the condemned and obsolete buildings in the institutions have been replaced with modern structures. The construction program for the 1953-54 Fiscal Year provides for the replacement and further reduction of overcrowding of mentally deficient patients.

The bed requirements for the mentally deficient patients are estimated at 1/10 of one percent of the general population. This means an estimated need at the present time for approximately 12,280 beds in this type of institution compared to the present actual number of 5,578.

From the appropriations that have been made in recent years, some bed facilities are now under construction, and other construction has not yet started for which funds have been provided. These are as follows:

	New Beds	*Replacement Beds*
Under construction	2,812	244
Financed, construction not started	507	200
Totals	3,319	444

If these structures were completed today, there would be 8,897 beds as compared with the need for 11,280 beds. At the present time there is a known waiting list seeking admission which totals 3,400 cases. In addition, the present facilities are overcrowded by 1,014 patients. To meet this need of housing for the mentally deficient segment of the population of California, the 1953-54 Budget provides for considerable relief as follows:

1. Development and the construction of the first units for a new institution near Costa Mesa. This includes the initial site development and grounds improvement, kitchen, laundry, boiler plant, and other service facilities. This will include 990 patient beds consisting of 280 ward beds and a complete hospital facility of 710 beds for the most seriously handicapped due to the urgent need of care for this type of case at an approximate total cost of $11,576,555.
2. Pacific Colony's budget includes three ward buildings for 234 beds together with additional laundry equipment, and an addition to the administration building at a cost of approximately $1,586,300.
3. Sonoma State Home's budget includes six ward buildings and a receiving hospital for a total of 800 beds at an approximate cost of $5,312,000.
4. Porterville State Home's budget includes seven ward buildings of 490 beds, together with site development, boiler plant, kitchen and laundry equipment, firehouse, incinerator, and library and occupational therapy building at an approximate cost of $3,516,200.
5. In addition and in order to expedite construction of additional urgently needed hospitals and treatment facilities at Pacific Colony a special bill will be presented to the 1953 General Legislature session to provide financing for such facilities including a 314-bed increase at a cost of approximately $2,474,807.

   This will provide a total of 2,828 additional beds at a total cost of approximately $24,465,862. All of the above facilities provided in the 1953 Budget, together with those previously financed, are estimated to be completed and occupied at the latest during the 1955-56 Fiscal Year which will bring the total bed capacity to 11,725. An estimate of 1/10 of one percent of the June 30, 1956, population indicates a potential mental defective resident population of 12,429, or an overcrowding of 704 patients which is approximately 5.7 percent.

Major construction projects in the 1953-54 Budget for the mental hospitals includes a domestic water supply development at a cost of $529,000 for the Norwalk State Hospital; alterations to the receiving and treatment building at the Mendocino State Hospital at a cost of $366,000; and water storage facilities at Camarillo at a cost of $63,000.

Provision is made for the purchase of land at Norwalk State Hospital to provide acreage for a juvenile unit and an expansion of the maintenance section at a total cost of $86,000.

The construction of new institutions will permit the Porterville State Home to accept its first group of 990 patients May 1, 1953, and Atascadero to accept its initial group of patients on April 1, 1954.

Certain essential minor construction, improvements, repairs, and equipment are provided within each institution's budget.

The following tables provide information relating to the current budget requests, the progress made up to the present time with the building program, as well as the future needs of the State to provide sufficient bed capacities in the institutions for present overcrowding and normal population growth.

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54

Langley Porter Clinic

Analysis

The Langley Porter Clinic, in conjunction with the University of California School of Medicine in San Francisco, operates as a research, training, and acute treatment center for Northern California. Presently funded capacity is 97 and in 1950-51 funds were appropriated for design, working drawings, and specifications to increase capacity to 300 beds. The 1953-54 Budget provides for minor construction improvements, repairs, and equipment for general repairs and painting to maintain present facilities.

MINOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT

Expenditures From Budget Act Appropriation:

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54
General repairs and painting	–	–	$8,500
Replace old door and cabinet locks	–	$2,250	–
Miscellaneous repairs, alterations, and improvements	–	13,500	–
Equipment complement for new recreation area	–	1,350	–
Detention screens	–	4,250	–
Paint interior and exterior	$101	2,188	–
Replace linoleum	–	158	–
Overhaul and replace window mechanism	–	2,125	–
Replace glass portholes in ward doors	–	65	–
Miscellaneous repairs and alterations	–	2,022	–
Paint exterior and interior of main building and annex (partial)	12,500	5,000	–
Miscellaneous repairs, alterations, and improvements to kitchen, dining room, surgery, and utilities	–	8,600	–
TOTAL EXPENDITURES (Minor Construction)	$12,601	$41,508	$8,500
TOTAL EXPENDITURES, CAPITAL OUTLAY	$12,601	$41,508	$8,500

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54

Psychiatric Hospital Clinic, Los Angeles

Analysis

This clinic is to serve as a metropolitan center for clinical diagnosis and treatment for the Department of Mental Hygiene in Southern California, and also to provide joint service for the medical school of U. C. L. A. for training and research similar to the Langley Porter Clinic operation. Financing for design, working drawings, and specifications for an initial major unit including hospital, outpatient clinic, administration, and other service facilities was made available in 1950-51. Future budgets will include requests for construction toward an ultimate bed capacity of 400.

Agnews State Hospital

Analysis

The capacity on October 31, 1952, was 3,757 with no additional capacity financed and under construction or included in the major capital outlay program for the 1953-54 Fiscal Year. Essential minor construction, repairs, improvements and equipment financing is included in the amount of $308,250. The ultimate capacity estimated for this institution is 4,151 and includes a new receiving and treatment building which will be subject to future financing.

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54

Atascadero State Hospital			
Analysis			
This institution is planned for the maximum security unit of the department. A site has been acquired near Atascadero and construction is under way for a 1,084 bed capacity, which is estimated to be completed in April, 1954. The ultimate capacity is planned for 1,500, for which subsequent financing will be required.

Camarillo State Hospital

Analysis

The October 31, 1952, capacity of 5,969 will not be further increased until the 1954-55 Fiscal Year when the juvenile unit which was authorized in the 1952-53 Budget is completed and thereby brings the financed capacity to 6,190. The major construction project in the 1953-54 Budget consists of a soft water reservoir. Essential minor construction, repairs, improvements, and equipment are included in the amount of $167,500.

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54
REAL PROPERTY ACQUISITION			
Purchase of 50 acres of land for water development to meet the expected future needs of the institution	–	$75,000	–
MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT			
Expenditures From Budget Act Appropriation:			
Soft water reservoir	–	–	$63,000
Construct and equip juvenile unit	–	$701,100	–
Mechanical services for kitchen and other buildings	–	354,590	–
Cold storage additions and alterations to butcher shop (replacing Item 384, Budget Act of 1950, $150,412, deferred by Section 3.3)	–	228,684	–
Nursing employees' residence units	–	1,000,000	–
Laundry addition and equipment (replacing Item 383, Budget Act of 1950, $167,850, deferred by Section 3.3)	–	205,550	–
Ten physicians' apartments (replacing Item 387, Budget Act of 1950, $118,000, deferred by Section 3.3)	–	115,000	–
Construction of hog plant (replacing Executive Order 49-460, Chapter 145, Statutes of 1946, $40,000, deferred by Section 3.4 of Budget Act of 1951)	–	40,000	–
Water development and well replacement to provide the volume of water necessary for the future safety and operation of the hospital	$50,000	–	–
Kitchen and employees' dining room	665,000	877	–
Equipment—kitchen building	115,000	20,000	–
Central vegetable preparation room and storage building	244,800	–	–
Equipment—central vegetable preparation and storage building	30,200	–	–
Juvenile unit, equipment	–	45,000	–
Expenditures From Special Appropriations:			
Equip receiving, acute, treatment, medical and surgical unit and administration unit	56,478	4,971	–
Construction of bakery and extension of commissary	1,314	–	–
Construct and equip female unit (partial)	121,896	8,367	–
Incinerator (additional cost)	1,370	3,691	–
Ground improvements for attendants' quarters and physician's residence	25,000	–	–
Receiving and treatment unit and administration building (additional cost)	57,000	–	–
Construction of temporary employee housing	179,999	–	–
Equip temporary employee housing	–	25,071	–
Additional correction of drainage and irrigation work	8,506	–	–
Additional domestic water development	9,032	–	–
Additions to water supply system	3,500	–	–
Alterations and repairs to transformer vaults	6,139	–	–
Vegetable sorting and grading building (additional cost)	1,636	–	–
Temporary flood control, Calleguas Creek	63,000	–	–
Prefabricated structures	5,636	4,224	–
Unexpended Balances Transferred From Architecture Revolving Fund:			
Construction and equipment of hog plant and slaughterhouse	—118,490	–	–
Construction of garages	—1,412	–	–
Garages for attendants' quarters	—19,300	–	–
Construction of attendants' quarters and garages	—3,700	–	–
Construction of farm ward building	—30,000	–	–
Roof repairs, physician's residences	—65	–	–
Alterations and repairs to refrigeration unit, utilities, laundry, sewage plant, and employees' quarters	—341	–	–
General repairs to window guards, roofs, roads, and electrical system	—1,450	–	–
Install high pressure water supply directly to boiler rooms and softeners	—1,050	–	–
TOTAL EXPENDITURES (Major Construction)	$1,469,698	$2,757,125	$63,000

MINOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT

Expenditures From Budget Act Appropriation:

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54
General repairs and miscellaneous items to maintain buildings, utilities, mechanical installations, roads, grounds, and equipment	–	–	$15,000
Repairs and replacements to hot water tanks	–	–	7,500
Replacement and repairs to domestic water lines	–	–	18,000
Painting interior and exterior	–	–	10,000
Road paving	–	–	9,000
Replace ventilator screens	–	–	2,000
Water softener disposal line	–	–	6,000
Permanent pasture fencing	–	–	5,000
Replace water softener material and repair tank	–	–	7,500
Repairs and replacements to service lines	–	–	7,500
Replacement of plumbing fixtures	–	–	5,000
Modernization of primary switchboard	–	–	50,000
Pave industrial area	–	–	25,000
Warehouse for inflammable stores	–	$19,500	–
Hose drying racks for fire house	–	750	–
Completion of picnic area for patients and visitors	–	7,800	–
Paving and equipment shelter for maintenance corporation yard	–	5,500	–
Repairs and replacement to service lines (annual increment)	–	7,500	–
Repairs and replacements to hot water tanks (annual increment)	–	7,500	–
Replace domestic water lines, male and female units (annual increment)	–	18,000	–
Painting interior and exterior (annual upkeep)	–	10,000	–
Completion of recreational facilities for central court—male unit	–	10,000	–
Construction of recreational apparatus for patients—inner courts	–	4,500	–
Surface service roads	–	12,500	–
Replace vent ducts and steam kettle hood, male kitchen	–	10,000	–
Replace water mains around farm colony buildings	–	2,400	–
Barber shops, remodel and equip ward shops	–	2,000	–
Recreational facilities, central court—female unit	–	17,000	–
Three outdoor toilets—female side	–	15,000	–
Screening ventilators	–	2,000	–
Correction of electrical infractions	–	25,000	–
Installation of complete fire sprinkler system, basement of new female O. T. building to comply with the present building code	–	6,500	–
Install fire line and hydrants to connect the existing fire line at the commissary and garage to fire line at the female unit	–	6,000	–
Extension of dairy feed mangers and corral improvements	–	7,500	–
Replace water lines—male units	–	5,037	–
Repairs and improvements to steam distribution, return lines, and heating system	—$3,086	3,000	–
Replace old effluent pumping units to provide for an expanded effluent irrigation system	20,000	–	–
Install rest rooms and initial grading for visitors area	7,800	–	–
Partial development of central court of seven acres to provide recreational areas for patients	112	9,888	–
Lawn irrigation for newly developed areas	–	7,500	–
Construct culverts and provide drainage to dairy road	7,500	–	–
Install modern fire alarm system of a diaphone alarm horn	4,656	2,844	–
Replace old wooden water cooling towers with evaporative condensers	–	6,200	–
Repair and replacement of service lines	3,825	3,675	–
Repair and replacement of hot water tanks	4,093	3,407	–
Provide apparatus for several small courts used by patients	–	1,500	–
Replace old dairy boiler	3,785	215	–
Replace refrigeration equipment (additional cost)	3,729	2,771	–
Replace sewage screening plant	12,000	–	–
Repair and replacement to main sewage plant	2,555	1,445	–
Improvements to service roads to sewage plant	–	2,500	–
Two exercise yards for bulls	—1,108	1,101	–
Reclamation and land leveling	–	13	–
Improvement to paint spray room	–	12	–
Laundry equipment, new and replacement	–	132	–

De Witt State Hospital

Analysis

De Witt was purchased from the Federal Government in 1946 and was made a permanent state hospital by subsequent legislation. This hospital houses both mentally ill and mentally defective patients. The capacity on October 31, 1952, was 2,938 with no capacity expansion planned in the 1953-54 Budget or provision made for change in usage of the structures. Certain essential minor construction, repairs, improvements, and equipment are included in the amount of $232,640 to maintain the hospital in an operable condition.

MINOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54
Expenditures From Budget Act Appropriation:			
Interior painting of wards	–	–	$15,000
Install floor covering and foundation vents	–	–	30,000
New floors and painting	–	–	9,000
Construct canopies and install sidewalks	–	–	2,055
Recreation therapy facilities	–	–	5,865
Replace fly screens and protective screens (partial)	–	–	10,000
Convert isolation rooms	–	–	6,600
Permanent aluminum awnings	–	–	1,820
Hot water tank for hydrotherapy	–	–	2,300
Replace loading platform	–	–	2,600
Yard shelters	–	–	2,600
Cupboards, shelving, and alterations	–	–	4,000
Improvements for isolation area	–	–	2,500
Overhauling and resetting of old equipment	–	–	5,000
New conductive floor	–	–	850
Replace boiler nonreturn valves	–	–	3,090
Replace dishwashing sinks on 10 wards	–	–	5,000
Renewing of floor coverings and repairs to floors in wards and corridors	–	–	40,860
Repairs and replacements of steam and condensate lines	–	–	10,000
Renew plumbing and sewer lines in wards and buildings	–	–	11,000
Roof repairs	–	–	12,500
Improvements of patients' bathing facilities	–	–	23,000
Painting and repairs to buildings	–	–	22,500
Replace refrigerator equipment	–	–	4,500
Retube and standardize main boiler	$359	$13,450	–
Repair and replacement of steam and condsensate lines	56,081	40,797	–
Painting and repairs to buildings	22,664	23,050	–
Renewing of floor covering in 40 wards, hospital wards, and corridors	41,675	40,860	–
Modernization and equipment in the laundry	–	19,982	–
Furnish and install stainless steel dish runs and cafeteria counters in patients' dining rooms	–	12,500	–
General repairs, painting, and improvements to utilities, building, equipment, mechanical installations, and grounds	–	10,000	–
Remodel Building 209 for increase of 780 square feet of office space for therapists, supervisors and nurses	–	2,500	–
Construct clothes rooms in all wards	–	8,000	–
Construct new sludge digestor at sewage plant	–	25,000	–
Renew plumbing and sewer lines in wards and buildings	–	11,000	–
Install diaphone fire alarm system	–	3,000	–
Correction of electrical infractions	–	45,295	–
Construct shed for fire equipment	–	4,000	–
Improvements of bathing facilities for patients in all wards	23,375	23,000	–
Alterations, rehabilitation, minor construction and equipment	–	895	–
Construct fire hose drying tower	–	127	–
Construct paint spray booth	–	341	–
Remodel main kitchen	–	652	–
Laundry equipment	–	27	–
Installation ward evaporative coolers	13,127	230	–
Alterations and improvements to main kitchen and equipment	7,136	402	–
Roof repairs	17,488	223	–
Expenditures From Special Appropriations:			
Elimination of fire hazards	–	2,000	–
Repairs and alterations to main kitchen	–	11,414	–
Replace ward hot water heaters	–	53,000	–
Repairs to ward electric system	–	24,989	–
Repairs and alterations to transformer platforms	–	2,877	–
Repairs and alterations to butcher shop and refrigeration room	–	900	–
Water treatment plant improvements and equipment	–	120	–
Repairs to incinerator	–	1,500	–
Replace patients' dining room equipment	–	2,200	–
Repair and replace exterior doors	–	7,500	–

Mendocino State Hospital

Analysis

The capacity of the Mendocino State Hospital on October 31, 1952, was 2,416. The 1953-54 budget includes $366,000 for alterations to the receiving and treatment building. This building will provide beds for 218 patients and should be available for occupancy in the 1954-55 Fiscal Year. The Receiving and Treatment Building plus a new ward building which was previously financed will replace other ward facilities for a net increase of 46 beds by June 30, 1955. Essential minor construction, repairs, improvements, and equipment are included in the amount of $143,692 to maintain the hospital in operable condition.

MAJOR CONSTRUCTION, IMPROVEMENTS, AND EQUIPMENT

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54
Expenditures From Budget Act Appropriation:			
Alterations to receiving and treatment building	–	–	$366,000
Construct and equip ward building to replace Ward 16	–	$531,050	–
Expenditures From Special Appropriations:			
Construct and equip employees' quarters building	$10,855	645	–
Equip administration, receiving and surgical building	–	80,000	–
Auditorium	–	6,500	–
Construct and equip kitchen, commissary and feeding unit (partial)	12,825	–	–
Equip buildings to replace Main Building and to replace Wards 10, D and E	18,018	–	–
Landscaping, paving, and sprinkler system, employees' building (partial)	1,216	–	–
Temporary housing	–	62,000	–
Auditorium and library (partial)	86,997	–	–
Administration, receiving and treatment building (partial)	697,826	–	–
Security facilities for Ward 12 (partial)	–	7,500	–
Reroute and repair sewer distribution system (partial)	–	1,601	–
Repairs and alterations to elevator	—88	–	–
Equip three physician's apartments	4,726	1,274	–
Prefabricated structures	3,689	587	–
Unexpended Balances Transferred From Architecture Revolving Fund for Completed Projects:			
Construction of three physicians' residences	—15,900	–	–
Landscaping, paving, and sprinkler system, employees' building (partial)	–	—8,519	–
TOTAL EXPENDITURES (Major Construction)	$820,164	$682,638	$366,000

MINOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54
Expenditures From Budget Act Appropriation:			
Repairs and improvements to dairy	–	–	$3,500
Diesel fuel oil storage	–	–	1,000
Repairs and improvements to ward sculleries	–	–	14,000
Repairs and improvements to slaughter house	–	–	2,650
Construct electric crematory	–	–	11,500
Build new road and culvert	–	–	6,000
Land leveling and irrigation facilities	–	–	3,000
Unloading docks for food trucks	–	–	1,800
Fencing and gates	–	–	3,100
Construct parking areas, employees and visitors	–	–	11,100
Replace floor coverings in ward buildings	–	–	2,500
General repairs, painting, and improvements to buildings and grounds	–	–	25,000
Mechanical repairs and replacements	–	–	10,000
Remodel residence into apartments	–	–	18,542
Modernization of sewage plant	–	–	30,000
Improvements and equipment for cannery	–	$1,584	–
General repairs to service and industrial buildings	$15,326	774	–
Reroute and repair sewer distribution system	30,072	–	–
General repairs to ward buildings	24,500	–	–
Replace and repair steam and return lines	20,400	–	–
Laundry equipment, to replace worn out machines and add additional machines to carry load		40,230	–
Exterior and interior painting of ward buildings and laundry	30,000	–	–
Improvements to ranch irrigation system	–	7,500	–
Storm drain culvert for womens' exercise yard	545	55	–
Dairy improvements to provide adequate shelters	–	1,500	–
Replace deteriorated roofs on six buildings	3,040	2,060	–
Replace deteriorated floor covering in Ward 14 and K	–	1,700	–
General repairs to institution residences	2,554	2,846	–
Replace deteriorated fire lines	5,400	–	–

Modesto State Hospital

Analysis

The Modesto State Hospital was purchased from the Federal Government in 1947-48 as a temporary institution and presently houses both mentally ill and mentally defective patients. The capacity of this institution on October 31, 1952, was 2,605 with no capacity expansion planned in the 1953-54 Budget or provision made for change in usage of the structures. Minor construction, repairs, improvements, and equipment are included in the amount of $64,429 to maintain the hospital in an operable condition.

Napa State Hospital

Analysis

Capacity on October 31, 1952, was 4,024 with 714 additional capacity to be effected in July, 1953, through the opening of the new receiving and treatment building. A tubercular ward addition is financed but not yet under construction which will add 456 beds upon completion in 1954-55. Also a ranch ward is financed but not under construction which will replace 54 beds and add 66 beds upon completion in 1954-55. No additional major projects are included in the 1953-54 budget for this institution. Essential minor construction, improvements, repairs, and equipment are included in the amount of $163,140, to maintain the hospital in an operable condition.

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54
MAJOR CONSTRUCTION, IMPROVEMENTS, AND EQUIPMENT			
Expenditures From Budget Act Appropriation:			
Construct and equip tubercular ward addition to provide an increased capacity of 456	–	$3,100,000	–
Construct and equip ranch ward to replace the old cottages at the dairy and poultry ranch	–	575,280	–
Addition to laundry and equipment	–	704,877	–
Receiving and treatment building (partial)	–	60,000	–
Expenditures From Special Appropriations:			
Four physicians' residences and garages	$2,300	–	–
Deaerating heater and water softener	–	2,350	–
Dairy plant expansion	5,433	–	–
Equipment for receiving and treatment building	8,342	271,658	–

Norwalk State Hospital

Analysis

The capacity on October 31, 1952, was 1,866 with 500 additional capacity anticipated in March, 1955, upon completion of a receiving and treatment building to be constructed from presently available funds. No additional patient capacity type projects are included in the 1953-54 Budget for Norwalk State Hospital. A domestic water development project is included at a cost of $529,000. Funds are budgeted for the acquisition of land for a future juvenile unit to consist of 19 acres at a cost of $56,000, and 12 acres for the maintenance section of the institution at a cost of $30,000. Essential minor construction, improvements, repairs, and equipment are included in the amount of $222,785 to maintain the hospital in proper condition.

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54
REAL PROPERTY ACQUISITION			
Land purchase for juvenile unit	–	–	$56,000
Land purchase for maintenance section	–	–	30,000
Purchase of additional land, approximately 20 acres, for site for additional hospital facilities	$125	$14,368	–
TOTAL EXPENDITURES (Real Property)	$125	$14,368	$86,000
MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT			
Expenditures From Budget Act Appropriation:			
Domestic water development and pipe line	–		$529,000
Modernize and enlarge food service unit to accommodate increased population	–	$500,000	–
Construction of receiving and treatment building	–	2,875,000	
Equip receiving and treatment building	–	250,000	
Construction of kitchen for receiving and treatment building	–	133,500	
Equip kitchen for receiving and treatment building	–	41,500	–
Expenditures From Special Appropriations:			
General repairs, improvements and painting	—$59	–	
Miscellaneous repairs at farm	—4,158	4,158	–
Women's industrial building	65	–	–
Construction and equipment, four physicians' residences	735	–	–
Sewage disposal plant and pipe (partial)	–	6,647	
TOTAL EXPENDITURES (Major Construction)	—$3,417	$3,810,805	$529,000
MINOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT			
Expenditures From Budget Act Appropriation:			
Installation of acoustic, fireproof, Celotex ceiling	–	–	$15,000
General repairs, painting, and improvements to utilities, buildings, equipment, mechanical installations and grounds	–	–	100,000
Five electric dishwashers (final increment)	–	–	15,000
Additional laundry equipment	–	–	10,385
New lock system replacement	–	–	8,500
Repairs and maintenance to wells and pumps	–	–	5,000
Addition to hog farrowing shed and creep pens	–	–	5,000
Complete installation of prefabricated building for music therapy and beauty shop	–	–	5,000
Completion of garage repair shop building	–	–	6,500
Extension of street lighting	–	–	5,000
New parking lots and road repairs	–	–	8,500
New curbs, sidewalks, and grading	–	–	9,000
Repairs to open drainage ditch	–	–	9,000
Tree surgery	–	–	2,500
Termite control	–	–	9,000
Repairs of grounds irrigation system	–	–	5,000
Improvements at the farm	–	–	3,500
Install full length mirrors	–	–	900
General repairs, painting, and improvements to utilities buildings, equipment, mechanical installations, and grounds	–	$52,250	–
Reset No. 2 boiler in main boiler room	–	10,000	–
Shop building for blacksmith and plumber	–	19,500	–
Fencing for maintenance building group	–	2,100	–
Air conditioning of surgery operating room	–	9,500	–
General repairs to electrical installation in surgery	–	7,500	–
Two prefabricated buildings for beauty shop facilities and therapy	–	5,000	–
Extension to poultry feed storage room	–	1,800	–
Reroof superintendent's residence	–	800	–
Road surfacing	–	37,150	–

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54
MINOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT—Continued			
Expenditures From Budget Act Appropriation—Continued			
Eliminate fire hazard in auditorium	–	$7,500	–
New curbs (partial)	–	9,000	–
Extension of street lighting	–	5,000	–
Repairs of grounds irrigating system (partial)	–	5,000	–
Tree surgery	–	2,500	–
Patients' recreational area and facilities	–	9,000	–
Furnish and install electrically operated steam dishwashers	$20,000	42,500	–
Prefabricated building and equipment for outpatient services	–	15,000	–
Alterations and extension of patients' exercise yards	–	4	–
Improvements to carpenter and paint shop	140	220	–
Poultry laying houses (two)	–	8,280	–
Additional electric facilities to remodel the present old inadequate lighting system	25,000	–	–
General repairs and maintenance of ward buildings	24,697	303	–
General repairs and maintenance, other than ward buildings	9,163	837	–
Complete hog farrowing sheds and creep pens	–	10,000	–
Replace old wooden warehouse building, which is a fire hazard, with rigid frame building on a concrete slab	25,000	–	–
Replace 2,000 feet of water pipe with large pipe, replace old small pumps with larger units in order to cope with the lowering water level	17,739	2,261	–
Construction and repairs to roads to employees' buildings and patients' ward buildings	4,113	3,387	–
Provide refrigerated cooler space for commissary storeroom to hold perishable supplies	6,443	8,557	–
Additional garages—state equipment	7,500	15,000	–
Extension of irrigation system for main institution lawns and gardens and discontinue the present practice of irrigating large areas with small sprinklers	4,511	489	–
Construct cement curbing for roads	5,702	548	–
Extension of street lighting to 1½ miles of existing roads where none is now provided	4,868	132	–
Provide toilets and drinking fountains for six patients' exercise yards	1,922	78	–
Replace badly pitted stainless steel hood for main kitchen steam kettles	9,000	–	–
Repairs to 50,000-gallon water tank on which no extensive repairs have been made for several years	3,302	198	–
Provide auditorium chairs with glides to protect floor	496	504	–
Road resurfacing and repairs to farming and livestock areas	499	2,501	–
Replace control valve to robot washing machines	676	24	–
Remodel men's industrial building	8,385	1,115	–
Provide 1,000 feet of fencing for the main institution grounds and replace old fencing at the hog ranch	2,527	2,473	–
Construct bull barn and corrals	638	24,362	–
Replace bars on windows with steel screens	4,000	–	–
Resanding and lowering of present wells due to lowering water level	5,403	1,097	–
Expenditures From Special Appropriations:			
Repairs and improvements to cow and calf barn (partial)	1,738	–	–
Rehang exit doors on four buildings	800	–	–
Install fire safety doors on dumb waiters	2,200	–	–
Attic separation doors, closers, latches	1,200	–	–
Install scuttle hole covers in 25 wards	1,250	–	–
Outside stairway at ward 20	2,500	–	–
Replace hot water tanks on wards	9,500	–	–
Mechanical repairs and replacement of steam lines	355	6,145	–
Repairs and alterations to electrical system (secondary lines)	12,000	–	–
Repairs and alterations to occupational therapy building	–	1,500	–
Termite eradication in ward buildings and residences	–	1,000	–
Repairs to roads and drainage system	129	2,371	–
Improve lighting facilities in O. T. buildings and installation of equipment	–	1,500	–
Replace obsolete lights in office and ward buildings	1,288	262	–
Repairs and alteration of incinerator	–	1,000	–
Repairs and alteration of garage building	–	2,500	–
Replacement of ward window guard locks	–	1,500	–

Patton State Hospital

Analysis

The capacity on October 31, 1952, was 3,605 with additional capacity anticipated in the 1954-55 Fiscal Year upon completion of the receiving and treatment building (304 new, 61 replacement), and a ward building (19 new, 131 replacement) for which financing was previously made available. No additional major construction is included in the 1953-54 Budget for Patton State Hospital. Essential minor construction, improvements, repairs, and equipment in the amount of $583,868 are included to maintain the hospital in an operable condition.

MAJOR CONSTRUCTION, IMPROVEMENTS, AND EQUIPMENT

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54
Expenditures From Budget Act Appropriation:			
Construct and equip new ward building to replace condemned Ward 19	–	$812,000	–
Repairs and improvements to kitchen building including floors, ventilation, installation of suspended ceiling in cafeterias and general remodeling	–	312,500	–
Expenditures From Special Appropriations:			
Incinerator (partial)	$1,542	–	–
Receiving, treatment, and administration building—additional cost	454,673	–	–
Equip receiving, treatment, and administration buildings	13,994	196,606	–
Equip tubercular units, male and female	26,358	15,523	–
Construction of ward building for working patients	–	675	–
Construct and equip auditorium and chapel	3,645	1,842	–
Connect new wells	2,878	451	–
Four physicians' residences	—96	158	–
Alterations and improvements to cottages	50,102	–	–
Unexpended Balance Transferred From Architecture Revolving Fund:			
Completed Projects:			
Miscellaneous repairs and improvements to sewage disposal plant	—30,000	–	–
TOTAL EXPENDITURES (Major Construction)	$523,096	$1,339,755	–

MINOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54
Expenditures From Budget Act Appropriation:			
Additions and improvements—tubercular hospital	–	–	$20,000
Alterations, repairs and improvements (deferred maintenance)	–	–	395,000
General repairs and improvements—wards and cottages	–	–	15,000
General repairs and improvements—other than to wards and			
cottages	–	–	5,000
Standby power for west well	–	–	5,000

Stockton State Hospital

Analysis

The capacity on October 31, 1952, was 4,089 with additional capacity anticipated in July, 1953, upon completion of the receiving and treatment building (338 new, 36 replacement), and upon completion of a ward building in April, 1954, for which funds are available but construction is not yet started (100 capacity replaces barracks of 408 capacity). No additional major construction is included in the 1953-54 budget for Stockton State Hospital. Essential minor construction, improvements, repairs, and equipment in the amount of $88,913 are included to maintain the hospital in an operable condition.

Pacific Colony

Analysis

The capacity on October 31, 1952, was 1,652 and 12 ward buildings now under construction will add 936 beds upon completion in July, 1954. Additional major projects included in the 1953-54 Budget include three ward buildings with a capacity of 234 beds estimated for completion in 1954-55. A special bill to be considered by the 1953 Legislature will provide additional financing for alterations to existing hospital and annex, Unit 2 and supplement to Unit 1, which will add 314 beds and replace 79 beds upon completion during the 1954-55 Fiscal Year. Essential minor construction, repairs, improvements, and equipment are included in the 1953-54 Budget amounting to $111,200 for maintenance and improvement of the plant facilities.

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54
MAJOR CONSTRUCTION, IMPROVEMENTS, AND EQUIPMENT			
Expenditures From Budget Act Appropriation:			
Three ward buildings	–	–	$1,221,000
Equip three ward buildings	–	–	56,700
Additional laundry equipment	–	–	103,000
Administration building	–	–	193,000
Equip administration building	–	–	12,600
Twelve ward buildings—equipment	–	$160,000	–
Hospital annex and alterations to existing hospital	$39,250	2,774,650[a]	–
Equip hospital annex	–	157,000[a]	–
Equip addition to kitchen	–	10,000	–
Equip school building	–	20,000	–
Additions and alterations to psychology building	203	297	–
Equip kitchen annex	45,000	–	–
Underpass (additional cost)	20,000	–	–
Equip recreation field	–	1,000	–
Install 10-inch sewer line and pumping plant	–	142,000	–
Integral furnace water tube boiler	–	75,520	–
Moving, constructing and realigning San Jose Creek	–	186,000	–
Site development at ward buildings	–	575,000	–
Remodel and enlarge kitchen and commissary	–	497,250	–
Tree trimming	1,132	244	–
Replacement and repairs of steam lines to seven wards	273	26	–
Install quonset hut	69	83	–
Elimination of industrial hazards	—203	3	–
Addition to bakery, additional cost	—79	–	–
Expenditures From Special Appropriations:			
Construct two ward buildings	—11	11	–
Alterations to Ward 16—equipment	2,129	152	–
Completion of psychology building alterations	–	2,688	–
School building—additional cost	–	24,790	–
Twelve ward buildings—additional cost	–	61,833	–
Water reservoir—additional cost	21,909	–	–
Psychology quarters—additional cost	3,190	–	–
Unexpended Balances Transferred From Architecture Revolving Fund:			
Maintenance and shop building	—54,482	–	–
Construction of sewage disposal plant	—9	–	–
Relocation of water line in City of Pomona	—11,270	–	–
Construction of employees' quarters	—725	–	–
TOTAL EXPENDITURES (Major Construction)	$66,376	$4,688,547	$1,586,300
MINOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT			
Replace two ward shelters	–	–	$3,000
Conversion of Cottage 6 to nursery	–	–	12,700
Repairs, alterations and equipment of residences	–	–	4,000
Renew two 2400-volt underground electrical circuits	–	–	2,500
Repairs to roads	–	–	17,600
Roof repairs	–	–	11,200
Provide living quarters in present floor space	–	–	3,500
Installation of thermostatic controls	–	–	6,700
Refrigerated drinking fountains	–	–	4,000
General repairs and painting	–	–	20,000
Additional shelving and bins	–	–	2,500
Installation metal lockers	–	–	1,500
Repairs and improvements to visitors shelter	–	–	1,000
Inflammable liquid storage building	–	–	6,000
Playgrounds at new school	–	–	15,000

---

[a] Financing proposed by special bill in the amount of $2,474,807; for increased cost of construction, $2,430,807; and equipment, $44,000.

[a] It is proposed to submit special legislation to finance the new hospital annex and alteration to existing hospital project.

DEPARTMENT OF MENTAL HYGIENE—Continued

Sonoma State Home

Analysis

The capacity on October 31, 1952 was 2,677 with 120 new beds to be added by the completion of the nursery cottage now under construction and five ward buildings estimated to be completed in July, 1954, which will add 256 new beds and replace 244 in Laurel, Judah, and Judah Annex. Authorized beds now under construction include the addition to hospital building (32 new beds) estimated for completion in April, 1954 and two ward buildings with a capacity of 200 beds to replace 215 beds in the Dairy Cottage, Poultry Cottage, Bentley and Bentley Annex upon completion in the 1954-55 Fiscal Year. Major projects financed in the 1953-54 Budget include a receiving hospital of 100 new capacity and six ward buildings of 700 new capacity estimated for completion in the 1955-56 Fiscal Year. Essential minor construction, repairs, improvements, and equipment are included in the amount of $313,450 to maintain and improve the plant facilities.

Porterville State Home

Analysis

The site for the Porterville State Home was acquired in 1946. Ward construction is now completed for a capacity of 910 plus a hospital building with a capacity of 100 which will permit acceptance of the first group of patients in May, 1953. Seven additional ward buildings with a total capacity of 490 is estimated for completion and acceptance of patients by January, 1954. Financing was made available by the 1952 Budget for seven ward buildings (490 capacity) that are not yet under construction. These buildings are estimated for completion during the 1954-55 Fiscal Year and will bring the capacity of this institution to 1,990.

The major projects in the 1953-54 Budget include seven ward buildings with a total capacity of 490 estimated for completion during the 1954-55 Fiscal Year. Other major projects budgeted include a library and occupation therapy building, a firehouse, and an incinerator. The institution will house mental defective patients and assist in meeting the acute state-wide problem for patients of this type.

New Mental Defective Home Near Costa Mesa

Analysis

A site has been acquired near Costa Mesa for the establishment of a new institution for the mentally deficient. Funds have bee proposed in the 1953-54 Budget for construction of initial units which will provide a capacity of 990 beds. Construction of facilities toward an ultimate capacity of 3,000 will require subsequent financing.

MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT

Analysis

Construction of 13 armories on a federal-state sharing basis is recommended at the locations listed below. These locations represent areas in which facilities are most urgently needed.

Construction of a warehouse in Sacramento is proposed to provide necessary storage space for National Guard equipment and supplies.

The addition to the Stockton Armory is to provide adequate space for National Guard units at this location.

Provision for the preparation of plans and supervision of construction for National Guard buildings and facilities represents state expenditures necessary to qualify for federally constructed facilities.

Federal finance is made available on the basis of up to 75 percent of qualifying phases of the construction. Such qualifying phases usually exclude site development such as, landscaping, fencing roads, parking areas, walk and utility connection beyond three feet of the structure.

MINOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT

Analysis

Minor construction provides for installation of cooling systems at two armories, installation of water pipes for grounds maintenance at nine armories, and paving motor pool and outdoor drill areas at three armories. An amount of $2,000 for surveying armory sites and purchase of title insurance is also provided.

Expenditures From Budget Act Appropriation:

DEPARTMENT OF FISH AND GAME

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54

Analysis

The capital outlay program of the Department of Fish and Game provides facilities and installations required for administration of the department; enforcement of the provisions of the Fish and Game code; management, development, and conservation of fish and game; and for research, study, and compilation of statistics on fish and game.

The 1953-54 Fiscal Year program includes $7,000 for the construction of an oyster culture pond and related facilities to permit the investigation of oyster production on a commercial basis.

General Analysis

Wildlife Conservation Board

Continuation of the acquisition, construction, and improvements of wildlife conservation projects is planned for 1953-54. The $9,000,000 appropriated by Chapter 1327, Statutes of 1947, has been allocated to projects by the Wildlife Conservation Board, and a large part of these projects has been completed. The additional revenue provided by Chapter 1401, Statutes of 1951, is being allocated to projects by the Wildlife Conservation Board.

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54

Division of Beaches and Parks

GENERAL ANALYSIS

The acquisition of additional beach and inland park areas from funds appropriated by Chapter 1422, Statutes of 1945 is planned for 1953-54. In addition an amount of $118,000 is proposed for acquisition of property adjacent to present state beaches and parks. An amount of $750,000 is also proposed for acquisition of Olivera Street, the Los Angeles Plaza, and the Pico-Garnier block in the City of Los Angeles replacing a 1952-53 appropriation for the same amount which will not be expended this year.

Proposed construction provides for development of new park areas, additional facilities at existing parks, restoration of two historic buildings, and continuation of the state-wide Riders' and Hikers' Trail program.

REAL PROPERTY ACQUISITION

Analysis

The acquisition of shoreline adjacent to state highways in accordance with the San Diego County master plan of state beaches, 120 acres adjacent to the Palomar Mountain State Park, approximately 37 acres adjacent to the Pfeiffer Big Sur State Park, approximately 23 acres bordering the Merced River at the McConnell State Park, a small area adjacent to the Pio Pico State Historical Monument, and additional beach and park lands are proposed and summarized below. Acquisition of the land and improvements on Olivera Street, the Pico-Garnier block and the Los Angeles Plaza in the City of Los Angeles are also proposed.

MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT

Analysis

Major construction provides for additional facilities at Samuel P. Taylor; road construction at Mt. Diablo; sewage facilities at Pfeiffer Big Sur; and new development at Salton Sea, Silver Strand, Tomales Bay, Clear Lake, and Ide Adobe State Parks. Restoration of the Benicia State Capital Historical Monument, and the Fallon House at Columbia Historic State Park are also proposed, contingent upon the release of the impounded oil royalties in the State Lands Act Fund by the Federal Government.

RIDERS' AND HIKERS' TRAILS

Analysis

The continuation of the state-wide trail is proposed in the counties listed below. Expenditure of the $100,000 appropriation from the State Park Fund for the 1953-54 Fiscal Year is proposed as contingent on release of the impounded oil royalties in the State Lands Act Fund by the Federal Government.

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54

Division of Forestry

GENERAL ANALYSIS

The Capital Outlay program of the Division of Forestry comprises the purchase of land for state forests pursuant to Article 6 of Chapter 2 of Division 4 of the Public Resources Code; the acquisition, construction, and development of forest protection stations and a fire lookout tower to provide fire prevention and suppression on lands having state-wide interest values; the construction of the District VI headquarters; and the relocation and construction of two forestry work camps for inmates of the Youth Authority.

REAL PROPERTY ACQUISITION

Analysis

The acquisition of 4,419 acres of forest land within and adjacent to the Mountain Home State Forest from the State Lands Commission is proposed for 1953-54. The State Lands Commission is acquiring these lands from the United States Forest Service in exchange for other state lands scattered throughout the national forests of California. Provision is also made for the acquisition of sites for fire control stations and strategically located fire lookout towers.

Purchase of Sites for Forest Protection Stations:

MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT

Analysis

Major construction provides for essential development of fire protection stations and a forest fire lookout tower replacing tent camps, rented buildings, and existing buildings not worthy of repair; the relocation and construction of one permanent forestry work camp and one "spike" or temporary forestry work camp for the Youth Authority; construction of the District VI headquarters at Riverside; and engineering, planning, and inspection services.

Expenditures From Budget Act Appropriation (COSF):

[a] Painting and improvements to the lighting facilities at the Division of Mines offices in the Ferry Building, San Francisco, will not be accomplished due to the probable remodeling of the north wing of the Ferry Building by the Board of State Harbor Commissioners.

DEPARTMENT OF PUBLIC HEALTH

Analysis

Funds are available for the construction of an office and laboratory building in Berkeley, adjacent to the campus of the University of California. The completed construction of this building will result in improved services by providing space for all headquarters offices in one building, improved laboratory facilities, and closer cooperation with the University of California School of Public Health.

etail of Major Project Allocations for Construction of Highways and Bridges as Recommended by the California Highway Commission for the 1953-54 Fiscal Year

COUNTY	ROUTE	DESCRIPTION	APPROXIMATE MILEAGE	ESTIMATED COST
		NORTHERN GROUP OF COUNTIES		
Alameda	5	0.25 mile easterly of Center Street to 0.10 mile easterly of Foothill Boulevard; grade, pave, and structures	2.1	$1,540,000
Alameda	5, 108	Vicinity of Intersection of Routes 5 and 108, east of Livermore; drainage revision	5.4	115,000
Alameda, Contra Costa	69	Albany Drain Bridge No. 33-155L and Stege Drain Bridge No. 28-91; bridges	–	75,000
Alameda	69, 206	South of Ashby Avenue to El Cerrito Overhead; grade, pave, and structures	3.0	4,600,000
Alameda	105	0.4 mile westerly of Hesperian Boulevard to 0.3 mile northerly of Harder Road; grade and surface	1.5	350,000
Alameda	227	Route 75 near Lake Temescal to Route 5 (portions); Joint Highway District No. 26; grade and surface	–	300,000
Alpine	23	Mono County Line to Junction Route 24; grade and surface	10.3	352,000
Butte	3	Junction Route 87 to Chico Avenue; base and surface	9.6	600,000
Butte, Glenn	47	Sacramento River Bridge No. 12-54; redeck	–	160,000
Butte	21, 87	Intersection of Routes 21 and 87; channelization	–	40,000
Contra Costa	69, 14	Jefferson Avenue to Rollingwood (portions); structures	–	390,000
Contra Costa	75	Orinda Road Interchange; grade, pave, and structures	0.8	1,800,000
Contra Costa	75	1 mile south of Pacheco to Martinez; grade and surface	5.1	380,000
Contra Costa	106	Muir Station to Route 75; surface	3.5	300,000
Del Norte	46	0.5 mile east of Klamath to Turwar Creek; widen and surface	1.8	142,000
El Dorado	11	Through Placerville; grade and structures	1.5	595,000
Fresno	4	North city limits of Kingsburg to Selma; surface	3.1	85,000
Fresno	4	0.3 mile south of California Avenue to Santa Clara Street; grade and pave	0.8	175,000
Fresno	10	Lone Pine Inn to 2.8 miles west of Hot Springs Canyon (portions); grade, surface, and structures	5.7	420,000
Fresno	41	Orange Avenue to Maple Avenue; surface	1.0	52,000
Fresno	41	Wahtoke Creek Bridge No. 42-78; bridge and approaches	–	20,000
Humboldt	1	Stephens Grove to Weott (portions); base and surface	6.0	150,000
Humboldt	1	Thogerson Cattlepass No. 4-40; cattlepass	–	17,000
Humboldt	1	Gannon Slough to 0.9 mile north of Plaza Avenue; grade and surface	2.9	600,000
Humboldt	35	Alton to Bridgeville (portions); base, surface, and drainage	6.9	80,000
Kings	135	Kansas Avenue to 1 mile north of Corcoran (portions); grade and structures	7.0	320,000
Lake	49	Putah Creek; bridge	–	220,000
Lassen	29	In Susanville; curb, gutters, and surface	–	10,000
Madera	32	Califa to Merced County line (portions); surface	8.5	390,000
Madera	124	Junction Route 32 to south city limits of Chowchilla; surface	2.5	65,000
Madera	126	Cottonwood Creek Bridge; bridge and approaches	0.4	45,000
Marin	1	Manzanita to Golden Gate Bridge; grade and structures	3.9	510,000
Marin	52	Alto Intersection to Belvedere (portions); surface and shoulders	1.5	100,000
Marin	56	Tamalpais to Muir Beach (portions); retaining walls	–	30,000
Mariposa	65	Coulterville to Mariposa (portions); grade and surface	2.0	90,000
Mariposa	110	Stanislaus County line to Coulterville (portions); grade and surface	7.6	25,000
Mendocino	1	4 miles north of Forsythe Creek to Ridgewood Summit; grade	4.9	900,000
Mendocino	1	Outlet Creek to Reeves Creek; surface	4.5	280,000
Mendocino	48	North Fork Navarro River Ridge No. 10-78; bridge and approaches	–	165,000
Mendocino	70	Russian River Bridge No. 10-80; bridge and approaches	0.8	400,000
Merced	4	Livingston to south of Delhi; grade and surface	3.6	500,000
Merced	4	"O" Street in Merced to Buhach Road (portions); surface	4.5	200,000
Merced	32	Through Los Banos; grade and surface	1.1	140,000
Merced	41	Main Canal; bridge and approaches	0.4	125,000
Merced	122	San Joaquin River to Merced (portions); grade, surface, and structures	5 ±	350,000
Modoc	28	Adin to Rush Creek; surface	4.2	150,000
Modoc	28	Alturas to 11 miles east; Honor Camp labor; grade	11.0	240,000
Modoc	73	Junction Route 28 to State line; Honor Camp labor; grade and oil	33.8	120,000
Modoc	210	Perez Overhead No. 3-33; redeck and replace abutments	–	50,000
Monterey	2	San Lucas to 2.5 miles north; reconstruct	2.4	190,000
Monterey	2	John Street to East Market Street in Salinas (portions); grade and structures	0.7	635,000
Monterey	56	Little Sur River Bridge No. 44-20; bridge and approaches	0.7	195,000
Monterey	56	Loma Linda to Watsonville Junction; grade and surface	1.6	285,000
Monterey	56	Redeck Timber Bridges and replace 4 Cattlepasses	–	60,000
Monterey	117	El Estero to Del Monte Junction; grade and surface	1.2	400,000
Napa	49	Oakville to Rutherford; surface	1.8	136,000
Nevada	25	Route 15 to near northwest city limits of Nevada City; grade and surface	1 ±	70,000
Nevada	38	Truckee River Bridge No. 17-11 and Hinton Overcrossing Bridge No. 17-10; reconstruct railing and curb	–	20,000
Plumas	21	Willow Creek Bridge No. 9-13; abutments	–	15,000
Plumas	83	Graeagle Creek Bridge No. 9-29; bridge and approaches	–	85,000
Sacramento, Placer	3, 17	Ben Ali to ½ mile east of Roseville; grade and structures	12.7	2,200,000
Sacramento	11	Alder Creek; grade and structure	–	65,000
Sacramento	11	Antioch Bridge to 1.5 miles northerly; grade, surface and structures	1.5	800,000
Sacramento	98	C Street in Sacramento to Route 3 near Swanston Road; grade, surface, and structures	2.3	1,110,000

Buildings and Plants	3,500,000	4,759,726	1,259,726 [12]
Totals, Capital Outlay	$128,462,358	$132,892,002	$4,429,644
GRAND TOTALS, PROPOSED EXPENDITURES	$160,015,646	$163,675,872	$3,660,226

---

[1] The savings in expenditures for administration anticipates a greater distribution of salaries in both headquarters and district offices to functions other than administration.

[2] Both increases and decreases noted represent adjustments in accordance with the foreseeable expenditure program.

[3] Decrease due to exclusion of operation and insurance expense which are now chargeable against toll revenues pursuant to 1951 Refunding and Improvement Bond Resolution.

[4] A supplemental schedule follows detailing changes in proposed expenditures for major construction.

[5] Increase for recruitment of needed engineering personnel and to cover salary increases.

[6] Unexpended balance of funds under Section 203 of the Streets and Highways Code carried forward from previous fiscal year.

[7] Increases due to receipt of contributions from other agencies on cooperative projects.

[8] Obligations to Joint Highway Districts carried forward from prior budget.

[9] Unencumbered funds under emergency repair program for floods of 1951 carried forward from prior budget.

[10] The 1952-53 Contingency Reserve reflects giving effect in this budget to revision in Department of Finance estimate of revenue for the 1952-53 Fiscal Year.

[11] Unencumbered funds for equipment carried forward from prior budget.

[12] Increase due to unexpended obligations for building and plants repair and minor improvement carried forward from prior year.

---

[1] Increase in administration due to salary increases, higher cost of supplies, and greater office housing cost.

[2] Maintenance expenditure increase over estimated cost due primarily to abnormally high snow removal cost during record snowfall of 1951-52 winter.

[3] Highway planning increase due to increased salaries and material cost and commencement of a state-wide aerial mapping program.

[4] Reduced expenditures because, effective February 1, 1952, the operation of the San Francisco-Oakland Bay Bridge became chargeable against toll revenues pursuant to the 1951 Refunding and Improvement Bond Resolution adopted by the California Toll Bridge Authority November 27, 1951.

[5] Variation between actual and estimated expenditures for these items are normal and do not reflect any change in program.

[6] A supplemental schedule follows detailing differences in actual and estimated expenditures for major construction.

[7] It has not been possible to fully expend the remaining balance of funds made available by Section 203 of the Streets and Highways Code because plans for the work to be undertaken have not been forthcoming from cities.

[8] Demands for minor improvement projects were less than expected, resulting in a decrease from estimated expenditures.

[9] Net decrease in rights of way function due to delay in plans in northern group of counties.

[10] Increase due to expansion program in preliminary engineering and also, to some extent, higher salary and material costs.

[11] Decrease represents commitments to joint highway districts not paid during year, but carried forward to ensuing budget.

[12] Decrease represents unencumbered funds for emergency damage repair program in connections with floods of 1951 carried forward to ensuing fiscal year budget.

[13] The difference in the amount for contingencies represents the net decrease resulting from the various changes in other budget items.

[14] Decrease represents obligations carried forward to ensuing fiscal year budget.

Statement No. 3—Detail of Major Project Allocations for Construction of Highways and Bridges for the 1952-53 Fiscal Year as Revised to October 1, 1952, Compared to Budget Allocations

COUNTY	ROUTE	DESCRIPTION	APPROX. MILEAGE	ESTIMATED COST		
				ORIGINAL	REVISED AS OF 10-1-52	DIFFERENCE
		NORTHERN GROUP OF COUNTIES				
Alameda	5	2 miles east of Redmond Overhead to Greenville; surface	6.7	$175,000	$283,450	$108,450 [9]
Alameda	5	Toll Plaza to west end of Distribution Structure; surface	0.9	25,000	31,700	6,700 [5]
Alameda	5	Between Greenville and Hopyard Road; protective screen planting	–	–	21,505	21,505 [17]
Alameda	69	Fallon Street to Market Street; grade, pave, and structures	1.0	1,810,000	1,810,000	–
Alameda	69	Eastshore Freeway between High Street and 38th Avenue in the City of Oakland; roadside development	–	–	50,000	50,000 [17]
Alameda	69	Eastshore Freeway with Hegenberger Road in the City of Oakland; improve intersection	–	–	75,000	75,000 [7]
Alameda	69	Across San Lorenzo Creek on Hesperian Boulevard; construct bridge	–	–	80,000	80,000 [7]
Alameda	105	East city limits of Oakland to San Leandro Creek; surface and drainage	0.7	140,000	83,766	—56,234 [1]
Alameda	226	Bay Farm Island Bridge; approaches	0.9	250,000	340,000	90,000 [5]
Alameda	227	Route 75 near Lake Temescal to Route 5 (portions) joint Highway District No. 26; grade and surface	–	300,000	300,000	–
Alameda	228	Lewelling Boulevard between Hesperian Boulevard and 4th Street in San Lorenzo; widening	–	–	20,000	20,000 [18]
Amador, Calaveras	65	Mokelumne Hill to Jackson; grade and surface	6.0	450,000	–	—450,000 [4]
Butte	3	Western Drainage Canal Bridge; replace portions	–	10,000	10,000	–
Butte	3	Oroville Wye to 20th Street in Chico; grade	16.5±	835,000	–	—835,000 [4]
Butte	87	Dry Creek Bridge; strengthen	–	13,000	13,802	802 [8]
Calaveras	24	San Joaquin County line to Valley Springs (portions); grade and surface	10±	350,000	350,000	–
Colusa	15	Williams to Colusa (portions); surface	2.4	37,000	36,147	—853 [1]
Colusa	88	High Ditch Bridge and Wilkens Slough Bridge; widen and redeck	–	40,000	24,482	—15,518 [1]
Contra Costa	14	Through Rodeo; surface	–	80,000	70,683	—9,317 [1]
Contra Costa	14	Intersection of San Pablo Avenue (Route 14) with Broadway-Balboa in the City of San Pablo; traffic signals, channelization, and lighting	–	–	11,000	11,000 [11]
Contra Costa	75	Intersection of Tunnel Road (Route 75) with upper Happy Valley Road and Acalanes Valley Road; channelization and lighting	–	–	31,948	31,948 [11]
Contra Costa	75	At Pine Creek; culvert	–	–	22,000	22,000 [12]
Contra Costa	75	Between one mile south of Pacheco and Monument; widen existing highway	–	–	67,689	67,689 [10]
Contra Costa	75	Between Railroad Avenue in Pittsburg and A Street in Antioch; signs and stripe	–	–	6,000	6,000 [13]
Contra Costa	75, 107	Main Street in Walnut Creek, south city limits to north city limits of Concord, and Danville to Southern Pacific Railroad crossing south of Walnut Creek (portions); grade and surface	2.5	200,000	300,000	20,000 [8]
Contra Costa	106	Station 243 to Station 262, at intersection with county road to Avon; raise grade and surface	0.5	80,000		
Contra Costa	107, 75, 106	Danville to Concord (portions) and at Avon Intersection; grade and surface	3.0	–		
Del Norte	1	Foot of Oregon Mountain to the Oregon State line; grade and surface	1.9	120,000	151,000	31,000 [8]
El Dorado	11	Through Placerville; grade and structures	1.5	300,000	400,000	100,000 [8]
El Dorado	11	Between Echo Summit Inn and Upper Truckee River; detour	–	–	55,000	55,000 [10]
El Dorado	93	Across the South Fork of American River at Chili Bar; reconstruct portion of bridge	–	–	40,100	40,100 [10]
Fresno	4	Weber Avenue Separation; structure and approaches	–	110,000	110,000	–
Fresno	4	Between Clinton Avenue and Biola Junction; surfacing	2.6	–	37,181	37,181 [10]

COUNTY	ROUTE	DESCRIPTION	APPROX. MILEAGE	ESTIMATED COST ORIGINAL	ESTIMATED COST REVISED AS OF 10-1-52	DIFFERENCE
		SOUTHERN GROUP OF COUNTIES—Continued				
Tulare	129	Across Tule River; reconstruct portion of bridge	–	–	$18,000	$18,000
Ventura	2	Calleguas Road to Central Avenue; structure	–	$600,000	600,000	–
Ventura	138	Near Oakview Avenue to junction Route 151; grade and surface	2.3	65,000	48,661	—16,339 [1]
		Totals, Southern Group of Counties	–	$36,130,000	$38,477,813	$2,347,813
		Totals, Northern Group of Counties	–	$35,963,000	$34,715,882	—$1,247,118
		Totals, Southern Group of Counties	–	36,130,000	38,477,813	2,347,813
		TOTALS, MAJOR PROJECT ALLOCATIONS	–	$72,093,000	$73,193,695	$1,100,695

REASONS FOR REVISIONS

[1] Savings—funds in excess of budget requirements.
[2] Project deferred to subsequent fiscal year in order to provide time to clear right of way.
[3] Project deferred to finance more critical work.
[4] Decrease, project or portion of project financed from other funds.
[5] Decrease due to redesign of project.
[6] Project deferred because of excessive bid prices.
[7] Additional project added as a result of safety studies.
[8] Additional funds required because of increased construction costs or low budget estimate.
[9] Additional funds required because of revision of design standards or scope of work.
[10] Additional project to improve deficient roadway or structure.
[11] Additional project to eliminate hazardous traffic conditions.
[12] Additional project to improve drainage.
[13] Additional project to install traffic regulatory or safety devices.
[14] Additional project to reduce damage to highways caused by overloads.
[15] Additional fund or project required because of winter storm damage.
[16] Additional project to reconstruct roadway in slide area.
[17] Additional project to complete construction initiated in a prior budget.
[18] Additional project to relieve traffic congestion.
[19] Additional project to provide a winter traffic detour.
[20] Additional project to replace a deteriorated or destroyed structure.
[21] Additional project to repair a deteriorated structure or roadway.
[22] Additional project to improve a low standard road (requested by county to use Federal Aid Secondary Funds).
[23] Additional project to provide for erosion control and roadside delineation.
[24] Additional project to place seal coats on recently completed surfacing.

REASONS FOR REVISIONS

[1] Savings—funds in excess of budget requirements.
[2] Project deferred to subsequent fiscal year in order to provide time to clear right of way or complete plans.
[3] Project deferred to finance more critical work.
[4] Decrease, project or portion of project financed from other funds.
[5] Decrease due to redesign of project.
[6] Project deferred because of excessive bid prices and failure to clear right of way or to reach agreement with local agency.
[7] Additional project added as a result of safety studies.
[8] Additional funds required because of increased construction costs or low budget estimate.
[9] Additional funds required because of revision of design standards or scope of work.
[10] Additional project to improve deficient roadway or structure.
[11] Additional project to eliminate hazardous traffic conditions.
[12] Additional project to improve drainage or for flood or erosion control.
[13] Additional project to install traffic regulatory or safety devices.
[14] Additional project to control traffic.
[15] Additional funds or project required because of winter storm damage.
[16] Additional project to reconstruct roadway in slide area.
[17] Additional project to complete construction initiated in prior budget.
[18] Additional project to relieve traffic congestion.
[19] Additional project to provide funds for work ineligible for expenditures of federal funds on a federally financed construction project.
[20] Additional project to replace a deteriorated or destroyed structure.
[21] Additional project to repair a deteriorated structure or roadway.
[22] Additional project to improve a low standard road (requested by county to use Federal Aid Secondary Funds).
[23] Additional project to provide for erosion control and roadside delineation.
[24] Additional project to place seal coats on recently completed surfacing.
[25] Additional project to advance a project budgeted for subsequent fiscal year.
[26] Additional project made necessary by dam construction, financed in whole or in part by another agency.

Repayments of loan advanced to San Francisco-Oakland Bay Bridge for approaches	6,519,849	–	–
Total Receipts, State Highway Fund	$192,071,178	$193,007,925	$199,727,290

---

[1] Revised estimates for this item based on Department of Finance revenue estimates, adjustment for which are as follows: gasoline tax, +$2,640,856; motor vehicle fees, +$3,991,323; use fuel tax, —$288,925; transportation tax, +$994,565.

[2] Revenue from contributions cannot be estimated in advance and is taken into budget as the projects concerned are placed under work order.

[3] Revisions in federal aid adjust the estimated revenues to actual apportionments.

[4] Full repayment $6,519,849 for San Francisco-Oakland Bay Bridge approaches was made in 1951-52 Fiscal Year.

[5] Represents estimated income from investment of State Highway Funds and is additional to investment of Highway User Tax funds administered by State Controller.

[a] Contributions reported here consist of funds received or to be received other than State Highway Fund moneys, and the expenditure of these funds is reflected as an augmentation of the "Capital Outlay" section.

FLOOD CONTROL AND WATER CONSERVATION PROGRAM

Analysis

The 1953-54 Budget proposal continues the program of the Reclamation Board for acquisition of rights of way for the construction of flood control works by the Federal Government. Proposed projects are based upon the budget of the Corps of Engineers, United States Army, and include continuation of the Sacramento and San Joaquin Flood Control Projects.

Expenditures From Budget Act Appropriation:

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54
Sacramento River Flood Control Project:			
Advances to U. S. Engineers (FCF)	$300,000	$300,000	–

WATER PROJECT AUTHORITY

Created by Chapter 1042, Statutes of 1933, to finance, construct, operate and administer the then proposed Central Valley Project. The Water Project Authority was appropriated moneys by the 1952 Legislature "to conduct surveys and studies preliminary to the acquisition by the State of the Central Valley Project upon a self-liquidating basis."

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	
FLOOD CONTROL AND WATER CONSERVATION PROGRAM				
Analysis				
Number of positions	–	*22*	*25*	*3*

Funds were provided by Item 428.5, Budget Act of 1952, to finance studies and surveys preliminary to the possible acquisition of the Central Valley Project by the State. The balance of the appropriation after financing preliminary work was made available for the initial installment of any acquisition agreement negotiated. All moneys provided from the General Fund are subject to repayment from the proceeds of the first sale of any revenue bonds issued for the acquisition of Central Valley Project properties. Acquisition is to be upon a self-liquidating basis.

The 1953-54 Fiscal Year budget continues the program of surveys and studies initiated during the current fiscal year. The increase of $65,234 in salaries and wages is represented by the anticipated full year employment of the legal, engineering, and clerical staff approved in November 1952.

Funds were authorized by Item 263.8, Chapter 3, Statutes of 1952 for employment of legal counsel and expenses in connection with such employment. At present no expenditure is anticipated from this source.

DEPARTMENT OF VETERANS AFFAIRS

Veterans' Home of California

GENERAL ANALYSIS

Due to the advance in age of veterans of World War I and the great number of World War II veterans in California, the demand for hospitalization and domiciliary care will continue an upward population trend. The future maximum membership planned for the Veterans' Home is a bed capacity of 3,250 to include 550 hospital and receiving beds, 700 chronic and convalescent beds, and 2,000 domiciliary beds. The 1953-54 Budget request will provide total capacity of 2,409 in 1955-56.

SUMMARY OF POPULATION AND CAPACITY

TYPE OF CAPACITY	Actual June 30, 1952	Estimated June 30, 1953	Estimated June 30, 1954	Estimated June 30, 1955	Estimated June 30, 1956	Estimated June 30, 1957
Population	1,515	1,673	1,743	1,900	2,020	2,250
Bed Capacity:

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54

PRELIMINARY PLANS, INCREASED COST OF CONSTRUCTION AND MISCELLANEOUS REPAIRS AND IMPROVEMENTS

Analysis

The amount proposed for increased costs of projects will be allocated to projects when the lowest bid on a project is in excess of the funds made available for the specific project. It is estimated that the balance will be allocated to meet the increased cost of those projects proposed to be undertaken during the Fiscal Year.

The amount proposed for miscellaneous repairs and improvements will be allocated for expenditure during the Fiscal Year.

The amount proposed for preliminary plans will be allocated to state agencies for the preparation of such schematic diagrams of contemplated new construction projects as will enable scope determination of the project and more accurate cost estimates prior to proposed appropriations for working drawings and construction.

Capital Outlay and Savings Fund

CAPITAL OUTLAY EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54
Preliminary plans	–	–	$949,950
Increased cost of construction	–	$7,423,965	8,500,000
Major construction, improvements, repairs, and equipment	–	95,477	–
Miscellaneous repairs and improvements	–	774,080	500,000
TOTAL EXPENDITURES, UNALLOCATED *(COSF)*	–	$8,293,522	$9,949,950

RECONCILIATION WITH APPROPRIATIONS

Part III. Local Assistance Section

SUBVENTIONS

For Education:

Apportionments for Public Schools
Vocational Education—Reimbursements to School Districts
Child Care Centers
Housing and Equipment for Education of Cerebral Palsied Children
School Building Construction
Debt Service on Public School Building Bonds
Contribution to Teachers' Retirement System
School Lunch Program
Free Textbooks

For Public Health:

Aid to Local Health Departments
Assistance to Counties for Tuberculosis Sanatoria
Assistance to Counties for Care of Crippled Children
Assistance to Counties for Care of Children Suffering From Rheumatic Fever and Rheumatic Heart Disease
Assistance to School Districts for the Treatment of Cerebral Palsied Children
Assistance to Local Agencies for Mosquito and Gnat Control
Assistance to Local Agencies for Hospital Construction

For Public Works:

County Roads and Highways
Flood Control
Sacramento Deep Water Channel
Postwar Public Works Projects
Veterans Housing
Storm and Flood Damage Repairs
Earthquake Damage Repairs

For Social Welfare:

Old Age Security
Aid to the Needy Blind
Aid to Partially Self-Supporting Blind
Aid for Institutional Care of Needy Aged and Blind
Aid to Needy Children
County Administration of Assistance Programs
Local Inspection of Homes and Agencies Caring for Aged and Children
Reimbursements to Counties for Administration and Care of Adoptions
County Administration of Child Welfare Services
Transportation of Needy Children

For Other Purposes:

Salaries and Superior Court Judges
Contributions to Judges' Retirement Fund
County Veterans Service Officers
County Agricultural Commissioners
Workmen's Compensation for Disaster Service Workers
Aid for County Juvenile Homes and Camps
Aid to County Agricultural and Citrus Fairs

SHARED REVENUES

For General Government:

- Apportionment of Liquor License Fees
- Apportionment of Motor Vehicle License Fees (in lieu tax)

For County Roads:

- Apportionment of Motor Vehicle Fuel Taxes
- Apportionment of Motor Vehicle Registration and Weight Fees

For County Airports:

- Apportionment of Motor Vehicle Fuel Taxes

For City Streets:

- Apportionment of Motor Vehicle Fuel Taxes

GENERAL ANALYSIS

Article IX, Section 6 of the Constitution, as amended November 4, 1952, fixes a payment of $180 per pupil in average daily attendan during the preceding school year for public school support. This compares with $120 per average daily attendance required by t former Article IX, Section 6 of the Constitution. Although the guarantee under the former provisions of the Constitution was $1 per average daily attendance, appropriations for special purposes raised the allocation to approximately $147. The change to $180 p average daily attendance increases the appropriation by $33 per average daily attendance or approximately $67 million, based on t anticipated average daily attendance of 2,040,000 in 1952-53 on which the appropriation for 1953-54 is estimated.

As most of the statutes requiring appropriations for special purposes expire July 1, 1953, no attempt has been made to distribute the $1 per average daily attendance by program. Rather it is shown as a lump sum to be distributed in accordance with legislative acti

The average daily attendance of 2,040,000 anticipated for 1952-53 is an increase of 135,074 or 7.1 percent over 1951-52.

---

[a] The statutes establishing these allowances do not expire June 30, 1953. It is recommended that the apportionments for this purp be made available out of the appropriation of $180 per average daily attendance.

State School Fund	*3,615,675*	*3,500,000*	*3,500,000*

[a] A mistake in computing the tax rate in one district required an emergency appropriation from the General Fund of $68,787. This money is to be repaid in four installments by withholding the amount from yearly apportionments.

[b] Excess apportionments were made amounting to $611,860 in 1950-51 and $184,417 in 1951-52, and like amounts are withheld from apportionments in 1951-52 and 1952-53 by authority of Section 7190 of the Education Code.

[c] $211,790 was withheld from payment in 1950-51 due to a court action. The court case has now been decided and payment is to be made during 1952-53.

[d] A supplemental apportionment for growth was made August 6, 1952, for the 1951-52 Fiscal Year. Actual payment is to be made during 1952-53.

GENERAL ANALYSIS

Child care centers are established where a demonstrated need is shown for the care of minor children whose parents are working, or incapacitated by illness or other disability. Chapter 1263, Statues of 1951 further provides for state support of these centers through June 30, 1953. It is proposed that this be extended.

Balance available in subsequent years	—682,114	—932,114	—1,000,000
TOTAL EXPENDITURES	—$96,651	—$250,000	—$67,886

GENERAL ANALYSIS

The State Allocation Board, under the provisions of this program, apportions money to local school districts which are impoverished to the extent that their tax was within one-half cent of the legal maximum, and their bonded debt exceeded 95 percent of the amount permitted by law.

A total of $55,000,000 for construction of school buildings was provided for applications made prior to December 31, 1953.

The unused balance of allocations that are being returned from the school districts now exceeds the allocations being made for costs that have exceeded estimates. It is anticipated that savings will result in an unused balance of $1,000,000.

---

[a] Cost of administration of child care centers for 1952-53 and 1953-54 is financed by separate Budget Act appropriation under State Operations.

Balance available in subsequent years	–	–	–
TOTAL EXPENDITURES	–	$20,000,000	–

GENERAL ANALYSIS

The appropriation of $20,000,000 was made available for transfer from the General Fund in augmentation of the School Building Aid Fund to be used for allocation to school districts for construction of school buildings. The terms and provisions of the allocations are the same as those made under the bond fund program.

This appropriation, together with the amount of bonds authorized to be issued, will provide $185,000,000 for loans to school districts.

TOTAL EXPENDITURES ALL FUNDS	$4,951,125	$9,711,250	$13,884,750

GENERAL ANALYSIS

Chapter 922, Statutes of 1949, authorized a $250,000,000 bond issue to provide funds to be allocated to school districts for construction of public school facilities, with the provision that the allocations would be repaid to the State contingent upon the financial ability of the school district determined by the relationship of the bonded indebtedness to the assessed valuation of the district.

Chapter 28, Statutes of 1952, authorizes a $185,000,000 bond issue for the same purpose and with provisions similar to the previous issue. However, only $165,000,000 of this issue will be sold as $20,000,000 is reserved to be sold only if the General Fund surplus as of June 30, 1953, is less than $5,000,000. Receipts from sale of any part of the $20,000,000 is only available for transfer to the General Fund to assure a surplus of $5,000,000. It is estimated that no part of the amount reserved will be sold as the General Fund surplus as of June 30, 1953, is estimated to be in excess of $5,000,000.

Interest and redemption charges on the school bonds are initially paid from the General Fund. Any moneys in the bond funds which were derived from premium and accrued interest on bonds sold, interest earned on investment of funds not yet allocated, and from repayments from school districts, are available for transfer to the General Fund. These transfers are accounted as offsets against the General Fund debt service charges.

The School Bond Retirement Fund was established by the transfer of $50,000,000 from the General Fund. This fund is to be used as a reserve for payment of part of the annual retirement charges on school building bonds.

---

[a] Bond fund. Neither receipts nor expenditures are included in the over-all budget totals.

TOTAL EXPENDITURES	$16,389,560	$18,522,000	$22,166,800

GENERAL ANALYSIS

The State Teachers' Retirement System by 1953-54 will contain 135,000 active members, with an additional retired roll of 15,000 members. Since July 1, 1944, members' contributions have been actuarially sound. State contributions are appropriated on a cash need each year, rather than as allowances accrued prior to retirement.

Federal Grants:			
For school lunches	$2,994,430	$3,000,000	$3,000,000

GENERAL ANALYSIS

Under the Federal School Lunch Act, federal funds are distributed to school districts offering approved lunches to children, on a partially reimbursing basis. It is anticipated that 3,000 participating public and private schools will receive allotments in 1953-54.

---

[a] The State's annual contribution to the Teachers' Permanent Fund is an amount determined actuarially, equal to as much of the benefits to be paid therefrom during the year as is not provided by the contributions for service after July 1, 1944, of members receiving such benefits plus the contributions of employing agencies during the year.

[b] The State's annual contribution to the Retirement Annuity Fund is an amount, determined actuarially, equal to:

(1) The benefits to be paid during the year on account of service prior to July 1, 1944 plus

(2) As much of the benefits to be paid during the year on account of service after July 1, 1944, as is not provided by the contributions of members receiving such benefits.

[c] Grants from the Federal Government and expenditures therefrom are not included in the over-all budget totals.

Section 1151 of the Education Code requires the State Board of Education to adopt and provide one or more basic books in the prescribed courses of instruction in elementary schools for each student. Supplementary texts may also be furnished. The adoption of basic and supplemental readers for grades 1 to 5 during the budget year is responsible for the increase in operating expenses, partially offset by a reduction in royalty costs. The increase in equipment is to provide materials-handling equipment expected to keep labor costs at a minimum.

TOTAL EXPENDITURES, ALL FUNDS	$3,441,183	$3,628,513	$3,958,158

GENERAL ANALYSIS

These federal and state funds are allocated to qualified health departments to provide effective public health services. State funds are allocated to county health departments in accordance with Sections 1100-1156 of the Health and Safety Code, which provide that such health departments must comply with the minimum standards established by the State Board of Public Health.

The General Fund provision is based on a formula of 60 cents per capita or $16,000, whichever is less, as the basic amount, plus a per capita amount of 20.735401 cents. The 1953-54 amount of $3,201,522 is calculated on the basis of a July 1, 1953 population estimate of 11,870,000 with the expectation that it will be distributed on that basis. The federal amount is distributed on the same basis as the state funds with the exception of small amounts allocated to special projects. During the 1952-53 Fiscal Year $15,575 is budgeted to continue the research project at Fresno, into diarrheal diseases.

---

[a] Does not include provision for 74 therapists included in support budget, Bureau of Crippled Children Services.

[b] Includes the items for Assistance to Counties for Care of Crippled Children, Assistance for Care of Children with Rheumatic Fever and Rheumatic Heart Disease, and the item formerly shown in the support budget for Cerebral Palsy Care and Appliances.

[c] Included in item Assistance to Counties for Care of Crippled Children.

[d] Neither receipts nor expenditures of federal grants-in-aid are included in the over-all budget totals.

TOTAL EXPENDITURES, GENERAL FUND	$882,917	$3,000,000	$3,000,000

GENERAL ANALYSIS

This budget provides funds for a state program for handicapped children, as authorized by Sections 249-271 of the Health and Safety Code. The code provides that whenever the parent or guardian of the child is unable to finance necessary care, a designated agency of the county shall authorize the State to furnish such services. Further, it makes mandatory that each county appropriate not less than one-tenth mill on each dollar of assessed property valuation for the purpose of financing the prorgam.

This item represents a consolidation of three items in previous budgets: Assistance to Counties for Care of Crippled Children; Assistance to Counties for Care of Children Suffering From Rheumatic Fever and Rheumatic Heart Disease; and an item from the support budget for the care of children suffering from cerebral palsy. During the past years through 1951-52, distribution of funds for the first two items have been governed by separate distribution formulas, established by administrative regulation. These formulas were as follows:

A. Basic Care of Crippled Children
  1. The local 1/10 mill appropriation must be entirely expended first.
  2. State funds will then be available to augment the local appropriation (Item 1 above) in an amount equal to 1/20 mill.
  3. When the local appropriation, plus the sum provided by the state augmentation in Item 2 above has been expended, each county will be allocated $20,000 "Emergency Fund" which will act as a "cushion" primarily for smaller counties whose combined 1/10 mill and state augmentation is insufficient to provide care for the children eligible.
  4. Any additional appropriation over the 1/10 mill made by the counties will be matched dollar for dollar, to a maximum of $20,000 of additional state funds per county.

---

[e] Includes the items for Assistance to Counties for Care of Crippled Children, Assistance for Care of Children with Rheumatic Fever and Rheumatic Heart Disease and the item formerly shown in the support budget for Cerebral Palsy Care and Appliances.

SUBVENTIONS FOR PUBLIC HEALTH—Continued

SUBVENTION EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	ESTIMATED 1953-54

Assistance to Counties for Care of Crippled Children—Continued

GENERAL ANALYSIS—Continued

B. Care of Children Suffering From Rheumatic Fever and Rheumatic Heart Disease

1. State funds are available for each county in an amount equal to 1/30 mill.
2. When this sum has been expended each county will be allocated $10,000 (emergency fund) which will act as a cushion primarily for smaller counties whose funds are insufficient to take care of children eligible.
3. Additional appropriation made by the counties is matched dollar for dollar to a maximum of $20,000 additional state funds per county.

The primary purpose of these formulas was to provide a maximum limit to the program. Neither of these formulas distributed funds relative to need.

To provide a transition from the above formula (1951-52 and prior) and to prevent a repetition of the request for deficiencies which resulted from one or both of these formulas during past years, a lump sum appropriation of $3,000,000 was budgeted within which amount the total state program for 1952-53 is being conducted. Ninety-two percent of the appropriation has been allocated to the individual counties by an administrative appraisal of need. The remainder of 8 percent will be distributed to cover emergency situations. State funds are being made available to counties only after the county has expended the one-tenth mill required by law, or an amount equal to its 1951-52 expenditures, whichever is greater. All counties have been notified that allocations during this year should not be considered to establish a precedent.

A like amount of $3,000,000 is budgeted with the same restrictions as on the 1952-53 appropriation because of the lack of a formula at this time. It is hoped that there will be an expression of legislative policy with respect to whether there should be a formula and if so, the direction it should take.

The estimated cost of the total crippled children's program is shown in the following table:

SUBVENTION EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	ESTIMATED 1953-54
Estimated Grand Total Program Cost	$4,196,403	$5,993,515	$6,077,205

TOTAL EXPENDITURES, GENERAL FUND	$38,373 [g]	$375,000	$439,653

GENERAL ANALYSIS

This budget provides funds which will permit the department to enter into contracts with local school districts for the employment of therapists for classes for cerebral palsied children. The 1952-53 appropriation included $86,832, the same amount as provided in 1951-52, for the employment of 27 therapists by local districts and an amount of $302,694 for the expenses and employment of 74 therapists by the Department of Public Health. The 74 positions were formerly shown in the support budget for the Bureau of Crippled Children's Services. The 1953-54 Budget provides funds for financing 101 therapists in total of which about 32 will be employed by local districts and 69 will be employed by the Department of Public Health. It is intended that all such personnel will be transferred to local agency pay rolls as soon as feasible.

SUBVENTION EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	ESTIMATED 1953-54
Assistance to school districts and costs to the State for the employment of therapists	$38,373 [g]	$375,000	$439,653

Assistance to Local Agencies for Mosquito and Gnat Control

RECONCILIATION WITH APPROPRIATIONS

SUBVENTION EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	ESTIMATED 1953-54
Budget Act appropriation	$400,000	$400,000	$400,000
Unexpended balance, estimated savings	—1,669	–	–
TOTAL EXPENDITURES, GENERAL FUND	$398,331	$400,000	$400,000

GENERAL ANALYSIS

Section 2426 of the Health and Safety Code authorizes the Department of Public Health to enter in cooperative agreements with local districts or public agencies engaged in controlling of mosquitoes and gnats. The costs of this program are distributed between the support and subvention budgets.

SUBVENTION EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	ESTIMATED 1953-54
State operations	$255,375	$269,132	$275,954
Subventions	398,331	400,000	400,000
Totals, State Funds	$653,706	$669,132	$675,954
Local funds budgeted	1,558,400	1,558,400	1,750,000
Estimated Total Program	$2,212,106	$2,227,532	$2,425,954

Approximately 62 percent of the subvention funds are distributed by formula and the balance is allocated for technical and administrative services, and special allocations as shown in the following table:

SUBVENTION EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	ESTIMATED 1953-54
Distributed by formula	$245,850	$250,000	[h]
Technical and administrative	100,050	96,500	[h]
Special allocations	52,431	53,500	[h]
Total	$398,331	$400,000	$400,000

Of the special allocations, $25,000 was allocated for special studies in 1951-52, and $25,000 in 1952-53. These funds were allocated to the following Mosquito Abatement Districts for these studies:

SUBVENTION EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	ESTIMATED 1953-54
Kern	$6,100	–	–
Sutter-Yuba	8,900	$12,060	–
Turlock	–	–	–
Fresno	10,000	12,140	–
San Joaquin	–	800	–
Totals	$25,000	$25,000	–

During 1952-53 an additional amount of $250,000 was allocated from the Emergency Fund and savings to combat an encephalitis epidemic in the Central Valley area. This allocation was made through the support budget and is not included in the totals shown here.

SUBVENTION EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	ESTIMATED 1953-54
Assistance to local agencies, not in excess of 50 percent of the cost in the work of controlling mosquitoes	$398,331	$400,000	$400,000

---

[g] Does not include provision for 74 therapists included in support budget, Bureau of Crippled Children's Services.

[h] Not determined.

Federal Funds	*3,719,192*	*2,720,235*	*3,329,131*

GENERAL ANALYSIS

This program is authorized by the California Hospital Survey and Construction Act (Section 430-435.7 of the Health and Safety Code) which provides for state participation in the federal hospital construction program. Because of the shortage in hospital facilities, state funds are budgeted for 1953-54 to fulfill the matching requirements of the estimated federal contribution. The amount proposed is limited to the estimated matching requirements for construction of publicly owned hospitals and health center facilities.

	ACTUAL 1951-52	ESTIMATED 1952-53	ESTIMATED 1953-54
Assistance to local agencies in the construction of publicly owned hospital and health center facilities, to be expended under the provisions of the California Hospital Survey and Construction Act—not more than one-third from state appropriations, not more than one-third from federal grants and the balance from local funds or other sources	$6,260,754	$4,344,489	$4,869,131
General Fund	*2,541,562*	*1,624,254*	*1,540,000*
Federal Funds	*3,719,192*	*2,720,235*	*3,329,131*

---

[1] In 1952-53, allocations from the General Fund amounted to approximately $532,000 in excess of available appropriations for which formal contracts will not be executed until 1953-54. A similar procedure is proposed for 1953-54 and it is estimated that General Fund allocations necessary to match available Federal funds will amount to $650,000 more than the proposed appropriation, to be formalized by contracts in 1954-55.

PROJECT DETAIL

Analysis

Since 1940, the State has participated, on a matching basis with local government units, in the repair of damage caused by storm and flood in instances where such repair is of public interest.

SUBVENTIONS FOR SOCIAL WELFARE—Continued

SUBVENTION EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	ESTIMATED 1953-54

Old Age Security (Assistance)—Continued

GENERAL ANALYSIS

This is a public assistance program financed by county, state, and federal governments. Assistance is provided to persons who do no have resources in sufficient amount to meet their needs and meet certain other requirements such as age, citizenship, residence property, etc. The Social Security Act amendments of 1952 (H. R. 7800) increased the benefits under the Old Age and Survivor Insurance System and increased the federal participation in categorical aid payments. This increase of benefits results in a decreas in the average monthly sharing by the State, but a net increase of the average monthly payment to the recipients as the federa increase in the categorical aids was passed on by state legislative action.

TOTAL EXPENDITURES	$8,947,512	$9,769,900	$10,397,400

GENERAL ANALYSIS

This is a public assistance program in the form of financial help paid by the county, state, and federal governments to persons wh because of loss or impairment of sight are unable to provide themselves with the necessities of life, and who meet certain addition eligibility requirements. The Social Security Act amendments of 1952 (HR 7800) increased the benefits under the Old-Age an Survivors Insurance System and increased the federal participation in categorical aid payments. This results in a net increase the average monthly payment to the recipients as the federal increase in the categorical aids was passed on by state legislativ action.

SUBVENTIONS FOR SOCIAL WELFARE—Continued

Aid To Partially Self-Supporting Blind (Assistance)

RECONCILIATION WITH APPROPRIATIONS

General Fund

SUBVENTION EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	ESTIMATED 1953-54
Continuing appropriation to counties for aid to partially self-supporting blind persons, prescribed by Section 3420, Welfare and Institutions Code	$453,197	$456,700	$463,700

GENERAL ANALYSIS

This is a public assistance program in the form of financial help paid by the county and state governments to persons who, because of loss or impairment of sight, are unable to fully provide themselves with the necessities of life but are working on a plan for self support. This program is administered by county welfare departments and supervised by the State Department of Social Welfare. The Federal Government does not participate in this program. Decrease in number of cases from 1951-52 to 1952-53 was due to liberalization of the federal program for aid to needy blind by the allowance of up to $50 per month income by recipients and the consequent transferring of some partially self-supporting blind cases to the needy blind program. The grant of aid to partially self-supporting blind persons was increased by state legislative action to match the amount of the increased grant of aid to needy blind persons. This results in an increase of the average monthly payment to the recipients during 1952-53 and 1953-54.

GENERAL ANALYSIS

Under the provisions of the Welfare and Institutions Code, for each person receiving assistance who enters a hospital or institution for medical care at county expense, the State's share of the assistance is paid by the State to the county. This payment is made during the period following the first two calendar months of confinement, and during the period of this payment the individual does not receive assistance payments.

TOTAL EXPENDITURES	$62,668,941	$63,752,900	$64,421,700

GENERAL ANALYSIS

This is a public assistance program financed by county, state, and federal governments. The primary purpose of the program is to provide family security and financial assistance for needy children, including unborn children, who are deprived of parental support or care. The program is designed to keep children in a setting of their own family and to enable parents to continue responsibility for the family living plan. If it is not possible for a child to live with his own family, the program aims to provide the best substitute care in the home of a relative, in a foster home, or in a children's institution. The program is administered by county welfare departments and supervised by the State Department of Social Welfare. Public Law 734 (H. R. 6000) increased the federal share due to the participation in assistance for caretakers, and the Social Security Act amendments of 1952 (H. R. 7800) increased the federal participation in categorical aid payments. This results in a decrease in the average monthly sharing by the State, although the net average monthly payment is larger due to increases in cost of living.

GENERAL ANALYSIS

This provides for the reimbursement of expenses incurred by counties and cities in maintaining approved services for the licensing and inspection of agencies for child care and home finding, and agencies for the care of the aged in accordance with the provisions of Sections 1622 and 2302 of the Welfare and Institutions Code. This reimbursement is in the amount found necessary by the State Department of Social Welfare for proper and efficient administration, but not to exceed $4 per month per license to June 30, 1952. Effective July 1, 1952, this reimbursement will not exceed in any fiscal year an amount averaging $4 per month per license as provided by Chapter 1696, Statutes of 1951.

Unexpended balance, estimated savings	—429,101	–	–
TOTAL EXPENDITURES	$708,926	$1,064,322	$1,434,945

GENERAL ANALYSIS

The 1947 Session of the Legislature passed various adoption laws which gave the State Department of Social Welfare power to license county adoption agencies to accept relinquishments and perform the home-finding and placement functions previously carried entirely by the private adoption agencies, and to investigate and report on petitions filed independently, previously the sole responsibility of the department. Licensed county agencies are reimbursed by the State for all the administrative costs of the adoption program, and up to $200 on the average per child for the costs of caring for the child following relinquishment and prior to placement not collected from the adopting parents. Counties may collect from the adopting parents a fee equal to the cost to the county for the care of the child from the time of relinquishment until placement for adoption, but not to exceed $200.

It is estimated that, during the 1953-54 Fiscal Year, licensed counties will handle approximately 4,903 adoption cases (children) which will be subject to reimbursement. Of these children 2,652 will be independent cases involving county administrative expense only and the remaining 2,251 will be relinquishment cases involving county administrative expense; approximately 1,013 placements will involve cost of care. These estimates are based on the assumption that additional counties will be licensed as public adoption agencies.

In the event that counties are not licensed as anticipated, provision has been made in the Budget Bill for transferring to the Department of Social Welfare support appropriation the amount necessary for the State to investigate and report on independent adoptions.

Salaries of Superior Court Judges

Under the provisions of Section 79 of the Code of Civil Procedure, the State contributes $7,500 per year towards the salary of each judge of the superior courts. During the 1951-52 Fiscal Year, the State's contribution was increased from $5,750 to $7,500. The amount budgeted is to provide this amount for each of the 207 judges authorized by existing law.

County Veterans Service Officers

In accordance with the provisions of Sections 970-973 of the Military and Veterans Code, the State reimburses the counties for part o the cost of county services maintained for assistance to veterans and the dependents of deceased veterans. The amount paid eac county, conditioned upon the observance of certain standards and regulations, is determined by the Veterans' Welfare Boar except that the payment toward the salary of the county service officer shall not exceed $75 per month. Payments are also mad for partial cost of assistants' salaries and operating expenses.

Expenditures are approximately 45 percent state and 55 percent county. All counties except Alameda, Alpine, Los Angeles, Sa Francisco, and Sutter have established county service officers.

No increase over the current year is contemplated since the California Veterans' Board has determined that maximum annual payment shall not exceed $350,000.

GENERAL ANALYSIS

Under the provisions of Sections 950 through 960 of the Welfare Institutions Code, the board of supervisors of any county may establish juvenile homes, ranches or camps. Wards are committed by the juvenile courts to these facilities in lieu of committment to the Youth Authority.

Certain standards prescribed by the Youth Authority must be met by the counties before they are entitled to receive any state funds.

Reimbursement to counties are made fore one-half of operating costs, but not in excess of $80 per month per child. There is no limit as to the number of camps for which any one county may be reimbursed.

The 1953-54 amount provides for the full year operation of the new Santa Clara County camp to be established in February, 1953.

Part IV. Appendix

Treasury Funds Not Included in Budget Totals

I UTILITY FUNDS

Department of Education:
- College Auxiliary Enterprise Fund

Department of Industrial Relations:
- Compensation Insurance Fund

Board of State Harbor Commissioners for San Francisco Harbor:
- San Francisco Harbor Improvement Fund

Veterans Affairs:
- Veterans' Farm and Home Building Fund of 1943

II WORKING REVOLVING FUNDS

Department of Corrections:
- Correctional Industries Revolving Fund

Department of Education:
- Surplus Educational Property Revolving Fund
- Workshops for the Blind Manufacturing Fund

Department of Finance:
- Printing Fund
- Purchasing Revolving Fund

Public Health:
- Water Pollution Control Fund

Department of Natural Resources:
- Soil Conservation Equipment Revolving Fund

Department of Professional and Vocational Standards:
- Special Deposit Fund—Business and Professions Building Account

Department of Public Works:
- Architecture Revolving Fund
- Water Resources Revolving Fund

III TRUST, FEDERAL, AND OTHER FUNDS

Department of Corrections:
- Inmate Welfare Fund

Department of Employment:
- Unemployment Administration Fund
- Unemployment Compensation Disability Fund
- Department of Employment Contingent Fund
- Unemployment Fund
- Federal Aid Funds

Department of Finance:
- Impounded Tide and Submerged Lands Revenue Account

Retirement Funds:
- Judges' Retirement Fund
- State Employees' Retirement Fund
- Legislators' Retirement Fund
- Teachers' Permanent Fund
- Retirement Annuity Fund
- Teachers' Annuity Deposit Fund

IV SUNDRY OTHER FUNDS (See Explanations)

CLASSIFICATION OF TREASURY FUNDS NOT INCLUDED IN BUDGET TOTALS

Funds in the State Treasury not included in the budget totals are those which do not contribute nor reflect expenditures of state moneys.

Such funds are grouped as follows:

1. **UTILITY FUNDS** operate under state control for the benefit of the public and derive their resources from charges to those who use the service, and are not supported from taxes or other state revenues. They are not functions subject to the regulatory or police powers of the State.

2. **WORKING REVOLVING FUNDS** are created to finance services for governmental agencies for which charges are made at cost to maintain a fixed accountability. The charges are reflected as expenditures in the budget of the agency receiving the commodity or service.

3. **INTEREST AND SINKING FUNDS** are created to accumulate moneys from transfers or investments, to be used for payment of interest and redemption of bonds. The cost of these payments is accounted as a debt service expenditure of the state fund from which such moneys are transferred.

4. **BOND FUNDS** hold proceeds from sale of bonds and finance projects for which the bonds were authorized. The cost to the State is accounted as a debt service expenditure at the time the bonds are redeemed, or interest payments are made.

5. **ASSESSMENT FUNDS** are created to finance projects for which charges are assessed against the property or individuals who are benefited by the project.

6. **TRUST, FEDERAL, AND OTHER FUNDS** include those funds holding moneys in trust pending disbursement to trustors, moneys received from the Federal Government to be expended for specific purposes, and other funds which do not derive their resources from taxes or other state revenues, or are in the nature of temporary funds created for the convenience of accounting receipts or disbursements which are not necessarily revenues or expenditures.

Department of Education

STATE COLLEGE HOUSING FACILITIES

EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53

During the fall of 1946 the Federal Public Housing Administration provided temporary housing facilities for veteran students at Chico, Fresno, Humboldt, San Diego, San Francisco, and San Jose State Colleges. These facilities were operated by the various colleges by agreement with the FPHA from 1946 until October 31, 1948, at which time title to all facilities was transferred to the State by Public Law 796 of the 80th Congress, and their operations were financed through the General Fund support appropriation of the individual colleges as an interim measure.

On August 1, 1949, Chapter 1485, Statutes of 1949, established the College Auxiliary Enterprise Fund, to which was transferred the excess of income over expenditures for prior operations. All rents, charges, and fees are paid into this fund, and are appropriated therefrom to the Department of Education for maintenance, repairs, and operation of student housing facilities. Funds may also be expended for construction. The facilities provide housing for veterans or other students at established rates. The units available at each college are listed below:

Chico State College	57 family dwelling units 66 dormitory units (140 individuals)
Fresno State College	52 family dwelling units 47 dormitory units (73 individuals)
Humboldt State College	30 family dwelling units 73 dormitory units (143 individuals)
San Francisco State College	84 family dwelling units 14 dormitory units (29 individuals)
San Jose State College	148 family dwelling units
Total	371 family dwelling units 200 dormitory units

COMPENSATION INSURANCE FUND

The California State Compensation Insurance Fund is a self-supporting enterprise created to offer employers insurance protection at the lowest possible cost. This fund operates in competition with other insurance carriers, acting as a yardstick for the securing of fair premium rates for employers and fair treatment for injured employees.

The fund is required by law to use the same rates and classifications established by the State Insurance Commissioner for insurers generally, and provides that the rates shall be only those sufficient to carry out the specific purposes stated in law.

BOARD OF STATE HARBOR COMMISSIONERS, SAN FRANCISCO—Continued

EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53
GENERAL ANALYSIS				
Number of positions	*485.7*	*493.8*	*493.8*	

The 1953-54 Budget provides for continuation of the current year increases of one public relations director for an expanded program for promotion of the use of harbor facilities; two harbor policemen for port operation; one freight solicitor for the Foreign Trade Zone; one port traffic representative; two steel rolling door repairmen for port maintenance; and four section men for the Belt Railroad.

Other costs are based upon the anticipated volume of business and necessary maintenance, except for the inclusion of funds to reimburse the City and County of San Francisco for operating losses incurred in providing passenger service to the new Mission Rock Terminal, Sections 3160 and 3162, Harbors and Navigation Code, authorizes such service and requires the board to determine charges therefor at a level not to exceed that which together with other revenues of the port are sufficient for the maintenance of the commerce of the port, including the maintenance of the passenger service.

MAINTENANCE OF FIREBOATS

Analysis

For 1952-53 Fiscal Year provision is made for reimbursement to the City and County of San Francisco of one-half of the cost of maintaining two fireboats on the San Francisco waterfront. For 1953-54 Fiscal Year provision is made for reimbursement to the City and County of San Francisco for total cost of maintaining one diesel fireboat on the San Francisco waterfront.

* It is anticipated that legislation will be introduced during the 1953 Regular Session to provide for the acquisition of two diesel powere fireboats.

Department of Veterans Affairs

DIVISION OF FARM AND HOME PURCHASES

The California Veterans Farm and Home Purchase Plan, originally created by the Legislature in 1921, permits the State Department of Veterans Affairs to assist a qualified California veteran of any war to acquire suitable farm or home property. Funds for the purchase of property are obtained through state bond issues. The amount advanced by the State for purchase of a farm or home is repaid by the veteran, at a low rate of interest, through uniform monthly payments over a period of years. Title is acquired by the State at the time of purchase and is transferred to the veteran upon completion of his purchase contract.

GENERAL ANALYSIS

The Veterans' Bond Act of 1951, making available a bond issue of $150,000,000 was approved by the people at the General Election in November, 1952, thus permitting the continuance of a purchasing program for qualified veterans that has been financed since June 1952, by advances from the General Fund, as authorized by Chapter 9, Statutes of 1952. These advances with interest at 1.74% are to be repaid to the General Fund from the proceeds of the first bond sale, which will occur on or about February 15, 1953, and will involve the sale of approximately $75,000,000 in bonds, of which an estimated $45,000,000 will be used to repay General Fund advances, with $30,000,000 being used to finance agency operations for the following six months. It is contemplated that subsequent bond sales will occur in August of 1953 and February of 1954 involving $35,000,000 and $40,000,000, respectively.

The level of average monthly purchases by fiscal year has increased from 664 in 1949-50 to 671 in 1951-52 with a five month average of 765 in 1952-53; this being the level used for the 1953-54 Budget. The major portion of these monthly purchases arises from refinancing of veterans homes and farms formerly purchased under the GI Bill and Federal Housing Authority, with a minor portion consisting of original construction.

Support

SALARIES AND WAGES: No additional positions are provided. Increased salary savings partially offset the cost of the authorized positions.

OPERATING EXPENSES: The increase results primarily from the estimated work load increase. Minor increases result from price increases; particularly in postage and rent of office space.

EQUIPMENT: The amount of $31,060 is an increase of $288 over 1952-53. It includes replacement equipment in the amount of $18,563 or 6.3% of equipment investment and $12,497 additional equipment.

Contributions to the State Employees' Retirement System reflects an extension of the agencies experience rate of the 1951-52 Fiscal Year.

Other Current Expenses

Veteran bonds, authorized by the electorate, issued and sold have provided the funds that are used by the State to acquire properties for resale to the veterans who contract to purchase the property on a moderate amortization basis. The installment payments furnish the funds for debt service on the State's veteran bonds and expenses of operation. The program is self-liquidating without cost to the State.

Department of Corrections

CORRECTIONAL INDUSTRIES REVOLVING FUND

PROGRAM

The Correctional Industries Revolving Fund constitutes a permanent working revolving fund in the sum of not less than $730,000 to be used for operating expenses (including equipment) in the work programs in the several prisons and institutions.

The Correctional Industries Commission is empowered to recommend and authorize productive industrial and agricultural enterprises involving a gross annual production of more than $25,000 value but less than $225,000 value. Work programs are under way in all institutions except the Medical Facility.

Activities range from farm and ranch operations to large industrial operations such as the license plate factory at Folsom.

Approximately 2,100 inmates will be employed during the 1953-54 Fiscal Year by the Correctional Industries and the majority of the inmates employed are paid, in accordance with their experience and skills, on a sliding scale up to 10 cents per hour for productive work as provided by Chapter 940, Statutes of 1949.

Correctional Industries at Chino, produced all of the individual room furniture units for the new institution for women at Corona. Capacity of the cannery was increased considerably and as a result a much larger pack of vegetables and fruit was processed during the 1952 canning season.

The new cannery building at Folsom was completed by July 1, 1952 and the current pack of peaches and tomatoes was processed in the new unit. The furniture refinishing building is currently being completed, and this enterprise should begin operations by January 1, 1953. The general manufacturing enterprise is working on a project to fabricate and assemble 52,870 littercots for the Office of Civil Defense. Plans are being prepared for a permanent industrial building which will house the heavy metals industries such as the license plate factory and the metal fabrication enterprise. Production on the new series 1956 license plates will begin in the 1953-54 Fiscal Year.

Preliminary engineering work on the proposed cotton textile mill for San Quentin has been completed. However, additional work is necessary before further action on this project can be taken. Legislative action is also required in order to amend existing laws before the proposed enterprise can be finally approved for activation. The clothing factory has been moved to the new industrial building in order to provide sufficient space for the furniture refinishing project.

At Soledad two new enterprises were activated during the latter part of the 1951-52 Fiscal Year. These were a clothing factory producing men's undershorts; and the juvenile specialties products enterprises making a wide variety of kindergarten floor blocks, work benches, teeter boards, easels, chart holders, and other items used by schools in the lower grades. These industries are now operating successfully while located in temporary quarters. Permanent structures to house these enterprises are under construction and should be completed by January 1, 1954.

Plans are being made to establish the ranch operations at the Deuel Vocational Institution when the new plant at the Tracy site is completed and occupied. Sufficient good land is available at the new location to permit successful agricultural operations to be carried on. New industrial buildings are also being constructed to house the existing mattress and tubular steel upholstered furniture enterprises; as well as to provide space for other industries that it is planned will be established for this institution.

Operations of the sewing enterprise at the California Institution for Women temporarily ceased due to the severe earthquake that occurred on July 21, 1952. The equipment has now been moved and installed in the new and larger industrial building on the grounds of the new institution at Corona, California. It is planned to diversify the production of this enterprise by making various kinds of articles of clothing that may be used by inmates of the mental and other institutions. This is now possible since the production of men's shorts has been largely transferred to the institution at Soledad.

During the year ending June 30, 1952, Correctional Industries operated 23 shops and factories plus 20 ranching enterprises distributed among six institutions, and employed between 1,350 and 1,700 inmates at various times throughout the year. This was from 13 to 14 percent of the total prison population. The fluctuation was caused by those industries that have seasonal peaks and low periods of employment such as the canneries and most of the ranching functions. The average number of inmates employed for the year was 1,488 or 12.3 percent of the total average population of 12,055. This includes the California Medical Facility where there are no industries at present; and the Deuel Vocational Institution where industries are limited because of the youthfulness of the inmates confined. These figures clearly indicate that there is still a pressing need for additional industries in the penal institutions.

CENTRAL OFFICE ADMINISTRATION

Analysis

SALARIES AND WAGES: The increase of $13,036 is primarily the result of the following proposed new positions:

1 Production engineer I	$6,060
1 Correctional industries representative	5,232

These positions are necessary to handle the increased work load in the entire correctional industries program. Considerable engineering work will be required, especially at Soledad and Deuel in the activation of new or expanded industries, additional work is anticipated in the sales division to handle sales for the existing and new industries and to more thoroughly cover the available marketing possibilities.

Analysis

SALARIES AND WAGES: Two proposed new positions are requested.

1 Truck driver—heavy $3,372

This position is proposed to deliver products to common carriers, other institutions, and stations, particularly because of expansion in the furniture refinishing industry. It will also supervise inmates in loading and unloading and provide hauling within the institution.

1 Assistant clothing factory superintendent $4,512

This position will assist and relieve the superintendent in this expanding enterprise which has moved to the new industrial building.

Analysis

SALARIES AND WAGES: Two new positions are requested:

1 Storekeeper II	$3,996
1 Accounting technician II	3,294

Both positions are requested because of the industries' expansion at Soledad. The storekeeper will handle stores received, maintain control by industry, and supervise packing and shipping. The accounting technician will assist and relieve the industries accountant and supervise inmate clerks in the proper preparation of documents. Both of these positions are used in industries operations in other institutions.

[a] Extended to full time, effective October 1, 1952, to improve cost accounting records on expanding sewing industry.

STATE EDUCATIONAL AGENCY FOR SURPLUS PROPERTY

urplus property of all federal agencies as well as surplus foods is made available to schools through the Surplus Educational Property Revolving Fund. All expenses of procuring, handling and distributing such property are paid from this fund and recovered by nominal service charges to school districts based on a percentage of the fair value of the property distributed. Any excess service and handling charges are refunded to the participating school districts after the close of each fiscal year. Reserves are maintained in the fund sufficient to meet any unliquidated obligations, including the $100,000 working capital advance from the General Fund.

WORKSHOPS FOR THE BLIND MANUFACTURING FUND PROGRAM

The California Industries for the Blind operates three production centers, at Oakland, Los Angeles, and San Diego. The Workshops for the Blind Manufacturing Fund is the revolving fund utilized by the California Industries for the Blind in its program of employment of blind and physically handicapped workers. The fund was created by Chapter 943, Statutes of 1949, by consolidating the assets and liabilities of the then existing Home for the Adult Blind Manufacturing Fund, the Los Angeles Industrial Workshop Manufacturing Fund, and the San Diego Industrial Workshop Manufacturing Fund. This fund constitutes a permanent revolving fund used to meet the expenses necessary to purchase the materials and production equipment, payment of wages and salaries and other expenses incident to the program of the California Industries for the Blind, in the State Department of Education. Monies received from the sale of products manufactured in the production centers, are paid into the State Treasury for credit to the fund.

Activities in the production centers are many and varied and include such items as the manufacture of brooms, mops, pillowcases, surgical drapes and wrappers, aprons, rugs, brushes, rubber mats, leather goods, and the fabrication and assembly of many products on a subcontract basis.

This program provides some training and work experience for persons who are placed in gainful employment outside the production centers, and there is coordination with the Bureau of Vocational Rehabilitation of the Department of Education for this purpose. The production center program is not considered, however, as one of the sequential steps for the placement of blind persons in private industry.

Approximately 450 blind and handicapped individuals will be employed during the 1953-54 Fiscal Year by the productions centers for the blind. The 1949 Legislature appointed a Joint Interim Committee on the State Program for the Adult Blind. That committee filed its report and recommendations on March 12, 1951, part of which recommendations were embodied in Chapter 1144, Statutes of 1951. The Department of Education, as well as other State departments, worked in cooperation with this committee in developing a long-range, well-rounded program to insure additional employment opportunities for the blind and handicapped residents of the State of California. The department is taking steps to effect better administrative control of these centers in accordance with the recommendations of the committee and is planning a research and development program which will increase the opportunities for diversification of employment and improve existing methods and procedures.

The proposed budget for 1953-54 reflects the positions felt necessary to approach the pattern desired to effectively coordinate and centralize to an economical degree the production, management, and control of the California Industries for the Blind. The justification for the request evolves from the necessity to change manufacturing emphasis from being dependent upon government orders to development of types of products readily saleable on the commercial market without hindering deveolpment of private enterprise.

PRINTING DIVISION

The Printing Division operates the State Printing Plant. The division does all of the printing for the various state agencies. Two of t larger activities are the printing required by the Legislature and the publication of textbooks for free distribution to the schoo The division is supported by charges made for printing services.

Office at Sacramento

PURCHASING REVOLVING FUND OPERATIONS

Budget provides for the overhead of Central Stores in Sacramento, San Francisco, and Los Angeles as well as the overhead of the state garages in Sacramento, San Francisco, and Los Angeles and the centralized radio maintenance program. These operations are financed by sales of materials and services to other agencies.

EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53
SUMMARY				
Purchase Revolving Fund				
SUPPORT				
Central Stores	$140,750	$159,053	$159,445	$392
State Garages	191,273	249,000	269,985	20,985
Radio Maintenance	301,548	610,107	616,463	6,356
TOTAL EXPENDITURES FOR SUPPORT	$633,571	$1,018,160	$1,045,893	$27,733
Contributions to State Employees' Retirement Fund	21,010	28,750	29,221	471
TOTAL EXPENDITURES	$654,581	$1,046,910	$1,075,114	$28,204

GENERAL ANALYSIS

Number of positions	*80.5*	*100.5*	*102.5*	*2*

The operations of Central Stores and radio maintenance are budgeted to continue at approximately the same level as in 1952-53. Expenditures for the State Garages show an increase due to the establishment of a preventive maintenance shop in San Francisco and the anticipated increase in motor vehicle pool activities.

CENTRAL STORES

Analysis

The total increase of $392 in this budget represents minor price adjustments. Work load for 1953-54 Fiscal Year is projected at the 1952-53 Fiscal Year level.

STATE GARAGES

Analysis

The over-all increase of $20,185 results primarily from the following:

SALARIES AND WAGES: Reflects an increase of $11,700 for three positions. $3,900 is to provide for one automobile mechanic in order to handle the increased volume of work orders in the Sacramento shop. $7,800 is to provide for two automobile mechanics to staff the proposed preventative maintenance shop in San Francisco.

OPERATING EXPENSES: Reflects an increase of $8,267. The expanding use of pooled vehicles results in an increase of $5,000, and $2,500 is provided for the proposed preventative maintenance shop in San Francisco.

SOIL CONSERVATION EQUIPMENT REVOLVING FUND

The Soil Conservation Equipment Revolving Fund created by Chapter 1032, Statutes 1949, as amended by Chapter 1646, Statutes 195 provides for the acquisition of soil conservation machinery, equipment, and buildings and rental thereof to soil conservatio districts. The fund consists of $1,000,000 appropriated thereto and all money received through rentals as amortization of loan made and as reimbursements for administrative expense. The fund is administered by the State Soil Conservation Commissio

Office at Sacramento

[a] In accordance with the provisions of Sections 400 to 404 of the Business and Professions Code, the Business and Professions Building was constructed and is being operated by the Department of Professional and Vocational Standards as a self-sustaining enterprise. Out of the rentals received from state agencies occupying space in the building and fees paid by users of its parking facilities, are defrayed the cost of operating and maintaining the building. The remaining receipts are apportioned back to the agencies contributing to the cost of the building in proportion to their respective investments.

Since the major receipts of this fund have been included as expenditures for rent in the budgets of the respective agencies occupying the building, its transactions are not carried into the budget totals.

Department of Public Works

DIVISION OF ARCHITECTURE REVOLVING FUND

Authorized by Section 14030 of the Government Code, the Division of Architecture Revolving Fund provides the Division of Architecture with a working revolving fund from which to pay the cost of architectural services and construction for state agencies. The resources of such fund consist entirely of transfers, subject to the approval of the Director of Finance, from appropriations for construction and improvements made to the several agencies. Expenditures are reported in the budgets of the agencies to which the appropriations were made. Any unexpended balance remaining after completion of a project is returned to the appropriation and fund of origin.

EXPLANATION OF ESTIMATED ACTIVITIES

The activities of the Division of Architecture are expected to continue at the present maximum effort level to fulfill the State's most urgent construction requirements as rapidly as possible.

ANALYSIS OF CASH FLOW THROUGH THE DIVISION OF ARCHITECTURE REVOLVING FUND FOR THE PERIOD JULY 1, 1952 TO JUNE 30, 1954

Balance as of June 30, 1952			$111,564,241
Estimated Amounts to Be Transferred to Revolving Fund: [a]			
Program	*1952-53*	*1953-54*	
Agriculture	$577,331	$259,000	
Corrections	11,300,000	11,200,000	
District Fairs	3,000,000	1,800,000	
Education	23,639,533	12,178,291	
Employment	646,473	655,300	
Finance	4,032,000	1,406,290	
Fish and Game	1,853,464	2,725,560	
Highway Patrol	70,000	263,000	
Mental Hygiene	25,975,027	23,273,400	
Military Affairs	3,198,048	1,178,850	
Motor Vehicles	124,385	12,150	
Natural Resources	521,672	1,156,809	
Public Health	571,267	-	
State Agricultural Society	2,255,000	205,000	
Veterans Affairs	1,680,000	1,650,000	
Youth Authority	7,050,000	3,750,000	
	$86,494,200	$61,713,650	
		86,494,200	$148,207,850
Total program for 1952-53, 1953-54 period			$259,772,091
Estimated Cash Balance June 30, 1954:			
Estimate of cash carry over balance representing lag between contracts in force and actual cash payment which may not be made until the subsequent year on a project progress or completion basis			$129,772,091
Estimated cash disbursements for 1952-53 and 1953-54 period			130,000,000
1952-53			*65,000,000*
1953-54			*65,000,000*

SALARIES AND WAGES: To accomplish this program the Division of Architecture employs personnel in the technical and craftsman classes as needed. The salaries of these employees are paid from project funds and such expenditures are reported as a portion of the project cost. The average number of persons employed during the 1951-52 Fiscal Year was 821 and it is estimated that approximately the same number will be employed during the current and subsequent fiscal periods.

LEGAL CITATIONS

The functions of the Division of Architecture are defined by Part 5, Division 3 of the Government Code and the following are the more significant provisions:

Section 14100. "The State Architect has general charge, under the department, of the erection of all state buildings * * *."

Section 14255. "Whenever provision is made by law for any project the project shall be under the sole charge and direct control of the Department of Public Works." A project is defined by Section 14254 as any construction or improvement of any state structure or improvement which will exceed $2,000 in cost.

Section 14256. If the total cost of the project will not exceed $20,000 the State Architect may, with the approval of the Director of Finance, authorize the agency concerned to carry out the project directly.

Sections 14270 to 14275 require full and complete plans and estimates prior to entering into any contract for a project; requires work on all projects be done under contract awarded to the lowest, responsible bidder except in the event it is found that such procedure is not in the best interest of the State; and prohibits awarding a contract in excess of the estimate.

Sections 14290 to 14402 prescribe in detail the contract procedure to be followed; including advertising for bids, qualification of bidders, award of contracts, and payment.

---

[a] Represents amounts of capital outlay projects set forth in the 1953-54 Budget estimated to be constructed by the Division of Architecture in accordance with the requirements of the State Contract Act. The amounts exclude most equipment, minor construction projects and repair work planned to be performed under supervision of the agency. Moneys in excess of the immediate requirements o the division are invested, the income accruing as revenue to the General Fund.

Department of Public Works

DIVISION OF WATER RESOURCES

This section reflects the fully reimbursable activities conducted by the Division of Water Resources for other agencies through the Division of Water Resources Revolving Fund, Flood Control Project Maintenance Revolving Fund, Water Commission Revolving Fund, and trust funds. Expenditures are reported in the budgets of the agencies to which the appropriations are made.

Various Funds

SUMMARY BY PROJECT

EXPENDITURES FOR SPECIAL ACTIVITIES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54

Anticipated additional water supply investigations				–	25,500	15,000
Storm and flood damage rehabilitation				825,400	176,500	–
Estimated additional flood damage projects				–	500,000	1,000,000
Prior Year Balances Available:						
Repair, restoration, and protection of ocean beach, City of Redondo Beach, Los Angeles County				4,560	–	–
Construction of Rector Canyon Dam and appurtenances for water supply of state institutions in Napa Valley				11,221	7,614	7,000
Repairs to Tule Lake Dam and diversion works for Department of Fish and Game				11,380	11,380	10,000
Construction of works for development and improvement of Mission Bay State Park, San Diego County				88,185	48,963	–
Repair, restoration, and maintenance of Jenner Jetty, Sonoma County				17,540	17,366	16,866
Investigation of the water resources of the Santa Ana River stream system				1,423	223	–
Construction of stream improvement structure, Navarro River				–	–	30,000
Investigation and construction of harbor improvements at Morro Bay State Park				1,871	–	–
Investigation of sites and supervision of construction of fish and game dam, El Dorado County				12,677	5,044	2,000
Investigation, planning, and construction of improvements at Doheny Beach State Park				17,461	–	–
Raising Suttenfield Dam, Sonoma State Home				51,290	16,284	–
Beach protection, City of Redondo Beach				4,947	39	–
Preparation of plans and specifications for fish and game on Holcomb Creek, San Bernardino County				690	657	–
Investigation of sites, and preparation of plans and specifications for fish and game dam in Tahoe National Forest				2,306	2,254	–
Investigation of sites, and preparation of plans and specifications for fish and game dam in Stanislaus National Forest				6,913	1,709	–
Investigation of a structure allowing the entrance of fish, Navarro River, Mendocino County				2,227	2,222	2,222
Preliminary investigations and surveys, Department of Fish and Game projects				1,896	1,507	–
Preparation of interim report on Oroville Project				47	–	–
Hearing on petition for exclusion of lands from North Kern Water Storage District				730	–	–

Department of Corrections

INMATE WELFARE FUND

he Inmate Welfare Fund is a fund in the State Treasury and constitutes a trust held by the Director of Corrections for the benefit, education, and welfare of all inmates of institutions and prisons under the jurisdiction of the Department of Corrections. ncluded in the fund are the net proceeds from the operation of canteens and hobby shops, the money and property of prisoners who escape and are not apprehended or who die without leaving heirs.

EXPENDITURES	ACTUAL 1951-52	ESTIMATED 1952-53	PROPOSED 1953-54	CHANGE FROM 1952-53
SUMMARY

TOTAL EXPENDITURES	$730,941	$727,485	$837,170	$109,685
Net Change in Stores Inventory	*—9,170*	–	–	–
Net Totals, Expenditures	$721,771	$727,485	$837,170	$109,685
REVENUES	$699,069	$713,045	$813,306	$100,261

GENERAL ANALYSIS

Changes in expenditures in most institutions are related to population changes. Increases are primarily the result of increased canteen purchases for resale, two additional positions for canteen management and acounting services, establishment of a new handicraft resale store at San Quentin and nominal increases in other operating expense items.

A continuing decrease in fund balance is anticipated, the balance amounting to 2.4% of the estimated expenditures for the 1953-54 Fiscal Year. This decrease is attributable in part to increased inventories for expanding institutions. The present trend toward a lower fund balance is anticipated to terminate with increased population and more adequate facilities currently being established.

MEDICAL FACILITY

Analysis

The increase of $5,791 is due primarily to larger canteen purchases for resale, increased supplies and equipment for entertainment, recreation, and religious activities, offset by decreases in newspaper publications, prizes and awards, and handicraft shop equipment.

INMATE WELFARE FUND—Continued

INSTITUTION FOR MEN, CHINO

Analysis

Minor increases in salaries and wages and operating expenses are offset by reductions in equipment items with a resultant decrease in expenditures.

STATE PRISON AT FOLSOM

Analysis

The increase of $1,946 is due to merit salary adjustments, increase in canteen purchases for resale, and increased general administrative charges offset, by reductions in other items.

INMATE WELFARE FUND—Continued

STATE PRISON AT SAN QUENTIN

Analysis

The increase of $69,141 is due primarily to increases in canteen purchases for resale resulting from a larger number of inmates participating in the handicraft program and the establishment of a new handicraft resale store; increased entertainment and recreational costs resulting from price increases for repair and maintenance of radio and television sets, athletic supplies, and miscellaneous operational costs increases. These increases are offset in some degree by decreases in salaries and wages and equipment.

STATE PRISON AT SOLEDAD

Analysis

The increase of $1,716 is due primarily to a proposed new position to provide accounting services for the expanded canteen activities resulting from an increase in population that has occurred during the past year. This service would be similar to that furnished in other large institutions.

INMATE WELFARE FUND—Continued

DEUEL VOCATIONAL INSTITUTION

Analysis

A portion of the increase of $24.562 is due to a new position of canteen manager required because of the increasing population. The cost of the position is partially offset by a $1,000 decrease in overtime. The remainder of the increase is due primarily to increases in canteen purchases for resale, increased entertainment and recreational costs, and the inclusion of accounting services rendered on a reimbursable basis by the Correctional Industries Revolving Fund.

DEPARTMENT OF EMPLOYMENT

The Department of Employment administers the state employment service and the unemployment and disability insurance system The department performs a minimum operation as agent for the United States Veterans Administration in administering th final phases of Title V of the Servicemen's Readjustment Act of 1944. In addition, on October 15, 1952, the department will star performing functions in connection with the Veterans Readjustment Assistance Act of 1952, which provides for unemploymen allowances to veterans of the Korean War. This latter program will be administered by the U. S. Department of Labor. Th department also administers, on behalf of the Department of Finance, the program of old age and survivors insurance coverag for political subdivisions within the State. The cost of administering the employment service, the unemployment insurance system and the Veterans Administration programs is financed almost entirely from federal funds. The cost of administering the disabilit insurance system is paid out of the Unemployment Compensation Disability Fund, which is derived from contributions by covere employees. The administrative costs of the old age and survivors insurance program are derived from the subject subdivision by assessment.

GENERAL ANALYSIS

Number of positions	*4,116.5*	*4,254.1*	*4,352.5*	*98.4*

The expenditures from the Unemployment Administration Fund are those financed by federal grants, the amounts being allocated by the Bureau of Employment Security of the United States Department of Labor. The amounts allocated to a particular state are dependent upon work load and the over-all amount appropriated by Congress for grants to states for employment service and unemployment insurance operations. The amount estimated for 1953-54 represents the department's estimate of probable grants based upon estimated work loads multiplied by unit times approved by the Bureau of Employment Security for 1952-53.

The Department of Employment has requested the Bureau of Employment Security for 32.5 new positions for the Auditing Section-Field Offices to provide for a more adequate program. This requested increase is not reflected in this budget as it appears unlikely that the national appropriation will permit the granting of additional funds for such purposes.

The disability insurance program is financed out of the Unemployment Compensation Disability Fund in the State Treasury and is subject to state control as contrasted with other activities of the Department of Employment which are financed from federal grants and therefore subject to considerable federal control. Disability insurance provides benefit payments to covered employees who are out of work because of sickness or nonindustrial injuries. The expenditures proposed for Fiscal Year 1954 are based upon estimated work load, principally expressed in the number of claims filed and benefit payments.

The amount requested for support from the Department of Employment Contingent Fund is to provide for one-half of the cost of operation of the Division of Development and Stabilization of Employment. This Division works with local communities in the promotion and development of employment programs. The other half of the amount required for support of this Division is paid from federal funds.

---

[a] Composed of savings in salaries and wages, $57,815; operating expenses, $16,420; and equipment, $4,455.

[b] Composed of savings in salaries and wages, $57,170.

[c] Expenditures are included in the over-all State Operations Budget totals. Detail is shown here as expenditures are in integral part of total employment program.

DEPARTMENT OF EMPLOYMENT—Continued

DIVISION OF APPEALS

Unemployment Insurance Appeals Board

Analysis

The three members of the California Unemployment Insurance Appeals Board constitute the final administrative body vested by la with the responsibility of reviewing and deciding appealed matters relating to disputed unemployment insurance and disabili benefit determinations and employer tax liability. The Appeals Board also exercises general administrative direction over tl operations of the entire Division of Appeals, including area offices of the Division of Appeals. The Appeals Board also hears appea from rules and regulations proposed by the director.

Referees Section

Analysis

The Division of Appeals has area referee offices in San Francisco, Sacramento, and Los Angeles. These three offices are under the supe vision of the chief referee and each office is supervised by a senior referee. In each area referee office there is a staff of referees wl have the responsibility in the first instance of hearing and deciding appeals from determinations relating to unemployment insuran and disability benefits, overpayment determinations, and determinations involving eligibility for benefits under the Servicemen's Rea justment Act. The referees also hold hearings on behalf of the Appeals Board in disputed employer tax liability matters.

DIVISION OF ADMINISTRATIVE SERVICES

Administration

Analysis

The Chief of the Division of Administrative Services—Comptroller directs the activities of the Fiscal, Personnel, and Administrative Analysis Sections, Area Business Management Unit and Training Section.

The Building Management Unit coordinates the negotiations for leasing of premises; coordinates the departmental building program; and arranges for securing sites for construction of state-owned buildings.

Area Business Management Unit

Analysis

The Area Business Management Units advise the area and field office managers on fiscal and personnel management procedures; develop proposals for maintenance of equipment and changes in field office premises and improvements in physical facilities; negotiate with lessors on terms of leases; secure bids from contractors; determine equipment needs for the area; authorize public utility installations, maintain personnel and payroll roster records for all positions in the area and process personnel documents; interview, select and assign eligible applicants for clerical positions.

The internal auditors in the Area Business Management Units audit financial operations and records in all field offices; verify cash balances; determine whether prescribed security measures are observed for the safety of cash; ascertain that prescribed local office cash payment procedures are being followed and examine overpayment collection accounts and receipts.

Administrative Analysis Section

Analysis

The Administrative Analysis Section has as its primary functions the assistance of management in coordinating intersectional operations and in analyzing the efficiency and effectiveness of designated operations and organizational units. These functions are carrie out through coordination and development of procedural plans affecting more than one section or division; control of the system of manuals, notices, and forms; and by the making of administrative analyses and recommendations concerning departmenta methods, procedures, organizations, and administrative practices.

The section also acts as consultants to management on methods of operation, form design, manual preparation, and principles of organization.

DIVISION OF PUBLIC EMPLOYMENT OFFICES AND BENEFIT PAYMENTS

General Administration

Analysis

The Department of Employment is administered by the Director of Employment. He is appointed by the Governor, subject to the approval of the Senate, from the membership of the California Employment Stabilization Commission. He is appointed for an indefinite term and serves at the pleasure of the Governor. He is responsible for all phases of the administration of the Californi Unemployment Insurance Act, except certain quasi-judicial and quasi-legislative functions which are the responsibilities of the commission and the Appeals Board respectively. He acts as chairman of the California Employment Stabilization Commission.

DEPARTMENT OF EMPLOYMENT—Continued

DIVISION OF PUBLIC EMPLOYMENT OFFICES AND BENEFIT PAYMENTS—Continued

General Administration—Continued

Analysis—Continued

The director appoints a deputy director to assist him in directing the activities of the department. The deputy director coordinates the activities of the department and makes policy and administrative determinations on matters not requiring the personal attention of the director. He acts for the director in his absence.

Operations Review Section

Analysis

The Operations Review Section reviews area and local office reports to determine need for more extensive evaluation of local office programs; cooperates with central office staff in determining program needs and in the review and development of proposed policies, programs, and procedures; prepares and effectuates periodically a state-wide plan of evaluating specific local office programs; participates in the installation of the local office management and other programs; participates in general administrative review of local office operations; makes evaluation studies as directed by the assistant chief of the division and directs the area manager to take appropriate action to correct operating weaknesses.

DIVISION OF DEVELOPMENT AND STABILIZATION OF EMPLOYMENT

Analysis

The Division of Development and Stabilization of Employment plans and develops programs for the development of job opportunities and the stabilization of employment in order to carry out the objectives of Sections 1 and 91 of the California Unemployment Insurance Act. Also administers a program for stimulation of small business development. The increase is due to the proposed new position to assist in the development of the aids to small business program.

STATE ADVISORY COUNCIL

Analysis

The State Advisory Council is composed of 12 members representing employers, employees, and the public, for the purpose of formulating policies and discussing problems relating to the administration of Sections 92 and 93 of this act, and of making recommendations in regard thereto to the commission, and of assuring impartiality, neutrality, and freedom from political influence in the solution of such problems.

DIVISION OF DISABILITY AND HOSPITAL BENEFITS

Analysis

The Division of Disability and Hospital Benefits—Central Office Operations develops plans, standards and procedures for, and evaluates all disability insurance claim operations (including hospital confinement benefits); reviews state first claims for disability insurance to determine whether they meet minimum standards; reviews voluntary plan claim reports to determine whether they meet minimum standards; gathers and prepares data to be submitted with voluntary plan appeals; handles correspondence regarding state and voluntary plan inquiries on benefits; reviews state disqualifications and appeals; reviews voluntary disability insurance plans and makes recommendations for approval.

GENERAL ANALYSIS

Under a stipulation approved by the United States Supreme Court all of the revenues derived from marginal sea areas are impounded pending final determination of the litigation. Funds impounded between June 23, 1947, and September 30, 1950, are deposited in the State Treasury. Funds impounded after September 30, 1950, are deposited in the United States Treasury.

The renewals of the stipulation of August 21, 1950, provided for the reimbursement of the State for its expenses in administration and supervision of leases involving the marginal sea areas from funds impounded prior to October 1, 1950, at the rate of $12,000 per month. This amount was increased to $14,000 per month by the renewal stipulation approved September 24, 1951.

It is estimated that on June 30, 1954, there will be $27,626,361 impounded in the State Treasury and $38,686,504 impounded in the United States Treasury. A more detailed analysis of the revenue and ependitures follows.

BOARD OF ADMINISTRATION

STATE EMPLOYEES' RETIREMENT SYSTEM—LEGISLATORS' RETIREMENT SYSTEM

The State Employees' Retirement Fund and the Legislators' Retirement Fund are trust funds maintained by the State for accumulation of contributions from the State and employee members to be used for payment of death and retirement benefits. In addition to state employees the system is available to other public agencies under a contractual arrangement.

TEACHERS' RETIREMENT FUNDS

FUND CONDITION	ACTUAL 1951-52	ESTIMATED 1952-53	ESTIMATED 1953-54

The State Teachers' Retirement System is composed of approximately 130,000 active accounts. Approximately 13,000 members will receive retirement benefits during 1952-53. The present system became operative July 1, 1944.

Three major funds constitute the State Teachers' Retirement System. They are the Teachers' Permanent Fund, the Retirement Fund, and the Annuity Deposit Fund.

The Teachers' Permanent Fund receives its revenues from members contributions, contributions from the local school district, interest from invested surplus, and yearly appropriations by the State from the General Fund. Retirement benefits from this fund are $600 per year.

The Retirement Annuity Fund receives its revenue from members' contributions, interest from invested surplus, and yearly appropriations by the State from the General Fund. Retirement benefits from this fund are computed on the basis of the members' total contributions. Subventions are made to local retirement systems in lieu of State Teachers' Retirement System payments.

The Annuity Deposit Fund consists of members' annuity deposits made between July 1, 1935, and July 1, 1944, together with the interest earned thereon. Members who have contributed to this fund receive an annuity at the time of their retirement based upon the amount deposited by the member to the Annuity Deposit Fund.

TEACHERS' PERMANENT FUND[a]

FUND CONDITION	ACTUAL 1951-52	ESTIMATED 1952-53	ESTIMATED 1953-54

JUDGES' RETIREMENT SYSTEM

The Judges' Retirement Fund receives contributions from the State in the amount of 2½ percent of the salaries of justices of the Supreme Court and of the district courts of appeal, and judges of the superior courts, and municipal courts. A like amount is deducted from the salaries of the justices and judges and deposited in the fund. There are now 392 members contributing to the retirement fund.

[a] A trust fund. Neither revenue nor expenditures are included in budget totals.

EXPLANATION OF SUNDRY OTHER FUNDS FOR WHICH DETAIL TRANSACTIONS ARE NOT REPORTED IN THE BUDGET

(For fund balances see Schedule 6)

BALLOT PAPER REVOLVING FUND: Created to provide funds for the purchase of paper stock for printing ballots for state elections. The fund is reimbursed from the sale of the stock to the several counties.

OLD AGE AND SURVIVORS INSURANCE REVOLVING FUND: A revolving fund for administration of public employees and employer's contributions to old age and survivors insurance programs.

PAY ROLL REVOLVING FUND: A revolving fund to provide for the central pay roll system.

TOLL BRIDGE AUTHORITY REVOLVING FUND: The fund was created to pay necessary expenses of the Toll Bridge Authority under the direction of the Department of Public Works in building, purchasing, or acquiring toll bridges and approaches thereto. The fund is replenished as specific toll bridges are acquired and construction funds or toll revenues become avaliable. No activity contemplated.

INDIA BASIN SINKING FUND: Moneys are transferred from the San Francisco Harbor Improvement Fund and interest is earned on investment of these moneys to provide for payment of interest and redemption of San Francisco Harbor Bonds.

SAN FRANCISCO SEAWALL SINKING FUND NO. 2: Moneys are transferred from the San Francisco Harbor Improvement Fund and interest is earned on investment of these moneys to provide for payment of interest and redemption of San Francisco Harbor Bonds.

SAN FRANCISCO SEAWALL SINKING FUND NO. 3: Moneys are transferred from the San Francisco Harbor Improvement Fund and interest is earned on investment of these moneys to provide for payment of interest and redemption of San Francisco Harbor Bonds.

SAN FRANCISCO SEAWALL SINKING FUND NO. 4: Moneys are transferred from the San Francisco Harbor Improvement Fund and interest is earned on investment of these moneys to provide for payment of interest and redemption of San Francisco Harbor Bonds.

CALIFORNIA STATE PARK FUND OF 1927: No further expenditure to be made from this Bond Fund.

SAN FRANCISCO SEAWALL NO. 4 (Bond Fund): All the authorized bonds have not been sold to date. No estimate has been made of the probable future sale of these bonds nor the construction of the projects from the proceeds of the sale.

AGRICULTURE BUILDING FUND, DEPARTMENT OF: Moneys are transferred from the Department of Agriculture Fund to this fund on a loan basis to provide funds for construction of a building. Rentals will be paid into the fund and will be returned to the Department of Agriculture Fund.

MONTAGUE WATER CONSERVATION DISTRICT CONDEMNATION FUND: There remains a balance of $48 from a deposit of $29,054 under court order in 1932. The district condemned land in Siskiyou County and was required to make the deposit in order to obtain possession of the land.

PUBLIC BUILDING RECONSTRUCTION FUND: Contains the unexpended remainder of federal funds advanced to the State for replacement and reconstruction of public buildings destroyed by earthquakes since January, 1933. The fund is reimbursed for any amounts advanced and returned to the Federal Government. There is no current activity in this fund.

SAN FRANCISCO-OAKLAND BAY BRIDGE CONSTRUUCTION FUND: Consists of the remainder of the proceeds received from the sale of the revenue bonds sold for the building of the San Francisco-Oakland Bay Bridge.

SCHOOL LAND FUND: A nonexpendable endowment fund for public school purposes. Revenues consist of payment of principal and purchase price on sale of school lands. The interest received on the investment of this fund is deposited in the School Fund.

SCHOOL LAND DEPOSIT FUND: Consists of deposits made by applicants for purchase of school lands. Balance consists of applications not yet acted upon. There is no current activity in this fund.

SPECIAL DEPOSIT FUND: Accumulation of numerous trust funds deposited by state and private agencies for a specific purpose. This fund also contains unclaimed checks and deposits pending either payment to the proper persons or transfer to the General Fund. There is impounded oil royalties held pending final decision of ownership of marginal sea lands. The transactions of this fund are so numerous and so indefinite that no attempt is made to estimate the volume that will flow through the fund.

SPECIAL DEPOSIT FUND: SAN FRANCISCO WORLD TRADE CENTER AUTHORITY ACCOUNT: This account within the Special Deposit Fund was authorized by Chapter 1189, Statutes of 1949, for expenses incidental to the acquisition, construction, financing, promotion and operation of a world trade center in San Francisco. Funds were authorized from the San Francisco Harbor Improvement Fund, subject to repayment from the sale of revenue bonds. The Authority is cooperating with the Board of State Harbor Commissioners.

STATE PARK CONTINGENT FUND: Receives moneys from gifts, bequests, from municipal or county appropriations, or donations, for improvements, additions or administration of the State park system. The amounts received are disbursed in accordance with the provisions of the donations.

SURPLUS MONEY INVESTMENT FUND: Moneys in the various special funds which are not currently needed are declared surplus and transferred to this fund where they are available for investment. The money is returned to the special funds when needed. The interest received is shown as revenue for the General Fund, Fish and Game Preservation Fund, Motor Vehicle Fund, and Motor Vehicle Fuel Fund.

As the transactions of this fund involve the purchase and sale of securities as well as receipts of surplus moneys and disbursement of interest earned, no estimate is made of the volume of such transactions.

TAX DEED LAND RENTAL TRUST FUND: Receipts are derived from leases made by the State Controller covering property deeded to the State for taxes. The rentals are paid semiannually to the county in which the property is located for distribution to the taxing agencies.

TEACHERS' RETIREMENT DISBURSEMENT FUND: This is a fund used for the convenience of accounting for disbursements for teachers' retirement benefit payments. Moneys are transferred to this fund from the Teachers' Permanent Fund and the Teachers' Retirement Annuity Fund

TORRENS TITLE ASSURANCE FUND: Fund contains unexpended balance of fees and investment income of $\frac{1}{10}$ of 1 percent of assessed value of land and improvements insured under the Torrens Title Assurance Act. An outstanding judgment against the fund exceeds the assets of the fund. There is no current activity in the fund.

TREASURY TRUST DEPOSITS: Provides for the State Treasurer's central banking system.

UNCLAIMED PROPERTY FUND: This fund accounts for all unclaimed moneys held by the State.
